1. INTRODUCTION

Thank you for purchasing the AODK Farmhouse Nightstand Set of 2. This manual provides detailed instructions for assembly, operation, and maintenance to ensure safe and optimal use of your new nightstands. Please read this manual thoroughly before beginning assembly or use.

2. PRODUCT FEATURES

The AODK Farmhouse Nightstand is designed to offer both style and functionality to your bedroom or living space. Key features include:

- **Rustic Farmhouse Design:** Features a white wood finish and rustic dark walnut top, adding a warm and elegant touch.
- **RGB LED Light Strip:** Equipped with a LED light strip offering 10 colors, 10 lighting modes, and adjustable brightness levels for personalized ambiance.
- **Convenient Charging Station:** Includes 1 AC outlet and 2 USB ports for easy device charging, with cable management to keep your space organized.
- **Ample Storage Space:** Two smooth-gliding drawers and an open shelf provide generous storage for essentials.
- **Durable Construction:** Made from engineered wood for stability and long-lasting use.

3. ASSEMBLY INSTRUCTIONS

For ease and safety, we recommend two people for assembly. Please ensure all parts are included and in good condition before starting. The entire assembly process takes approximately 1 hour per nightstand.

3.1. Assembly Video Guide

Your browser does not support the video tag.

Video: Detailed installation guide for the AODK Nightstand, demonstrating each step of the assembly process.

3.2. Step-by-Step Assembly

Follow the numbered steps below, referring to the provided diagrams for visual guidance.

- 1. Prepare Hardware:** Pre-assemble hardware onto Panel A (top board) and Panels I (drawer front panels). Insert each piece vertically into the marked holes and ensure the hardware is fully seated.
- 2. Assemble Drawer Sides:** Insert hardware into the edge holes of Panels B, C, J, and K. Ensure each piece is pushed in straight and fully seated. Panels J and K each require two pieces on both sides.
- 3. Attach Drawer Slides:** Attach drawer slide CL to Panel B and drawer slide CR to Panel C. Align the correct screw holes and fasten the slides securely using screws. Tighten firmly to avoid noise during use.
- 4. Form Drawer Frame:** Connect Panels J and K using screws to form the drawer frame. Insert Board M into the side grooves. Attach Panel I and align the pre-installed Cam Locks with the Cam Bolts. Rotate Cam Locks

clockwise using the provided tool until about 60% tightness, then fully secure.

5. **Attach Drawer Slides to Drawer:** Attach drawer slide DL to Panel J, and drawer slide DR to Panel K using screws. Make sure each slide is installed in the correct screw holes. Please tighten the screws fully to avoid noise during use.
6. **Attach Drawer Handle:** Attach the handle to the front panel I using screws from the inside.
7. **Connect Wiring:** Connect the wiring end of the socket to the connector on the light board. Align the connector with the correct direction. Do not force it if the direction is wrong.
8. **Fix Power Socket:** Place the power socket at the desired position on the back of board A. The installation can be on the left, right, or center according to your preference. Fix the socket using screws. Ensure the clip is facing upwards.
9. **Secure Power Cable:** Use the cable clips and screws to fix the power cable onto the back of board A.
10. **Secure Boards D, E, F:** Secure boards D, E, and F to board B using screws. Ensure all boards sit firmly and edges stay flush.
11. **Secure Board C:** Secure Board C to the structure using screws.
12. **Slide Board H:** Slowly slide Board H down along the groove tracks on Boards B and C until it reaches the bottom and fits securely in place.
13. **Insert Part N:** Insert Part N into the groove on Board B and press it down until it fits firmly in place.
14. **Insert Board G:** Insert Board G into the grooves of Boards B and C, ensuring the large round hole on Board G is positioned at the top. Slide it down gently until fully seated on Part N.
15. **Install Board A:** Insert the cam bolts into the holes on Board A. Align the arrow on Cam Lock with the bolt, press down, and tighten clockwise until fully secured.
16. **Install Panel Fasteners:** Use bracket and screw to secure boards G and H to the steel frame B/C. Place bracket at the top corners of board G, then tighten with screw using screwdriver. Ensure all panel fasteners are fully tightened and the back panels are firmly secured.
17. **Install Drawer:** Align the drawer slide DL/R with the cabinet slide CL/R. Push the drawer straight inward following the direction of the arrows until the slide rails fully click and lock into place. If resistance is felt, slightly lift or adjust the drawer to ensure the rails align correctly.
18. **Apply Cover Stickers:** Press the cover stickers firmly over all exposed screw holes on the cabinet and drawers.

4. OPERATING INSTRUCTIONS

4.1. Using the LED Light Strip

The nightstand features an RGB LED light strip with multiple colors and modes:

- **Power On/Off:** Press the touch button located on the charging station to turn the LED light on or off.
- **Change Color/Mode:** Short press the touch button to cycle through 10 different colors and 10 lighting modes.
- **Adjust Brightness:** Long press the touch button to adjust the brightness level. Release when the desired brightness is reached.

4.2. Using the Charging Station

The integrated charging station provides convenient power access:

- **AC Outlet:** Plug your devices into the 125V/8A AC outlet for standard power.
- **USB Ports:** Use the 5V/2A USB ports to charge compatible electronic devices.
- **Cable Management:** Utilize the cable grommet to route charging cables neatly, reducing clutter.

5. MAINTENANCE

Proper care will extend the life and appearance of your AODK nightstand:

- **Cleaning:** Wipe the surfaces with a damp cloth. Avoid harsh chemicals or abrasive cleaners that may damage the finish.
- **Spills:** Promptly wipe up any spills to prevent staining or damage to the engineered wood.
- **Hardware:** Periodically check and tighten all screws and fasteners to ensure stability.
- **Electrical Components:** Ensure the charging station and LED light strip are kept dry. Do not attempt to repair electrical components yourself.

6. SPECIFICATIONS

7. TROUBLESHOOTING

If you encounter any issues with your AODK nightstand, please refer to the following common solutions:

- **LED Light Not Working:** Ensure the power cord is securely plugged into a functional wall outlet and the light strip's connector is properly attached. Check if the touch button is responsive.
- **Charging Station Not Working:** Verify the power cord is plugged in. Test the AC outlet and USB ports with different devices to confirm functionality. Ensure the power socket is correctly installed on the back panel.
- **Drawers Not Sliding Smoothly:** Check that the drawer slides are correctly aligned and securely fastened. Ensure no objects are obstructing the drawer's path. Re-tighten any loose screws on the slides.
- **Wobbly Nightstand:** Confirm that all assembly screws are fully tightened. Ensure the nightstand is placed on a flat, even surface.

If problems persist, please contact AODK customer support for further assistance.

8. WARRANTY AND SUPPORT

For information regarding warranty coverage, product returns, or technical support, please refer to your purchase documentation or contact AODK customer service directly. Keep your proof of purchase for any warranty claims.
