Safety Information

Your safety and the safety of others are paramount. Failure to follow these instructions can result in serious injury. Always adhere to the following safety guidelines:

- **Read All Instructions:** Ensure you understand all assembly steps and safety warnings before use.
- **Adult Supervision:** Children should be supervised when using the bunk bed.
- **Age Restriction:** The upper bunk is not suitable for children under 6 years of age.
- **Weight Capacity:** Do not exceed the recommended weight capacity for each bunk. (Specific weight limits are not provided in the product data, exercise caution).
- **Guardrails:** Always use the guardrails on the upper bunk. Ensure they are properly installed and secured.
- **Mattress Size:** Use only mattresses of the specified size to prevent gaps that could trap a child. Ensure the mattress thickness does not exceed the maximum height indicated by the guardrail safety label.

- **No Jumping:** Do not allow jumping on the bed.
- **Ladder Safety:** Always use the ladder for access to the upper bunk. Ensure the ladder is securely attached.
- **Regular Checks:** Periodically check all connections and hardware to ensure they remain tight. Retighten as necessary.
- **Ventilation:** Ensure adequate ventilation around the bed.
- **Flammable Materials:** Keep flammable materials away from the bed.

Package Contents

Before beginning assembly, verify that all parts and hardware are present. If any parts are missing or damaged, do not proceed with assembly. Contact customer support immediately.

Components Overview:

- Upper Bed Frame Components (Headboard, Footboard, Side Rails)
- Lower Bed Frame Components (Headboard, Footboard, Side Rails)
- Ladder

- Guardrails for Upper Bunk
- Bed Slats for Upper and Lower Bunks
- Pegboard and Shelf Unit (for upper bunk)
- Bookshelf Unit (for lower bunk)
- Hardware Pack (screws, bolts, nuts, washers, Allen wrench)
- Assembly Instruction Guide

All hardware components are typically separated and labeled by letter, and bed pieces are labeled by number for easier identification during assembly.

Assembly Instructions

Assembly requires two adults. Clear a large area for assembly. Do not fully tighten any bolts until instructed to do so, or until the entire structure is assembled. An Allen wrench is provided; additional tools are generally not required.

Step-by-Step Assembly:

1. **Prepare the Area and Unpack:** Lay out all components on a soft, clean surface to prevent scratches. Identify each part using the labels and the parts list in your instruction guide.
2. **Assemble the Lower Bunk Frame:**
   Connect the side rails to the headboard and footboard of the lower bunk using the provided hardware. Hand-tighten bolts initially.

3. **Install Lower Bunk Slats:** Place the wooden slats across the lower bunk frame. Secure them in place according to the instruction guide, typically by screwing them into the side rails. Ensure even spacing.

4. **Attach Lower Bookshelf:** Secure the bookshelf unit to the side rail of the lower bunk as indicated in your specific assembly guide.
5. **Assemble the Upper Bunk Frame:** Repeat step 2 for the upper bunk frame components.
6. **Install Upper Bunk Slats:** Repeat step 3 for the upper bunk slats.
7. **Attach Pegboard and Shelf Unit:** Secure the pegboard and shelf unit to the side rail of the upper bunk.
8. **Connect Upper and Lower Bunks:** Carefully lift the assembled upper bunk frame and align it with the designated connection points on the lower bunk frame. Secure using the appropriate bolts and hardware. This step requires two people for safety and stability.

9. **Install Guardrails:** Attach the guardrails to the upper bunk frame, ensuring they are firmly secured on all sides as per the instructions.
10. **Attach Ladder:** Securely attach the ladder to the designated hooks or mounting points on the bunk bed frame. Verify it is stable and does not wobble.
11. **Final Tightening:** Once all components are assembled and aligned, go back and fully tighten all bolts and screws using the provided Allen wrench. Do not overtighten.
12. **Final Inspection:** Check the entire bunk bed for stability. Ensure all connections are secure and there are no loose parts.

Usage

Proper use of your Bellemave bunk bed ensures safety and longevity.

- **Mattress Placement:** Place the appropriate size mattresses on both the upper and lower bunks. Ensure the upper bunk mattress does not exceed the guardrail height.
- **Ladder Use:** Always use the ladder to access the upper bunk. Face the ladder when climbing up or down.
- **Pegboard:** The pegboard on the upper bunk is designed for light items. Do not hang heavy objects that could destabilize the bed or fall.
- **Bookshelf:** The lower bunk bookshelf provides convenient storage for books and small items. Do not overload the shelf.
- **Lower Bunk Versatility:** The design allows the lower bed to function as a sleeping area or a play area, offering flexibility.

Maintenance

Regular maintenance helps preserve the condition and safety of your bunk bed.

- **Cleaning:** Wipe surfaces with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners that could damage the finish.
- **Hardware Check:** Periodically (e.g., monthly) inspect all bolts, screws, and connections. Tighten any that have become loose. Do not overtighten.
- **Structural Integrity:** Check for any signs of wear, damage, or instability in the wood components. Address any issues promptly.
- **Moving the Bed:** If you need to move the bed, lift it rather than dragging it to prevent damage to the frame and floor.

Troubleshooting

Here are solutions to common issues you might encounter:

- **Bed Wobbles:** Ensure all bolts and screws are fully tightened. Check that the bed is on a level surface.
- **Squeaking Noises:** Tighten all hardware. If squeaking persists, disassemble and reassemble the affected section, ensuring all joints are flush. Applying a small amount of wax to the joints before reassembly can also help.
- **Missing Parts:** If you discover missing parts during assembly, do not attempt to substitute them. Contact Bellemave customer support for replacements.
- **Difficulty Assembling:** Review the assembly instructions carefully. Ensure you are using the correct hardware for each step. Sometimes, parts may appear similar but have subtle differences.
