Maintenance and Care

Proper care will extend the life and appearance of your bed frame.

- **Cleaning the Upholstery:** The velvet fabric is designed to be easy to clean. For light dust, use a soft brush or vacuum with an upholstery attachment. For spills, blot immediately with a clean, dry cloth. For tougher stains, a mild fabric cleaner can be used, testing on an inconspicuous area first.
- **Frame Care:** Periodically check all bolts and screws and tighten them if necessary to maintain stability.
- **Avoid Direct Sunlight:** Prolonged exposure to direct sunlight may cause the fabric color to fade.
- **Avoid Harsh Chemicals:** Do not use abrasive cleaners or harsh chemicals on any part of the bed frame.

Squeaking noises.	Loose connections. Friction between parts.	Tighten all assembly hardware. Apply a small amount of lubricant (e.g., silicone spray) to contact points between metal or wood components if tightening does not resolve the issue.
