

Anweller P15

Anweller P15 Heavy Duty Smart Padlock User Manual

Model: P15

1. INTRODUCTION

The Anweller P15 Smart Padlock is a heavy-duty security device designed for various applications, including gates, outdoor fences, lockers, storage units, and sheds. It offers multiple unlocking methods and is built to withstand diverse environmental conditions.

2. WHAT'S INCLUDED

- 1 x P15 Smart Padlock
- 1 x USB-C Charging Cable
- 1 x User Manual
- 2 x Spare Keys

3. SPECIFICATIONS

Feature	Detail
Brand	Anweller
Model Number	P15
Unlocking Ways	Fingerprint, Passcode, Mobile App, Apple Watch, Spare Key
Material	Alloy Steel, Stainless Steel, Zinc
Pull Resistance	4400N
Weatherproof Rating	IP67 (Waterproof, Dustproof, Antirust, Anti-Corrosion)
Operating Temperature	-4°F to 122°F (-20°C to 50°C)
Battery Capacity	500mAh rechargeable Li-ion

Standby Time	Up to 12 months
Unlocks per Charge	Approximately 8000 times
Charging Port	USB-C
Fingerprint Capacity	Up to 100 fingerprints
Passcode Capacity	Up to 20 passcodes
Dimensions (L x W x H)	4.6 x 2.5 x 1.1 inches
Weight	0.8 Pounds

4. SETUP

4.1 Initial Charge

Before first use, fully charge the padlock using the provided USB-C cable. The charging port is located at the bottom of the device. A full charge typically takes approximately 2 hours.

4.2 App Download and Installation

To utilize the smart features, download the dedicated mobile application. Scan the QR code provided in the included user manual or search for "eSmartLock" in your device's app store (available for Android and iOS).

Your browser does not support the video tag.

4.3 Register and Log In

Follow the in-app instructions to register a new account and log in. You will need to set up an administrator password for the lock during this process.

4.4 App Permission Settings

Ensure Bluetooth is enabled on your smartphone. The app may require location permissions for proper functionality, especially on Android devices.

4.5 Adding the Smart Lock

Touch the keypad or fingerprint sensor on the padlock to wake it up. Open the app and follow the prompts to add the smart lock. You will be guided to set the first administrator password for the lock.

5. OPERATING INSTRUCTIONS

The Anweller P15 offers five methods for unlocking:

5.1 Fingerprint Unlock

Register your fingerprints through the mobile app. Once registered, simply place your finger on the fingerprint sensor to unlock the padlock. The sensor is designed for fast identification (0.2 seconds) and 360° recognition.

Image: Diagram illustrating the advanced fingerprint reader of the Anweller P15, highlighting its larger capacity (100 fingerprints), sensitivity (0.2s identify), and precision (360° recognition).

5.2 Passcode Unlock

Set up passcodes via the mobile app. The padlock supports up to 20 passcodes, including temporary ones. To unlock, enter your registered passcode on the keypad. The anti-peeping passcode feature allows you to enter random digits before or after your actual code to prevent others from guessing it.

Image: Illustration of the anti-peeping passcode feature on the Anweller P15 padlock, showing how random digits can be added around the real passcode for enhanced security.

5.3 Mobile App Unlock

Ensure your smartphone's Bluetooth is active and within range of the padlock. Open the eSmartLock app and tap the "Unlock" icon to open the padlock.

5.4 Apple Watch Unlock

If you have an Apple Watch, you can use the companion applet to unlock the padlock when within Bluetooth range.

5.5 Spare Key Unlock

In situations where electronic methods are unavailable (e.g., dead battery, app issues), use one of the provided spare keys. Insert the key into the keyhole located at the bottom of the padlock and turn to unlock.

Battery Indicator

The padlock features indicator lights to show battery capacity:

- 4 lights ON: 100% Battery
- 3 lights ON: 75% Battery
- 2 lights ON: 50% Battery
- 1 light ON: 25% Battery
- No light ON: Out of Battery

7. ENVIRONMENTAL CONDITIONS AND DURABILITY

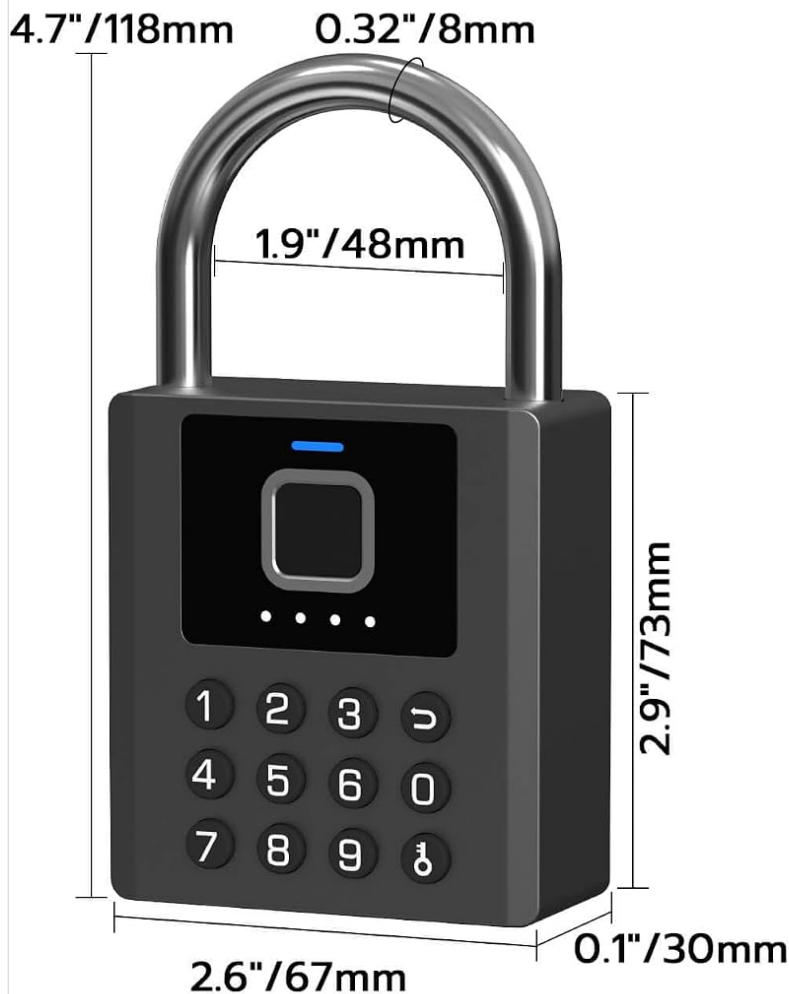

The Anweller P15 is designed for robust performance in various environments:

- **IP67 Rated:** Fully waterproof, dustproof, antirust, and anti-corrosion.
- **Temperature Range:** Operates effectively from -4°F to 122°F (-20°C to 50°C).
- **Heavy Duty Construction:** Features an upgraded double shackle notch for 4400N pull resistance, a hardened stainless steel shackle for superior cut resistance, a strong zinc alloy body for crack resistance, and an advanced keyhole for pick-resistance.

8. MAINTENANCE

- Keep the fingerprint sensor clean and dry for optimal performance.
- Regularly check the battery level via the app or the indicator lights.
- Avoid exposing the padlock to harsh chemicals or extreme physical impact beyond its rated durability.

9. TROUBLESHOOTING

- **Padlock not responding:** Ensure the battery is charged. If completely drained, use the spare key to unlock and then charge immediately.
- **Fingerprint not recognized:** Ensure your finger is clean and dry. Try re-registering your fingerprint in the app if issues persist.
- **App connectivity issues:** Verify Bluetooth is enabled on your device and that the app has necessary

permissions. Ensure you are within Bluetooth range.

- **Forgot passcode:** Use the mobile app to reset or retrieve your passcode, or use a registered fingerprint or spare key.

10. WARRANTY AND SUPPORT

Anweller offers a 12-month warranty for the P15 Smart Padlock. Free lifetime technical support is also provided. For any queries or issues, you are welcome to contact Anweller customer service. Hassle-free replacements are available within 12 months, and refunds within 6 months.

Contact information can be found on the "After Sales" card included in the product packaging or through the official Anweller website.
