DICTAC BCE

DICTAC Boucle Full Size Bed Frame (Model BCE)

Instruction Manual

1. INTRODUCTION

This manual provides detailed instructions for the assembly, use, and maintenance of your DICTAC Boucle Full Size Bed Frame with Headboard, Model BCE. Please read all instructions carefully before beginning assembly and retain this manual for future reference.

2. PRODUCT FEATURES

The DICTAC Boucle Full Size Bed Frame is designed for comfort, safety, and durability. Key features include:

- **Luxury Boucle Fabric:** Upholstered in a breathable, skin-friendly terry fabric that resists wrinkles, deformation, pilling, and linting, offering a soft touch and fluffy texture.
- **Ergonomic Sloping Headboard:** Features a 105° reclining design filled with high-resilience memory foam, providing effective support for the head and back.
- **Curved Anti-collision Design:** Rounded corners on the headboard and legs reduce the risk of accidental collisions, making it suitable for families.
- **Solid & Sturdy Construction:** Built with sturdy legs, a metal support frame, solid wood slats, and wide wingback supports for enhanced stability and durability.
- **Noise-Free Design:** Cleverly designed Velcro and silent strips ensure a quiet sleeping environment.
- **No Box Spring Needed:** Closely spaced wooden slats provide strong support for various mattress types.

Supremely Comfortable Boucle Fabric

Key Assembly Steps and Components

1. **Unpack Components:** Carefully unpack all parts and hardware. Verify all components are present against the included parts list.
2. **Assemble Frame:** Follow the numbered instructions to connect the main frame components.
3. **Install Slats:** The wooden slats are designed with Velcro for easy and secure attachment to the frame. Ensure each slat is properly aligned and secured.
4. **Attach Headboard:** Secure the upholstered headboard to the main frame. Note that the headboard

backrest is vacuum packed and may take 24-48 hours to fully rebound.

Meticulous **Stability** Settings

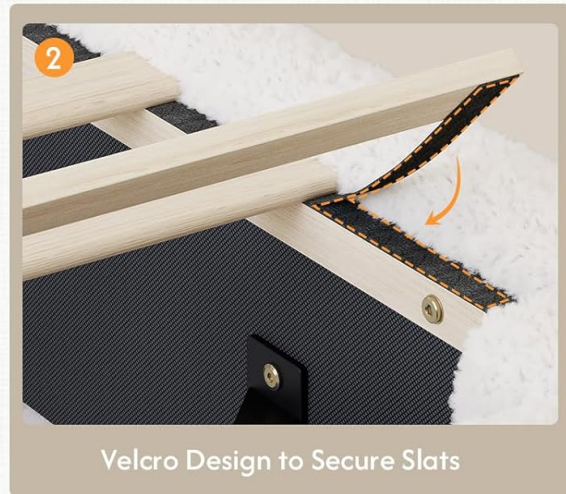

Image 3.1: Illustration of the bed frame's stability features, including wide wingback support, Velcro for securing slats, sturdy frame construction, and triangular support.

If any parts are damaged, scratched, or missing, please contact customer support immediately.

4. USAGE GUIDELINES

To ensure optimal performance and longevity of your bed frame, please adhere to the following guidelines:

- **Mattress Compatibility:** This bed frame does not require a box spring. It is designed to support any type of mattress directly on its wooden slats.
- **Recommended Mattress Height:** For best aesthetic and functional results, a mattress height of 8-14 inches is recommended.
- **Weight Capacity:** The bed frame has a maximum weight limit of 900 pounds. Do not exceed this limit to prevent damage to the frame and potential injury.
- **Even Weight Distribution:** Distribute weight evenly across the bed surface. Avoid concentrating heavy loads in one small area.

5. CARE AND MAINTENANCE

Proper care will help maintain the appearance and structural integrity of your bed frame:

- **Fabric Cleaning:** For general cleaning of the boucle fabric, gently vacuum with an upholstery attachment to remove dust and debris. For spills, blot immediately with a clean, dry cloth. For stubborn stains, consult a professional upholstery cleaner. Avoid harsh chemicals or abrasive cleaners.
- **Frame Cleaning:** Wipe the frame components with a soft, damp cloth. Avoid excessive moisture.
- **Regular Inspection:** Periodically check all bolts and screws to ensure they are tight. Re-tighten if necessary to maintain stability.
- **Avoid Direct Sunlight:** Prolonged exposure to direct sunlight may cause fabric fading.

6. TROUBLESHOOTING

If you encounter any issues with your bed frame, please refer to the following common problems and solutions:

- **Squeaking Noises:** If the bed frame makes squeaking noises, check all connection points. Ensure all bolts are securely tightened. The integrated silent strip and EVA sponge are designed to minimize noise, but loose connections can still cause sound.
- **Headboard Not Fully Rebounded:** The headboard backrest is vacuum packed for shipping. It typically takes 24-48 hours to fully rebound to its intended shape and firmness after unpacking. Allow sufficient time for this process.
- **Instability/Wobbling:** Ensure the bed frame is assembled on a flat, level surface. Verify that all components are correctly installed and all fasteners are tightened according to the assembly instructions. Check the wide wingback and triangular supports for proper positioning.
- **Missing or Damaged Parts:** If you find any parts missing or damaged upon arrival, do not proceed with assembly. Contact DICTAC customer support immediately for assistance.

7. PRODUCT SPECIFICATIONS

Detailed specifications for the DICTAC Boucle Full Size Bed Frame (Model BCE):

Feature	Detail
Model Number	BCE
Size	Full
Color	Cream
Product Dimensions (L x W x H)	84.25" x 55.9" x 42.13"
