

YITAMOTOR MAYIMBS1mp

YITAMOTOR Low-Profile Hard Tri-Fold Tonneau Cover User Manual

Model: MAYIMBS1mp

1. INTRODUCTION

This manual provides detailed instructions for the installation, operation, and maintenance of your YITAMOTOR Low-Profile Hard Tri-Fold Tonneau Cover. This cover is designed for 2019-2026 Chevy Silverado 1500 and GMC Sierra 1500 new body style trucks with a 5.8 ft bed, excluding models with Multi-Flex tailgate or Carbonpro Bed. Please read this manual thoroughly before installation and use to ensure proper function and longevity of your product.

2. VEHICLE COMPATIBILITY

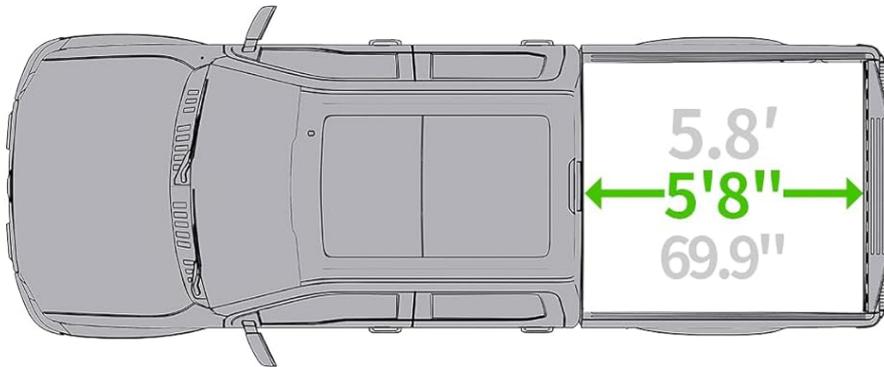

This tonneau cover is specifically designed for:

- **Make:** Chevy, GMC
- **Model:** Silverado 1500, Sierra 1500
- **Years:** 2019, 2020, 2021, 2022, 2023, 2024, 2025, 2026 (New Body Style)
- **Bed Size:** 5.8 ft (69.9 inches)
- **Exclusions:** Not compatible with Multi-Flex Tailgate or Carbonpro Bed.

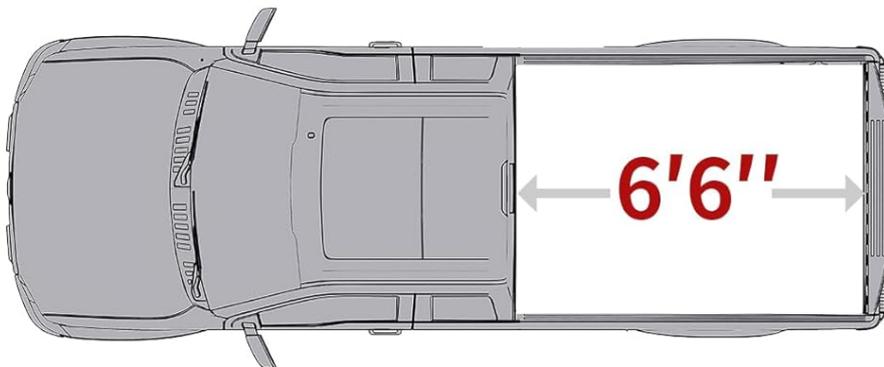

It is crucial to confirm your truck bed size before proceeding with installation.

CONFIRM YOUR BED SIZE

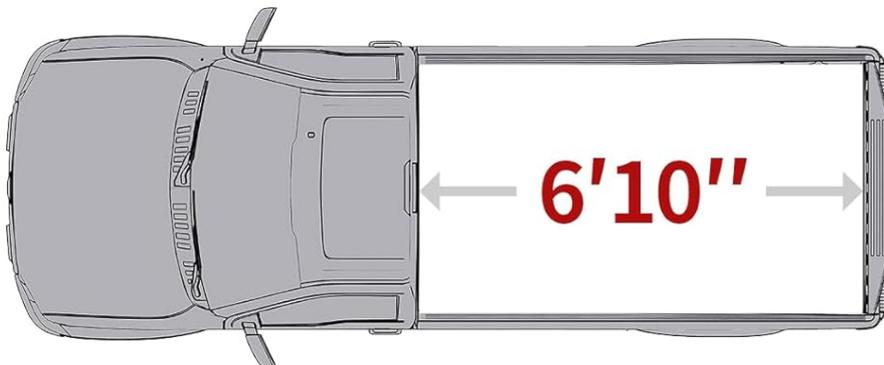

DO NOT FIT MULTI-FLEX TAILGATE

SHORT BED

STANDARD BED

LONG BED

Figure 1: Confirming your truck bed size. The cover is compatible with short beds (5.8 ft / 69.9 inches) and not standard or long beds.

3. WHAT'S IN THE BOX

Upon unpacking, ensure all components are present:

- 1 Low-Profile Hard Tri-Fold Bed Cover
- Installation Clamps
- Weather Seals
- Drainage Tubes
- Nylon Buckles/Straps

4. SETUP AND INSTALLATION

Installation of the YITAMOTOR Low-Profile Hard Tri-Fold Tonneau Cover is designed to be straightforward. It typically takes less than 30 minutes.

4.1. Preparation

- Clean the truck bed rails thoroughly to ensure proper adhesion of weather seals.
- Unpack all components and verify against the 'What's in the Box' list.

4.2. Installation Steps

1. **Install the Gasket:** Apply the provided gasket along the front bulkhead of the truck bed.
2. **Position the Cover:** Place the tonneau cover onto the truck bed rails, ensuring it is centered and aligned with the cab.
3. **Add Brackets:** Secure the cover to the truck bed rails using the easy installation clamps. Position the clamps evenly along both sides of the bed.
4. **Tighten Nuts:** Hand-tighten the nuts on the clamps to secure the cover firmly. Do not overtighten.
5. **Install Drainage Tubes:** Connect the drainage tubes to the designated ports on the cover's frame and route them through the truck bed's drain holes to prevent water buildup.

SECURE INSTALLATION PARTS

5. OPERATING INSTRUCTIONS

5.1. Opening the Cover

The hard tri-fold design allows for flexible access to your truck bed:

- **Partial Access:** To access a portion of your truck bed, simply unlatch the rear section and fold it forward.
- **2/3 Bed Access:** For larger items, unlatch the first two sections and fold them towards the cab. Secure them with the integrated nylon buckles to prevent movement while driving.
- **One-Handed Unlocking:** The cover features an easy-to-use latch system for quick, one-handed operation, speeding up loading and unloading.

Figure 4: Demonstrating various access options: 360° Protection, Partial Bed Access, and 2/3 Bed Access.

5.2. Closing the Cover

To close, simply unfold the sections back into place, ensuring each latch securely engages. The low-profile design ensures a clean, flush look when closed.

6. MAINTENANCE

To ensure the longevity and optimal performance of your tonneau cover, follow these maintenance guidelines:

- **Regular Cleaning:** Clean the cover regularly with mild soap and water. Avoid harsh chemicals or abrasive cleaners that could damage the material.
- **Weather Seals:** Periodically inspect the weather seals around the edges of the cover for any signs of wear or damage. Ensure they are free of debris to maintain water resistance.
- **Drainage Tubes:** Check the drainage tubes for blockages and ensure they are properly routed to allow water to exit the truck bed effectively.

- **Hardware Inspection:** Routinely check all clamps, bolts, and latches to ensure they are secure. Tighten if necessary.

Figure 5: The tonneau cover provides water-resistant protection for your cargo.

7. TROUBLESHOOTING

If you encounter any issues with your tonneau cover, consider the following:

- **Water Leakage:** Check the weather seals for proper placement and damage. Ensure drainage tubes are clear and correctly installed. Verify that the cover is properly latched and sealed across the entire bed.
- **Difficulty Latching/Unlatching:** Inspect the latch mechanisms for any obstructions or damage. Ensure the cover is correctly aligned on the bed rails.
- **Loose Fit:** Re-check all installation clamps and tighten them if they have become loose over time.

For persistent issues not resolved by these steps, please contact YITAMOTOR customer support.
