OTTOCAST OttoAiBox E2

OTTOCAST OttoAiBox E2 Android 13 Car AI Box User Manual

Model: OttoAiBox E2

Brand: OTTOCAST

1. INTRODUCTION

The OTTOCAST OttoAiBox E2 is an advanced car AI box designed to enhance your in-car entertainment and connectivity. Running on Android 13 with OttoDrive 2.5, it offers a smooth and customizable user experience, allowing you to enjoy popular streaming applications and navigation directly on your car's display. This device supports wireless CarPlay and Android Auto, providing a seamless and cable-free connection to your smartphone. Key features include:

- Android 13 OS with OttoDrive 2.5 for intuitive operation.
- Pre-installed popular apps like YouTube, Netflix, Disney+, Prime Video, Spotify, TikTok, and Yahoo! Car Navigation.
- Ability to download additional apps from the Google Play Store.
- Split-screen display for simultaneous navigation and video playback.
- Wireless CarPlay and Wireless Android Auto support.
- Dual Wi-Fi and Dual Bluetooth for stable connections and external device compatibility.
- MicroSD card support up to 256GB for offline media playback.

3. SETUP INSTRUCTIONS

Follow these steps to set up your OTTOCAST OttoAiBox E2:

1. **Connect the Device to Your Car:** Plug the OttoAiBox E2 into your car's USB port (the one used for wired CarPlay/Android Auto) using the provided USB cable.
2. **Establish Network Connection:** Once the device boots up, navigate to the network settings on the car's

display. Connect to a Wi-Fi hotspot (from your smartphone or a dedicated SIM card) or use your smartphone's tethering function.

3. **Start Using:** After connecting to the network, the OttoAiBox E2 will be ready to use. For subsequent uses, the device will automatically connect, simplifying the process.

4. OPERATING INSTRUCTIONS

4.1. Home Screen Customization (OttoDrive 2.5)

The OttoAiBox E2 features OttoDrive 2.5, allowing extensive customization of your home screen. You can freely edit, add, or delete widgets, change wallpaper, and adjust app sizes to create a personalized interface.

多彩なアプリを存分に楽しもう！

Figure 4.1: Customize your home screen with widgets and app layouts.

4.2. App Usage and Installation

Enjoy a wide range of pre-installed applications for entertainment and navigation. You can also download any app from the Google Play Store to further expand your in-car experience.

- **Pre-installed Apps:** YouTube, Netflix, Disney+, Prime Video, Spotify, TikTok, Yahoo! Car Navigation.
- **Google Play Store:** Access millions of apps to install directly on your OttoAiBox E2.

Figure 4.2: Enjoy your favorite apps like YouTube, Netflix, and Prime Video on your car's display.

4.3. Split-Screen Display

The split-screen feature allows you to display two applications simultaneously, such as navigation and video playback. You can adjust the screen ratio (5:5, 7:3, 3:7) to suit your preference. This is ideal for long drives, allowing the driver to focus on navigation while passengers enjoy entertainment.

Note: Netflix may not support split-screen functionality due to manufacturer specifications.

4.4. Wireless CarPlay and Android Auto

Eliminate the need for cables. The OttoAiBox E2 converts your car's wired CarPlay/Android Auto system into a wireless one. Connect your smartphone wirelessly in as little as 10 seconds.

Figure 4.4: Enjoy wireless CarPlay and Android Auto for a clutter-free experience.

4.5. Media Playback and Connectivity

The device supports MicroSD cards up to 256GB, allowing you to store and play movies and music offline, saving mobile data. Dual Wi-Fi ensures stable connections for both CarPlay/Android Auto and other internet-dependent apps. Dual Bluetooth supports various external devices such as remote controls, mice, keyboards, OBD, and TPMS.

Figure 4.5: Expand your media library with MicroSD and connect various Bluetooth devices.

4.6. Control Methods

The OttoAiBox E2 maintains the original operability and sound quality of your car's system. You can control the device using:

- **Touch Control:** Directly interact with the car's display.
- **Steering Wheel Controls:** Use your car's existing steering wheel buttons for audio and call management.
- **Voice Assistant:** Utilize Siri or Google Assistant for hands-free operation, ensuring safe driving.

Figure 4.6: Multiple control options for convenience and safety.

4.7. Alcontrol App for Non-Touch Displays

If your car's navigation system does not have touch functionality, you can easily control the OttoAiBox E2 using the dedicated smartphone app "Alcontrol."

Download Method: Scan the QR code below or install from the App Store / Google Play.

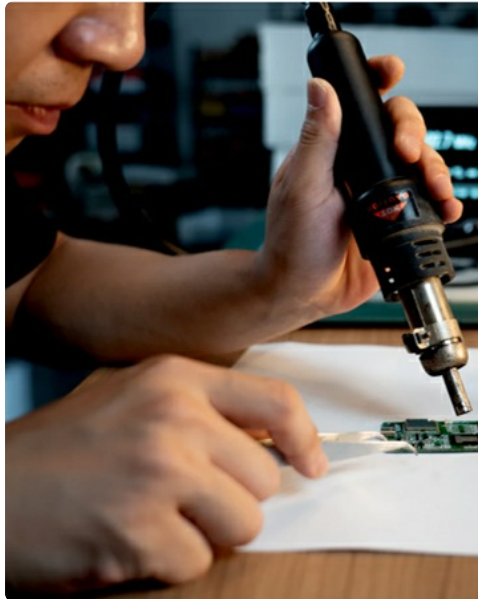

Figure 4.7: Control the OttoAiBox E2 with the Alcontrol smartphone app.

5. COMPATIBILITY

The OTTOCAST OttoAiBox E2 is compatible with over 98% of vehicles equipped with factory-wired CarPlay or Android Auto.

- **Requirement:** Your vehicle must have factory-wired CarPlay or Android Auto.
- **iPhone Compatibility:** Requires iOS 10 or later (iPhone 6 or newer).
- **Android Compatibility:** Requires Android 11 or later and an Android Auto compatible device.
- **Incompatible Vehicles:** Vehicles that only support wireless CarPlay/Android Auto (e.g., some BMW/MINI models) are not compatible.
- **Verification:** To confirm compatibility, connect your smartphone directly to your car's USB or Type-C port and check if CarPlay/Android Auto launches.

Note: Due to variations in vehicle models and years, some listed brands may not be compatible.

6. TROUBLESHOOTING

If you encounter issues with your OttoAiBox E2, please refer to the following common solutions:

Problem	Possible Cause / Solution
Device does not power on.	Ensure the USB cable is securely connected to the correct USB port in your car (the one that supports wired CarPlay/Android Auto). Try a different USB port if available.
No network connection.	Check your Wi-Fi hotspot or smartphone tethering settings. Ensure the Wi-Fi password is correct. Restart the device and try connecting again.
CarPlay/Android Auto does not connect wirelessly.	Ensure your phone's Bluetooth and Wi-Fi are enabled. Forget previous CarPlay/Android Auto connections on your phone and car. Restart both your phone and the OttoAiBox E2.
Apps are slow or unresponsive.	Check your internet connection speed. Close unused background applications on the OttoAiBox E2. Clear app caches or restart the device.
Audio quality issues.	Ensure Bluetooth connections are stable. Check audio settings on both the OttoAiBox E2 and your car's infotainment system.
GPS inaccuracy.	Ensure the device has a clear view of the sky. Update navigation app maps.

If the problem persists after trying these solutions, please contact OTTOCAST customer support.
