Lvifur HTX-97076-27S

Lvifur 71-inch RGB Glass Display Cabinet User Manual

Model: HTX-97076-27S | Brand: Lvifur

INTRODUCTION

Thank you for choosing the Lvifur 71-inch RGB Glass Display Cabinet. This manual provides essential information for the safe and efficient assembly, operation, and maintenance of your new display cabinet. Please read these instructions carefully before use and retain them for future reference.

This display cabinet is designed to showcase your collectibles, figures, and other decorative items with its spacious 7-tier design, tempered glass doors, and customizable RGB lighting with a smart human sensor.

SETUP AND ASSEMBLY

The Lvifur 71-inch RGB Glass Display Cabinet requires user assembly. An installation kit and a detailed guide are included with the product. Always assemble the cabinet on a stable, level surface to ensure proper construction and safety.

Key Assembly Steps:

1. Unpack all components and verify against the parts list in the included guide.
2. Follow the step-by-step instructions provided in the assembly user guide.
3. Ensure all screws and fasteners are securely tightened.
4. Install the tempered glass doors carefully, ensuring they operate smoothly.
5. Connect the LED light wires as instructed.

6. Attach the anti-tipping device to a wall stud for enhanced stability.

OPERATING INSTRUCTIONS

RGB Lighting System:

The display cabinet features built-in LED strips with versatile lighting options:

- **7 Static Lighting Modes:** Choose from a variety of fixed colors to match your ambiance.

- **5 Dynamic Color Modes:** Experience different color-changing effects with adjustable speed control.
- **Adjustable Brightness:** Customize the intensity of any static color to highlight your displayed items.

Control the lighting modes and brightness using the integrated control panel located on the cabinet.

MAINTENANCE AND CARE

To ensure the longevity and optimal appearance of your Lvifur display cabinet, please follow these care instructions:

- **Cleaning:** Always unplug the cabinet before cleaning. Use a soft, damp cloth to wipe down glass surfaces and the wooden frame. Avoid abrasive cleaners or harsh chemicals that may damage the finish.

- **Handling Glass:** Be cautious when handling glass doors and shelves to prevent breakage.
- **Overloading:** Do not overload the cabinet, as this may compromise its stability and lead to tipping.
- **Heat Sources:** Keep the cabinet away from direct heat sources to prevent material damage or discoloration.
- **Stability:** Regularly check the stability of the cabinet and ensure the anti-tipping device remains securely fastened.

TROUBLESHOOTING

If you encounter any issues with your display cabinet, please refer to the following common solutions:

- **Lights Not Working:**
 - Ensure the power adapter is securely plugged into both the cabinet and a working electrical outlet.
 - Check the light wire connections within the cabinet to ensure they are properly connected.
 - Verify that the control panel is functioning correctly and not in an off state.
- **Human Sensor Not Activating:**
 - Ensure the human sensor feature is enabled via the control panel.
 - Check for any obstructions blocking the sensor's field of detection (2-3 meters).
- **Doors Not Closing Properly:**
 - Inspect the hinges for any misalignment or damage.
 - Ensure the magnetic catches are properly aligned and free of debris.
- **Cabinet Instability:**
 - Confirm that the cabinet is placed on a flat, level surface.
 - Verify that all assembly screws are tightened.
 - Ensure the anti-tipping device is correctly installed and secured to a wall stud.
