Step 4.1: Assemble the Frame

1. Lay out the main frame components (A, B, C, D, E, F) on a clean, soft surface to prevent scratches.
2. Connect the side rails and head/foot end rails using the provided screws. **Do not tighten the screws completely yet.** Ensure the holes for the slats face inward.
3. Attach the support legs (H) to the frame. Ensure the holes face upward for later slat installation.
4. Once all frame components are loosely assembled, check that all joints are aligned and flush. Then, tighten all screws securely using the Allen key.
5. Install the center support bracket (S) if applicable, securing it with the designated screws.

Step 4.2: Install the Slats

1. Insert the slat connectors (4) into the designated slots on the side rails.
2. Place the slats (G) onto the frame, ensuring they fit securely into the connectors. The slats are designed for quick-lock installation.

Step 4.3: Install Mattress Retainers

1. Locate the designated holes on the bed frame for the mattress retainers (5).
2. Align and insert the mattress retainers into the holes, then twist to lock them into place. These retainers prevent the mattress from sliding.

6. Maintenance

To maintain the quality and appearance of your bed frame:

- Wipe the metal surfaces with a dry cloth to remove dust and debris.
- Avoid using harsh chemicals or abrasive cleaners, as these can damage the finish.
- Periodically check all screws and connections to ensure they remain tight. Re-tighten as necessary.
