Giantex GX-HU11232-WH

Giantex Twin Size Loft Bed with LED Lights

Model: GX-HU11232-WH

IMPORTANT SAFETY INFORMATION

Please read and understand all instructions before assembly and use. Failure to follow these warnings can result in serious injury.

- Always use the ladder to access the top bed. Do not climb on any other part of the bed structure.
- Secure the bed frame to the wall using the provided anti-toppling kits to prevent wobbling or tipping.
- Do not exceed the maximum weight capacity of 350 lbs for the bed.
- Ensure all connections are tight before and during use. Periodically check and retighten hardware.
- Be cautious when using the ladder and guardrails to prevent falls.
- Only use a mattress with a maximum thickness of 8 inches to ensure the effectiveness of the guardrails.

PRODUCT OVERVIEW

The Giantex Twin Size Loft Bed with LED Lights is designed to provide a functional and playful sleeping solution for children. This house-shaped bed features a roof, an interactive window, an integrated bookshelf, and a spacious under-bed play area. It includes a built-in LED light strip for ambient illumination and is constructed from solid pine wood and plywood for durability.

Net Weight	157.5 lbs
Weight Capacity of Bed	350 lbs
Weight Capacity of Shelf	88 lbs
Material	Pine Wood, Plywood, Engineered Wood

Color	White
Assembly Required	Yes

SETUP AND ASSEMBLY

This loft bed requires assembly. A detailed installation manual is included with your purchase. It is highly recommended that two adults participate in the assembly process to ensure safety and efficiency.

Assembly Steps (General Outline):

- Unpack and Identify Parts:** Carefully unpack all components and hardware. Refer to the included parts list in your manual to identify each piece.
- Assemble Main Frame:** Follow the step-by-step instructions to connect the main frame components, including the bed base and vertical supports.
- Install Bookshelf:** Attach the integrated bookshelf to the designated section of the bed frame.
- Attach Roof and Window Panels:** Secure the decorative roof and window panels according to the manual.
- Install Ladder and Guardrails:** Mount the ladder securely and attach the full-length guardrails to the top bed frame. Ensure all guardrail connections are firm.
- Install Plywood Slats:** Place and secure the 14 robust plywood slats onto the bed frame to create a stable mattress foundation.
- Install LED Light Strip:** Adhere the LED light strip to the designated area, typically under the bed or along the bookshelf.
- Secure with Anti-Toppling Kits:** Crucially, attach the anti-toppling kits to the bed frame and secure them to a wall stud to prevent accidental tipping.
- Final Check:** Verify that all screws, bolts, and connections are tight and secure before allowing use.

OPERATING INSTRUCTIONS

Using the LED Lights:

The integrated LED light strip provides soft, ambient lighting. To operate the lights, locate the switch, typically positioned conveniently near the bookshelf or bed frame. Flip the switch to the 'ON' position to illuminate the lights and to the 'OFF' position to turn them off.

Utilizing Storage and Play Space:

- **Bookshelf:** Use the integrated shelves to organize books, display toys, photos, or other decorative items.
- **Under-bed Area:** The spacious area beneath the loft bed can be used as a dedicated play zone, a reading nook, or for additional storage with bins and containers.

Ladder Use:

Always use the ladder to access the top bed. Ensure a firm grip on the ladder rungs and step carefully. Do not jump onto or off the bed.

Figure 7: Close-up of the full-length guardrails and the securely mounted ladder, highlighting safety features.

MAINTENANCE

- **Cleaning:** Wipe the bed frame with a soft, damp cloth. Avoid using harsh chemicals or abrasive cleaners that could damage the finish.
- **Hardware Check:** Periodically (e.g., every 3-6 months) inspect all bolts, screws, and connections to ensure they are tight. Retighten as necessary to maintain structural integrity.
- **LED Lights:** If the LED lights stop working, check the power connection and the switch. If issues persist, contact customer support.
- **Wood Care:** Protect the wood from excessive moisture and direct sunlight to prevent warping or fading.

TROUBLESHOOTING

- **Bed feels wobbly:** Ensure all assembly hardware is fully tightened. Confirm the anti-toppling kits are properly installed and secured to the wall.
- **LED lights not working:** Check that the power cable is securely plugged in and the switch is in the 'ON' position. If still not working, the LED strip may need replacement; contact customer support.
- **Missing parts during assembly:** Review the parts list in your manual. If any parts are genuinely missing, contact Giantex customer support immediately.

WARRANTY AND SUPPORT

For any questions, concerns, or to report missing/damaged parts, please contact Giantex customer support. Refer to your purchase documentation for specific warranty details and contact information.
