## TELESIN Master Grip Kit for iPhone 17 Pro

# TELESIN Master Grip Kit for iPhone 17 Pro Instruction Manual

**Brand:** TELESIN | **Model:** Master Grip Kit for iPhone 17 Pro

---

## INTRODUCTION

---

The TELESIN Master Grip Kit for iPhone 17 Pro is designed to enhance your mobile photography and videography experience. This kit provides a magnetic phone camera grip with wireless charging capabilities, a C03 Selfie Light, UV Filter, Black Mist 1/4 Filter, and a Graphene Case for iPhone 17 Pro. It offers DSLR-like stability and control, integrated app functionality, and expandable accessory options.

## PACKAGE CONTENTS

---

Please verify that all items listed below are included in your package:

- TELESIN Master Grip x 1
- C03 Selfie Light x 1
- UV Filter x 1
- Black Mist 1/4 Filter x 1
- Graphene Case for iPhone 17 Pro x 1
- Wrist strap x 1
- Charging cable x 1
- Instruction Manual x 1

## Package List

Phone case ×1, TELESIN Master Grip ×1,  
UV filter ×1, Magnetic fill light ×1, Wrist strap  
×1, Charging cable ×1, Instructions ×1

## SETUP

---

### 1. Attaching the Graphene Case and Master Grip

Place your iPhone 17 Pro into the provided Graphene Case. The Master Grip attaches magnetically to the back of the Graphene Case, ensuring a secure connection and proper alignment for wireless charging and control.

Figure 2: Master Grip attached to the iPhone 17 Pro with Graphene Case.

## 2. Wireless Charging

The Master Grip features a built-in 3200mAh battery for fast wireless charging of your iPhone 17 Pro. It can also power another device simultaneously via a cable. Ensure the grip is securely attached for optimal wireless charging.

## 4. Attaching Magnetic Filters

The Master Grip kit includes a UV Filter and a Black Mist 1/4 Filter. These filters attach magnetically to the lens area of the Graphene Case, allowing for quick changes and creative effects. Ensure the filters are clean and properly seated.

# Magnetic Filters Modular Flexibility

CNC aluminum rails with magnetic mount enhance iPhone lens cooling and filter expansion.

## Filter Options

UV | Black Mist | Adapter Ring | CPL | VND

\*Filters & adapter rings not included; sold separately.

## OPERATING INSTRUCTIONS

### 1. Basic Controls

The Master Grip provides physical controls for photography and videography. These include a two-stage mechanical shutter button and an adaptive zoom dial.

- **Two-Stage Mechanical Shutter:** Half-press to focus and lock exposure; full-press to capture a photo or

start/stop video recording.

- **Adaptive Zoom Dial:** Provides 0.1x precision adjustments in photo mode and 1-3x cinematic smooth zoom in video mode.

## Mechanical Shutter & Zoom Dial Maximizes New Telephoto

Optimized for iPhone 17's telephoto lens. Achieves stable 8x zoom control while minimizing touchscreen jitter.

## 2. Using the ReefColor App

The ReefColor App unlocks the full potential of the Master Grip. It allows for continuous OTA firmware updates and integrates eight master-level filters to enhance your iPhone imaging. The app provides professional parameter adjustments and addresses shortcomings of the original camera design.

- **AI Master Filters:** Real-time ambient sensing auto-optimizes parameters, allowing for pro-grade styles without expertise.
- **Custom Keys:** Customize Fn buttons via the app. Bind filter intensity, EV, shutter speed, ISO, or WB to the dial.

Video 2: TELESIN Master Grip App Operation Guide. This video demonstrates how to use the Master Grip to control photography, zooming, and exposure adjustment, and how to customize button functions within the ReefColor app.

## Reef Color App Redefines iPhone Imaging

Bridges native camera's stylistic gaps with 8 Pro filters and precision parametric controls. Unlocks hardware potential via dynamic OTA tuning.

AI

## AI Master Filters Pro-Grade Styles Effortlessly Captured

Real-time ambient sensing auto-optimizes parameters. Achieve pro-grade styles straight-out-of-camera, zero expertise required.

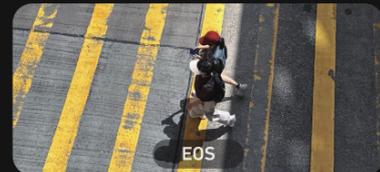

Figure 10: AI Master Filters for effortless pro-grade styles.

## Custom Keys Beloved by Pros

Customize Fn buttons via app. Easily switch dial functions. Bind filter intensity, EV, shutter speed, ISO, or WB to dial.

Figure 11: Custom Key functionality for personalized control.

### 3. Ergonomics and Stability

The Magsafe phone camera grip is designed for DSLR-like balance and stability. Its compact ergonomic finger-hook design enhances your handle, making it comfortable for extended use and easy to carry.

# Thumb Rest Anti-Touch Protection

Prevents accidental touches and camera exits by locking thumb in place with dedicated ergonomic rest.

Figure 12: Ergonomic design with thumb rest for anti-touch protection.

## MAINTENANCE

### 1. Cleaning

Wipe the Master Grip and Graphene Case with a soft, dry cloth. Avoid using harsh chemicals or abrasive materials that could damage the surfaces. Ensure filters are kept clean for optimal image quality.

## 2. Firmware Updates

The ReefColor App allows for continuous OTA (Over-The-Air) firmware updates. Regularly check the app for available updates to ensure your Master Grip has the latest features and performance enhancements. Follow the in-app instructions for firmware updates.

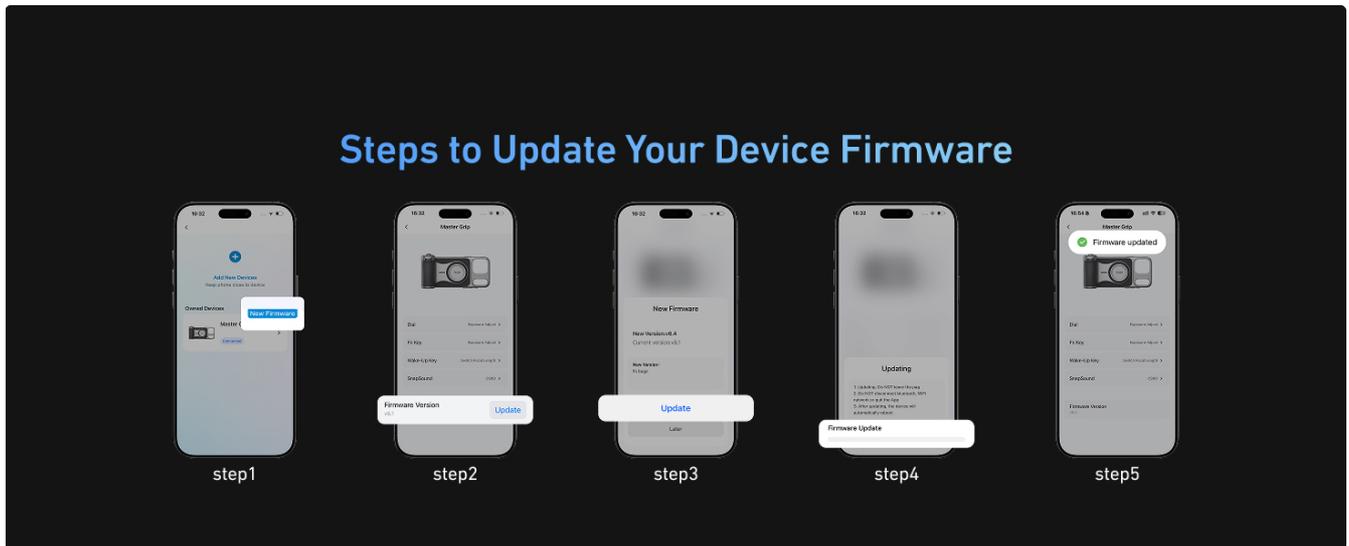

Figure 13: Steps to update your device firmware.

## 3. Storage

Store the Master Grip Kit in a cool, dry place away from direct sunlight and extreme temperatures when not in use. Keep filters in their protective cases to prevent scratches.

## TROUBLESHOOTING

- **Device not connecting via Bluetooth:** Ensure the Master Grip is powered on and its indicator light is flashing green. Check your iPhone's Bluetooth settings and the ReefColor app for pairing options. Restart both devices if necessary.
- **Wireless charging not working:** Verify the Master Grip is securely attached to the Graphene Case and your iPhone. Ensure the grip itself is charged. Check for any obstructions between the grip and the phone.
- **Buttons unresponsive:** Confirm the Master Grip is connected to the ReefColor app. Check the app's custom key settings to ensure buttons are assigned correctly.
- **Poor image quality with filters:** Ensure filters are clean and free of smudges or dust. Check that they are correctly aligned over the iPhone's camera lenses.

## SPECIFICATIONS

Brand	TELESIN
Model	Master Grip Kit for iPhone 17 Pro
Special Feature	Ergonomic Design, Wireless Charging, App Control
Material	Acrylonitrile Butadiene Styrene (ABS)
Grip Type	Phone Grip
Item Weight	200 Grams
