

Feob HX200Q6

Feob 36800mAh Portable Charger Instruction Manual

MODEL: HX200Q6

Brand: Feob

1. Introduction and Overview

The Feob 36800mAh Portable Charger is a high-capacity power bank designed to provide reliable power for multiple devices. Equipped with a substantial 36,800mAh battery, it ensures extended use, making it suitable for travel, outdoor activities, or as an emergency backup. This power bank features multiple output ports for simultaneous charging and incorporates safety features to protect your devices.

Please note its dimensions are 6.1 x 3 x 0.9 inches and it weighs 0.95lb (15.34oz). Due to its large capacity, this power bank cannot be carried on an airplane and is best suited for road trips, outdoor adventures, or home emergency backups.

2. Setup and Initial Use

Before first use, it is recommended to fully charge your Feob 36800mAh Portable Charger. Use an adapter or charging cable with a power lower than $5V \times 2A$ to charge the power bank. Avoid using a computer's USB port for charging, as it may not provide sufficient power or may prolong charging time. The charging time of the power bank should not exceed 8 hours.

To charge the power bank, connect a compatible charging cable to one of the input ports (USB-C or Micro USB) and plug the other end into a power source. The LED indicators will show the charging status.

3. Operating Instructions

3.1 Charging Your Devices

The Feob 36800mAh Portable Charger is designed to charge multiple devices simultaneously. It features 4 outputs: 1 USB-C port and 3 USB-A ports. You can charge up to 4 devices at once, making it convenient for business, travel, or daily use.

1. Connect your device's charging cable to the appropriate output port on the power bank (USB-C or USB-A).
2. Connect the other end of the cable to your device.
3. The power bank will automatically begin charging your device. The LED indicators will show the remaining battery level.

3.2 Using the Flashlight

This power bank may include a built-in flashlight feature for convenience in low-light conditions. Refer to the device's physical buttons for activation, typically a long press on the power button.

4. Maintenance

- If you do not use the power bank frequently, please charge it at least once a month to maintain battery health.
- Always use an adapter or charging cable with a power lower than 5V*2A to charge the power bank.
- The charging time of the power bank should not exceed 8 hours.

5. Troubleshooting

If you encounter a situation where the power bank cannot be charged, please try the following steps:

1. Replace the charging adapter with a different one that meets the 5V*2A or lower specification.
2. Replace the data cable with a different one to rule out a faulty cable.

6. Specifications

Feature	Detail
Model Number	HX200Q6
Battery Capacity	36800 Milliamp Hours
Product Dimensions	3 x 3 x 1 inches
Item Weight	1.06 pounds
Connector Type	USB Type C
Special Features	Portable Charger 36800MAH
Color	Black
