OTTOCAST Mini Pico

OTTOCAST Mini Pico Wireless CarPlay/Android Auto Adapter User Manual

Model: Mini Pico

1. PRODUCT OVERVIEW

The OTTOCAST Mini Pico is a compact wireless adapter designed to convert existing factory-wired CarPlay and Android Auto systems into wireless functionality. It provides a seamless and stable connection for a smarter, cleaner, and more connected driving experience.

Key Features:

- **Wireless Conversion:** Transforms wired CarPlay and Android Auto into wireless.
- **Advanced Connectivity:** Equipped with Wi-Fi 6 and Bluetooth 5.4 for faster data transfer, lower latency, and enhanced signal stability.
- **Smart Memory Function:** Automatically recognizes and reconnects to your phone upon car startup.
- **One-Touch Disconnect:** Allows instant termination of a CarPlay session for easy switching between users.
- **Compact Design:** Sits flush with your car's USB port, maintaining a tidy dashboard.
- **Original Car Control Retention:** Supports touch screen, steering wheel, and knob controls.

2. COMPATIBILITY CHECK

Before using the OTTOCAST Mini Pico, ensure your vehicle and smartphone meet the following compatibility requirements:

- **Vehicle Compatibility:** Your car must have a factory-installed wired CarPlay or Android Auto system and

be equipped with a touch display.

- **Smartphone Compatibility:**

- **iPhone:** iOS 10 or later (iPhone 6 or newer).
- **Android:** Android 11 or later.

3. SETUP INSTRUCTIONS

Follow these simple steps to set up your OTTOCAST Mini Pico adapter:

1. Plug In the Adapter:

Connect the OTTOCAST Mini Pico to your car's USB port. The package includes a free USB-A to USB-C adapter for versatile connection options.

2. Turn On Bluetooth & Wi-Fi:

On your smartphone, enable both Bluetooth and Wi-Fi. Search for and pair with the device named "CAR2-XXXX" (the specific name will be displayed on your car's screen or the adapter's indicator).

3. Connect Wirelessly:

Once paired, select the device on your car's display to initiate the wireless CarPlay or Android Auto connection.

Connect in 3 Simple Steps

Image: A visual guide illustrating the three simple steps to connect the adapter.

Automatic Connection:

The Mini Pico features smart memory functionality. After the initial setup, it will automatically recognize and reconnect to your phone every time you start your car, eliminating the need for manual pairing.

4. OPERATING INSTRUCTIONS

Wireless CarPlay and Android Auto:

Once connected, your car's display will show the CarPlay or Android Auto interface wirelessly. You can access

navigation, music, calls, and other compatible applications directly from your car's screen.

Supports CarPlay & Android Auto Seamless Wireless Connection for Every Driver

Maintaining Original Car Controls:

The adapter is designed to work seamlessly with your car's existing control methods, including:

- Touch Screen
- Steering Wheel Controls
- Knob Controls

Keep Original Car Controls

One seamless driving experience

5. MAINTENANCE

The OTTOCAST Mini Pico requires minimal maintenance. To ensure optimal performance and longevity:

- Keep the device clean and free from dust and debris.
- Avoid exposing the device to extreme temperatures or moisture.
- Ensure proper handling to prevent physical damage.

6. TROUBLESHOOTING

If you encounter issues with your OTTOCAST Mini Pico, consider the following:

Connection Issues:

- **No Connection/Frequent Disconnections:**
 - Ensure your car's wired CarPlay/Android Auto system is functional before connecting the adapter.
 - Verify that Bluetooth and Wi-Fi are enabled on your smartphone and correctly paired with the adapter.
 - Try restarting your car's infotainment system and your smartphone.
 - Ensure the adapter is securely plugged into the USB port.
 - Check for any physical obstructions or interference near the adapter or your phone.
- **Slow Connection/Lag:**
 - The Mini Pico uses Wi-Fi 6 and Bluetooth 5.4 for optimal speed. Ensure your phone's Wi-Fi is active and not just relying on cellular data for the connection to the adapter.
 - Close unnecessary applications on your smartphone to free up resources.

Audio/Control Issues:

- **Skipping Audio/Distortion:**
 - Check your phone's audio settings and ensure no other Bluetooth devices are interfering.
 - Ensure a strong Wi-Fi signal between the adapter and your phone.
- **Car Controls Not Responding:**
 - Restart the adapter by unplugging and replugging it.
 - Ensure your car's infotainment system software is up to date.

General Advice:

- Always refer to the latest firmware updates for the OTTOCAST Mini Pico, if available, to improve performance and resolve known issues.
- If problems persist, contact OTTOCAST customer support for further assistance.
