

HUAKUA G3

HUAKUA G3 Smartwatch User Manual

Model: G3 | Brand: HUAKUA

INTRODUCTION

Welcome to the HUAKUA G3 Smartwatch instruction manual. This guide provides essential information for setting up, operating, maintaining, and troubleshooting your new smartwatch. Designed for both men and women, the HUAKUA G3 offers a comprehensive suite of features including built-in GPS, Bluetooth calling, advanced health monitoring, and over 100 sports modes, all presented on a vibrant 1.95-inch display. Its IP68 waterproof rating ensures durability for daily use and various activities.

WHAT'S IN THE BOX

- HUAKUA G3 Smartwatch
- Charging Cable
- User Manual

SETUP

1. Charging the Device

Before initial use, fully charge your HUAKUA G3 Smartwatch. The device uses a magnetic charging cable for convenience.

Long battery life

2.5 Hours
Charge Time

5-7 Days
Normal Use

14 Hours
of continuous
GPS tracking

30 Days
Standby Time

Tips: If you prefer a smaller, more delicate watch face, please review the size measurements before ordering.

Image: The HUAKUA G3 Smartwatch connected to its magnetic charging cable, illustrating the charging process.

Connect the magnetic end of the charging cable to the charging points on the back of the smartwatch. Connect the USB end to a power adapter (not included) or a computer's USB port. A full charge typically takes approximately 2.5 hours.

2. Downloading the Companion App

To unlock the full potential of your smartwatch, download the recommended companion app. Scan the QR code provided in the user manual or search for 'VeryFit' in your smartphone's app store (compatible with iPhone and Android phones).

3. Pairing with Your Smartphone

Open the companion app on your smartphone and follow the on-screen instructions to pair your HUAKUA G3 Smartwatch via Bluetooth. Ensure Bluetooth is enabled on your phone.

4. Customizing Your Watch Face

Personalize your smartwatch by choosing from over 200 stylish watch faces available in the app's gallery. You can also upload your favorite photos to create a unique custom interface.

OPERATING INSTRUCTIONS

1. Basic Navigation

The HUAKUA G3 Smartwatch features a responsive 1.95-inch full-touch screen. Swipe up, down, left, or right to navigate through menus and access different functions. Use the physical button on the side to return to the home screen or activate specific features.

1.95-inch Large Screen

-  240*282 HD Pixels
-  Adjustable brightness
-  Case size: 44mm*49mm

Designed with a larger screen for better visibility.
If you have small wrists, please verify the dimensions for a comfortable fit.

1.95

2. Bluetooth Calling & Smart Notifications

With the integrated speaker and microphone, you can answer or dial calls directly from your wrist via Bluetooth. Receive vibration alerts for texts and app notifications (e.g., social media, email) without needing to check your phone.

Answer & Make Calls from Your Wrist

Driving, cooking, or in a meeting? With Bluetooth 5.4, you can make, answer or reject calls right from your smartwatch — no need to grab your phone. Perfect for busy parents, commuters, and anyone who wants hands-free convenience.

Message Notifications

A soft vibration on your wrist tells you when someone messaged — no sound, no screen grab. Perfect for meetings, running, gym sessions, cycling, or when your phone is buried in a bag.

* Cannot reply to text messages.

HEALTH MONITORING

The HUAKUA G3 Smartwatch provides comprehensive daily wellness insights through continuous tracking of key health metrics.

1. Heart Rate Monitoring

Monitor your heart rate 24/7 with the upgraded optical sensor. View real-time data and historical trends in the companion app.

Heart Rate Monitor

Tracks your heart rate 24/7 with an upgraded optical sensor — whether you're resting on the couch, walking the dog, or pushing through a workout. Ideal for weekend runners, daily gym-goers, anyone who wants to train smarter, and anyone curious about their daily heart rate patterns.

Image: The smartwatch screen showing heart rate in beats per minute (bpm) and a graph of heart rate trends.

2. Blood Oxygen Monitoring

Track your blood oxygen saturation (SpO₂) throughout the day and night. Normal readings are typically 95% or higher. Access your recent range and trends via the app.

Blood Oxygen Monitor

Tracks your blood oxygen saturation (SpO₂) throughout the day and night. A normal reading is typically 95% or higher — see your recent range, like 96% to 99% on this watch. Ideal for high-altitude hikers, anyone with sleep concerns, or fitness enthusiasts who want to know how their body responds to exertion.

Image: The smartwatch screen showing minimum and maximum blood oxygen percentages and a graph of SpO₂ levels.

3. Sleep Tracking

Improve your nightly recovery with intelligent sleep quality analysis. The watch automatically tracks deep, light, and REM sleep cycles, providing a detailed breakdown of your sleep architecture and awake times.

Sleep Tracking

Tracks your light, deep, and REM sleep — so you know not just how long, but how well you rest. Most adults need 7–9 hours, with 20–25% from REM for memory and mood. Check weekly sleep trends in the app to see how you rank, then make small adjustments for more energy. Ideal for busy professionals, new parents, or anyone who wakes up tired and wants to fix it.

Image: The smartwatch screen showing sleep duration and a graph illustrating sleep patterns over time.

4. Stress Monitoring & Menstrual Cycle Tracking

The smartwatch can also monitor your stress levels and provide insights into your mental well-being. For women, it offers menstrual cycle tracking to help you stay informed about your body's rhythms.

FITNESS TRACKING

1. Built-in GPS for Outdoor Activities

The HUAKUA G3 features built-in GPS, allowing it to track your real-time pace, distance, and routes with high precision, independently of your mobile device. This is ideal for outdoor running, cycling, or hiking, preserving your phone's battery life.

Built-in GPS — Activated When You Need It

Built-in GPS is activated when you enter outdoor workout modes, accurately recording your real-time pace, distance, and route. No phone needed during your workout. Sync with the app to review your route with detailed maps.

Why Choose a GPS Smartwatch?

- ✓ Captures Your Exact Route without Phone
- ✓ No Phone GPS = No Battery Drain
- ✓ Accurately Tracks Your Pace & Distance
- ✓ Review Street-Level Maps in the App

426 kcal **Calories**

10652 **Steps**

4.9 mi **Distance**

8'38"/mi **Pace**

Image: The smartwatch screen showing a map with a tracked route, distance, pace, and calories burned during an outdoor activity, highlighting the built-in GPS feature.

2. 100+ Sport Modes & Activity Tracking

Choose from over 100 sport modes to accurately track various activities like gym workouts, cycling, yoga, and more. The watch captures real-time data including steps, calories burned, and distance, helping you monitor your training intensity and progress.

100+ Sport Modes

From cycling to yoga, running to pickleball — track your pace, heart rate, distance, calories, and workout duration in real time. Whether you're a beginner chasing personal bests, a weekend hiker exploring new trails, someone with a daily gym habit, or a data-lover who wants every metric — this watch helps you see progress, sport by sport.

MAINTENANCE

1. IP68 Waterproof Rating

The HUAKUA G3 Smartwatch is IP68 waterproof, making it suitable for daily water exposure such as sweat, handwashing, rain, and swimming. It is not intended for hot water, seawater, diving, or prolonged submersion.

IP68 Waterproof – Built for Real-Life Exposure.

✓ Sweat | Rain | Handwashing | Swimming

Designed for breathability

The strap features a grooved design for comfortable wear.

Image: The smartwatch being splashed with water, with text indicating its IP68 waterproof rating for sweat, rain, handwashing, and swimming.

2. Battery Life & Charging

Enjoy extended battery life with up to 7 days of typical usage on a single charge. When using GPS for outdoor workouts, the watch provides up to 14 hours of continuous tracking. The efficient power management system and fast-charging capability minimize downtime.

TROUBLESHOOTING

- **Device not turning on:** Ensure the watch is fully charged. Connect it to the charger and wait a few minutes before attempting to power it on.
- **Unable to pair with phone:** Make sure Bluetooth is enabled on your smartphone and the smartwatch is within range. Restart both devices and try pairing again.
- **Inaccurate health data:** Ensure the watch is worn snugly on your wrist, not too tight or too loose. Clean the sensor regularly.
- **GPS not connecting:** Move to an open outdoor area for better signal reception. Wait for the GPS to locate before starting your activity.
- **Notifications not appearing:** Check app permissions on your smartphone to ensure the companion app has access to notifications. Verify that notifications are enabled within the smartwatch app settings.
