5.2 Battery Life

The watch is equipped with a large capacity battery, providing up to 7 days of average usage and up to 30 days of standby time on a single charge. A full charge takes approximately 2 hours.

6. TROUBLESHOOTING

- **Watch not turning on:** Ensure the watch is fully charged. Connect it to the magnetic charger and allow it to charge for at least 30 minutes before attempting to power it on.
- **Cannot pair with phone:** Ensure Bluetooth is enabled on your phone and the watch is within range. Restart both the watch and your phone, then try pairing again through the 'Dafit' app.

- **Notifications not received:** Check app settings on your phone to ensure notifications are enabled for the 'Dafit' app and the specific applications you wish to receive alerts from. Also, verify that the watch is properly connected via Bluetooth.
- **Inaccurate health data:** Ensure the watch is worn snugly on your wrist, not too tight or too loose. Clean the sensor on the back of the watch regularly.
- **Screen unresponsive:** Try restarting the watch by pressing and holding the side button. If the issue persists, ensure the screen is clean and dry.
