## HOOBRO BF92XJ01

# HOOBRO BF92XJ01 9-Tier Narrow Shoe Rack Instruction Manual

## INTRODUCTION

---

The HOOBRO BF92XJ01 9-Tier Narrow Shoe Rack is designed to provide efficient and space-saving shoe storage. Its slim profile and slanted shelves make it suitable for small spaces like entryways, closets, and hallways, helping to keep your footwear organized and easily accessible. This manual provides instructions for assembly, safe use, and maintenance of your shoe rack.

# Slim Space-Saver

Tall and narrow, it fits into tight spots in your home.

## SAFETY INFORMATION

- Secure the shoe rack with the included anti-tip kit for added stability before use.
- Do not climb on the shoe rack.
- Avoid playing around the shoe rack to prevent accidents.
- Ensure the rack is placed on a level and stable surface.

## COMPONENTS LIST

Before assembly, ensure all components listed below are present in your package:

- Metal Frame Components (Side Frames, Crossbars)
- Slanted Shelf Panels (9 pieces)
- Top Wooden Shelf (1 piece)
- Adjustable Feet (4 pieces)
- Anti-Tip Kit (Wall anchor, strap, screws)
- Assembly Hardware (Screws, Allen key)

## SETUP AND ASSEMBLY

---

Assembly of this shoe rack is designed to be straightforward. Follow these steps carefully:

1. **Unpack Components:** Carefully remove all parts from the packaging. Verify that all items listed in the Components List are present.
2. **Assemble Frame:** Connect the metal frame components using the provided screws and Allen key. Ensure all connections are finger-tight initially.
3. **Install Shelves:** Slide the slanted shelf panels into the designated slots on the metal frame. Ensure they are oriented correctly with the slant facing forward.
4. **Attach Top Shelf:** Secure the top wooden shelf to the uppermost part of the frame using the appropriate screws.
5. **Install Adjustable Feet:** Screw the adjustable feet into the bottom of the frame. Once the rack is upright, adjust them by rotating to ensure the shoe rack is stable and level on your floor.
6. **Secure with Anti-Tip Kit:** For safety, attach the anti-tip kit to the top rear of the shoe rack and secure it to a wall stud using the provided hardware. This prevents accidental tipping, especially in households with children or pets.

## OPERATING INSTRUCTIONS

---

Using your HOOBRO shoe rack is simple and efficient:

- Place shoes on the slanted shelves. The design allows for easy viewing and retrieval of footwear, preventing shoes from being hidden or piled up.
- The 9-tier design can accommodate approximately 8-16 pairs of shoes, depending on shoe size and style. Larger shoes may occupy more space.
- The top wooden shelf can be used for decorative items, small bags, or other accessories, adding functionality to the unit.

# Slanted, At-a-Glance View

See and grab your shoes easily, without searching.

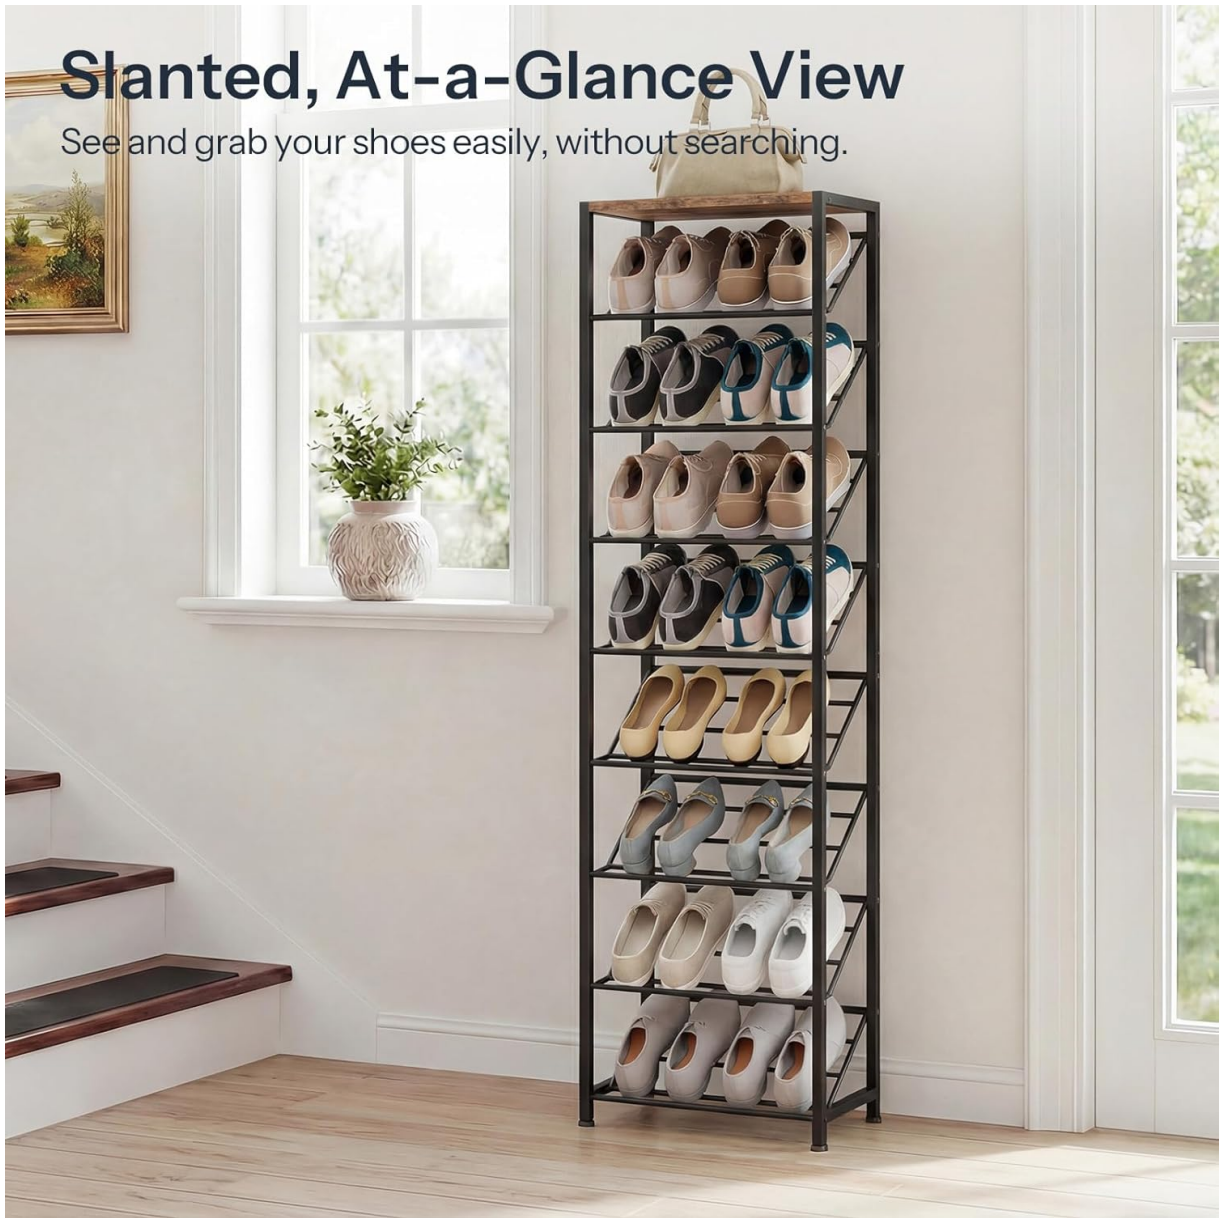

Image: The shoe rack displaying shoes on its slanted shelves, illustrating how footwear is easily visible and accessible.

## MAINTENANCE

To ensure the longevity and appearance of your shoe rack, follow these maintenance guidelines:

- **Cleaning:** Wipe the metal frame and shelves with a soft, damp cloth. Avoid using harsh chemicals or abrasive cleaners, which can damage the finish.
- **Dusting:** Regularly dust all surfaces to prevent buildup and maintain a clean appearance.
- **Inspection:** Periodically check all screws and connections to ensure they remain tight. Re-tighten if necessary to maintain structural integrity.

# Vintage Wood-Look Surface

The surface board has a rustic finish for added style.

Image: A close-up of the rustic brown top shelf, highlighting its textured, wood-look laminated finish.

## TROUBLESHOOTING

If you encounter any issues with your shoe rack, refer to the following common solutions:

- **Wobbling:** If the shoe rack wobbles, adjust the leveling feet at the bottom by rotating them until the unit is stable on your floor. Also, ensure all assembly screws are fully tightened.
- **Difficulty Assembling:** Review the assembly diagrams and instructions carefully. Ensure all components are oriented correctly before tightening screws. Do not force parts together.
- **Shoes Sliding Off:** Ensure shoes are placed securely on the slanted shelves. The design is intended to hold shoes in place, but very slick soles or unusual shoe shapes might require careful placement.

## SPECIFICATIONS

Feature	Detail
Material	Engineered Wood, Metal

Dimensions (D x W x H)	10.4"D x 16.5"W x 60.6"H
Number of Shelves	9
Item Weight	5.4 Kilograms
