2. SETUP

2.1 Connecting the Keyboard

The HUO JI K-700 keyboard features a simple plug-and-play design. No additional software or drivers are required for basic functionality.

1. Locate an available USB-A port on your computer (PC or Mac).
2. Plug the USB-A connector of the keyboard cable into the USB-A port.
3. The keyboard will automatically be recognized by your operating system.

Two-stage adjustable foot support

The double-segment foot support design, you can autonomously adjust the bottom with non-slip rubber pads at the bottom of the input angle of your preference, bringing a more stable use experience

2.2 Adjusting Keyboard Height

The keyboard is equipped with two-stage adjustable foot supports for ergonomic comfort.

1. Flip the keyboard over to access the feet on the underside.
2. Gently pull out the small feet for the first height adjustment.
3. For a higher angle, pull out the larger feet.

Ergonomic Design

Provides more stable and faster transmission speeds when gaming, enjoying the ultimate gaming experience.

4.2 Double-Shot Keycaps

The keycaps are manufactured using a double-shot injection molding process.

- Ensures legends never fade or wear off.
- Allows for clear backlight shine-through.
- Made from durable ABS material.

4.3 Compact 96% Layout

The K-700 features a 96% layout, offering a balance between compactness and full functionality.

- Saves desktop space compared to full-sized keyboards.
- Retains essential keys, including a number pad and arrow keys.

98 Keys Compact Keyboard

Save space, keep arrow keys and number pad
for both gaming and work.

4.4 Wide Compatibility

The keyboard is compatible with a variety of operating systems and devices.

- **Operating Systems:** Windows XP, Vista, 7, 8, 10, 11, Android, Linux, Mac.
- **Compatible Devices:** Laptop, PC, PS, Playstation, XBOX.

5. MAINTENANCE

5.1 Cleaning the Keyboard

Regular cleaning helps maintain the keyboard's appearance and functionality.

- Disconnect the keyboard from your computer before cleaning.
- Use a soft, lint-free cloth slightly dampened with water or a mild cleaning solution to wipe the keycaps and surface.

- For dust and debris between keys, use compressed air.
- Avoid using harsh chemicals or abrasive materials.

5.2 Storage

When not in use for extended periods, store the keyboard in a dry, cool place away from direct sunlight and extreme temperatures.

6. TROUBLESHOOTING

6.1 Keyboard Not Responding

- Ensure the USB cable is securely connected to both the keyboard and the computer.
- Try plugging the keyboard into a different USB port on your computer.
- Test the keyboard on another computer to determine if the issue is with the keyboard or the computer's USB port.

6.2 Backlight Not Working or Incorrect

- Check if the backlight is turned off (press **FN + Enter** to toggle).
- Adjust brightness using **FN + ↑ / ↓**.
- Cycle through different lighting modes using **FN + **.
- Ensure the multi-function knob is not in volume mode if you are trying to adjust lighting with it (long press 3s to switch modes).

6.3 Keys Not Registering (Ghosting)

- The keyboard features 26-key anti-ghosting. If specific keys are not registering, ensure no physical obstruction is present.
- Clean around the affected keys using compressed air.
