Sino Luban CC

Sino Luban Metal Large Chicken Coop Run (6.6x6.6 FT) - Instruction Manual

Model: CC

1. Introduction

Thank you for choosing the Sino Luban Metal Large Chicken Coop Run. This manual provides essential information for the safe and efficient assembly, operation, and maintenance of your new poultry enclosure. Please read all instructions carefully before beginning assembly and retain this manual for future reference.

2. Safety Information

- **Adult Assembly Required:** This product should be assembled by adults only.
- **Secure Anchoring:** Always ensure the coop is securely anchored to the ground using the provided ground stakes to prevent tipping or movement due to wind or animal activity.
- **Inspect Regularly:** Periodically check all components for wear, damage, or loose connections. Replace any damaged parts immediately.
- **Predator Protection:** While designed for protection, no enclosure is entirely predator-proof. Regularly inspect the mesh and ground perimeter for any signs of tampering or potential entry points.
- **Ventilation:** Ensure adequate ventilation for the poultry, especially during warm weather.
- **Sharp Edges:** Exercise caution during assembly and handling of mesh to avoid cuts or scrapes. Wearing protective gloves is recommended.

3. Package Contents

Before assembly, verify that all components listed below are present and undamaged:

- Galvanized Steel Pipes (Frame components)
- Small Mesh Hardware Cloth (Enclosure walls)
- Waterproof Cover (Roof tarp)
- Rubber Ropes (For securing cover)
- Ground Stakes (For anchoring)

- Connectors and Fasteners (For frame assembly)
- Zip Ties (For attaching mesh)

Figure 3.1: Overview of included components.

4. Setup and Assembly

Follow these steps to assemble your Sino Luban Metal Large Chicken Coop Run. It is recommended to have at least two people for assembly.

4.1. Frame Assembly

1. Lay out all galvanized steel pipes and connectors on a flat, open surface.
2. Connect the base frame pipes according to the provided diagrams, ensuring all connections are secure.
3. Attach the vertical support pipes and roof frame pipes, forming the basic structure of the coop. The snap-button design allows for easy connection of the pipes.
4. Install the door frame within the designated opening.

Figure 4.1: Assembling the metal frame.

4.2. Mesh Installation

1. Unroll the small mesh hardware cloth.
2. Starting from one end, attach the mesh to the frame using the provided zip ties. Ensure the mesh is taut and covers all open sides and the roof area.
3. Trim any excess mesh as needed, being careful to leave no gaps. The small mesh design helps prevent predators.

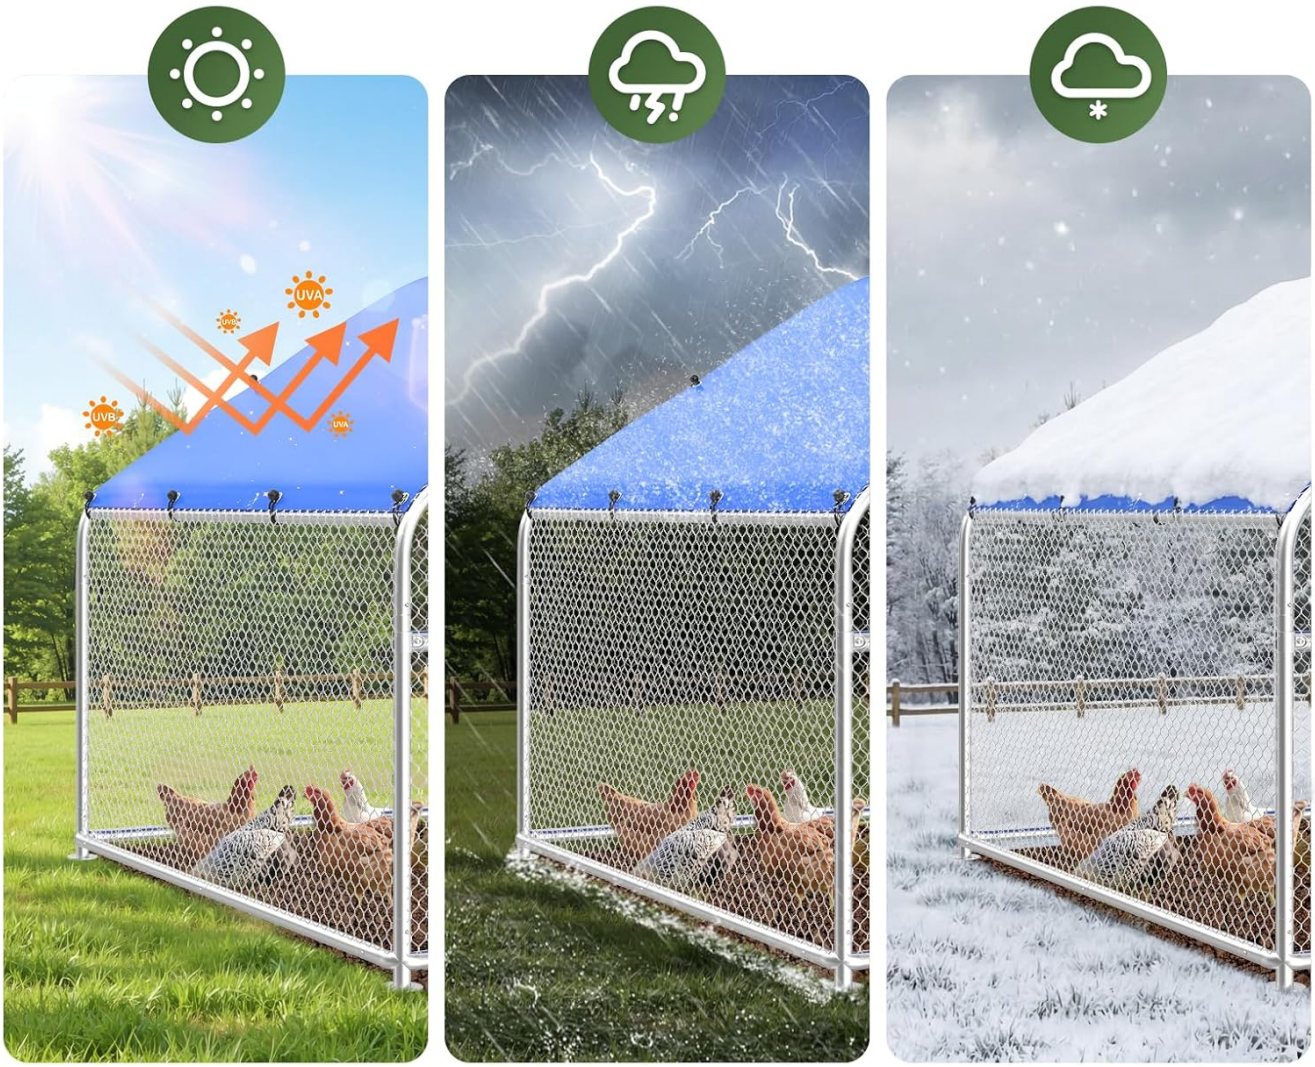

Figure 4.2: Attaching the hardware cloth.

4.3. Waterproof Cover Attachment

1. Drape the waterproof PE cover over the roof section of the coop.
2. Secure the cover to the frame using the rubber ropes, ensuring it is tightly fastened to withstand wind and provide full weather protection. The roof slope is designed to allow water, debris, and light snow to run off.

Figure 4.3: Installing the waterproof cover.

4.4. Securing the Coop

1. Drive the ground stakes into the ground through the designated anchor points on the base of the coop. This provides additional stability against strong winds and heavy rain.
2. Ensure the door latch is functioning correctly to keep your poultry secure.

5. Operating Instructions

The Sino Luban Metal Large Chicken Coop Run provides a spacious and secure environment for your poultry. Here are some guidelines for its use:

- **Placement:** Position the coop in a suitable outdoor area, ideally with some natural shade and good drainage.
- **Access:** Use the walk-in door for easy access to feed, water, and tend to your chickens. Ensure the door is always latched securely when not in use.
- **Feeding and Watering:** Place feeders and waterers inside the coop. Consider hanging them to keep them clean and prevent spillage.
- **Environmental Control:** The waterproof cover provides shade and protection from rain and snow. In extremely hot weather, you may partially fold back the cover to increase airflow, or add additional shade.

6. Maintenance

Regular maintenance will extend the lifespan of your chicken coop run and ensure the well-being of your poultry:

- **Cleaning:** Regularly remove droppings and soiled bedding from the coop floor to maintain hygiene and prevent odors.
- **Frame Inspection:** Periodically check the galvanized steel frame for any signs of rust, bending, or loose connections. Tighten fasteners as needed.
- **Mesh Integrity:** Inspect the small mesh hardware cloth for any holes, tears, or weak spots that could compromise predator protection. Repair or reinforce as necessary.
- **Cover Care:** Clean the waterproof cover periodically. In regions with heavy snow, clear snow accumulation from the roof to prevent structural strain.
- **Ground Stakes:** Ensure ground stakes remain firmly in place, especially after heavy rain or strong winds.

7. Troubleshooting

Here are solutions to common issues you might encounter:

- **Coop Instability:** If the coop feels unstable, ensure all frame connections are tight and all ground stakes are fully inserted into the ground. Consider adding additional anchoring if in a high-wind area.
- **Predator Intrusion:** If predators are a concern, double-check the mesh for any gaps, especially where it meets the ground. Reinforce the base with additional hardware cloth or bury the bottom edge of the mesh.
- **Water Accumulation on Cover:** Ensure the waterproof cover is taut and properly sloped to allow water runoff. Adjust tension if necessary.

8. Specifications

Feature	Detail
Brand	Sino Luban
Model Number	CC
Dimensions (L x W x H)	78.7"L x 78.7"W x 74.8"H (6.6 x 6.6 x 6.2 FT)
