

## HUAWEI FreeClip 2

# HUAWEI FreeClip 2 Wireless Open-Ear Earphones User Manual

Model: FreeClip 2 (Robin-T10)

## 1. INTRODUCTION

The HUAWEI FreeClip 2 are innovative wireless open-ear earphones designed for comfort, high-quality audio, and seamless integration into your daily life. Featuring a unique C-bridge design, these earphones provide a secure yet comfortable fit without blocking your ear canal, allowing you to stay aware of your surroundings while enjoying your audio. With advanced audio technology, robust durability, and smart controls, the FreeClip 2 offers a superior listening experience for various activities.

## 2. PRODUCT FEATURES

- **Comfortable Open-Ear Design:** The ergonomic ear-cuff design with a C-bridge made of shape memory alloy and liquid silicone ensures a secure and comfortable fit. Each earbud weighs approximately 5.1g, providing a lightweight feel for extended wear.
- **Enhanced Audio Experience:** Equipped with a powerful dual-vibration plate driver, the FreeClip 2 delivers rich bass and clear sound. An inverse sound wave system minimizes sound leakage, allowing for private listening in public spaces.
- **Clear Call Quality:** Features two microphones and a bone conduction VPU microphone for effective call noise reduction, ensuring your voice is transmitted clearly even in noisy environments.
- **Long Battery Life & Fast Charging:** Enjoy up to 9 hours of playback on a single charge, and up to 38 hours with the charging case. A quick 10-minute charge provides approximately 3 hours of listening time.
- **IP57 Dust and Splash Resistance:** Designed to withstand dust and temporary water immersion, making them suitable for outdoor activities, sports, and use in various weather conditions.
- **Smart Controls:** Intuitive touch controls allow for music playback, call management, and volume adjustment. Head motion control enables answering or rejecting calls with a simple nod or shake of the head.
- **Automatic Left/Right Recognition:** The earphones automatically detect which ear they are placed in, seamlessly switching audio channels for optimal sound.
- **Multi-point Connection:** Connect to two devices simultaneously, compatible with both iOS and Android operating systems.

### サウンドを間近に感じる

自分だけのリスニング空間に没入しましょう。逆位相音波が音を耳へ直接届けることで、音漏れを抑えつつ臨場感を実現します。音量は周囲の状況に合わせて自動的に最適化されます\*10。

### オープンな 耳でプライベートな通話体験

#### 安定かつクリアな通話

邪魔なノイズに煩わされることなく、自分の声も相手の声もはっきりと聞き取れます。賑やかな公共の場でも、イヤホンがノイズを的確に識別します。

### 3. SETUP

#### 3.1 Initial Pairing

1. Ensure your HUAWEI FreeClip 2 earphones are charged.
2. Open the charging case. The indicator light inside the case should blink, indicating pairing mode.
3. On your smartphone or device, enable Bluetooth and search for available devices.
4. Select "HUAWEI FreeClip 2" from the list to connect.

#### 3.2 HUAWEI AI Life / Audio Connect App Installation

For enhanced features and customization, download the HUAWEI AI Life app (for Android) or HUAWEI Audio Connect app (for iOS).

- **For iOS devices:** Search for "HUAWEI AI Life" in the Apple App Store or scan the QR code on the product packaging.
- **For Android devices:** Scan the QR code on the product packaging to download from HUAWEI App Gallery.

## 4. OPERATING INSTRUCTIONS

### 4.1 Wearing the Earphones

Gently clip the earphones onto your ears. The C-bridge design ensures a secure and comfortable fit. The earphones automatically detect the left and right channels for optimal audio.

# C-bridge デザインが もたらす最高の装着感

イヤホン片耳わずか約5.1g  
羽のように軽く耳にフィット、長時間快適

### 4.2 Touch Controls

The HUAWEI FreeClip 2 features intuitive touch controls on the earbuds:

- **Double Tap:** Play/pause audio, answer/end calls.
- **Triple Tap:** Skip to the next track or previous track.

- **Swipe Up/Down:** Adjust volume.

## アプリによる簡単操作

専用アプリを利用することで、音楽シーンに合わせたサウンド効果の選択が可能になります。

### 4.3 Head Motion Control

Enable head motion control in the HUAWEI AI Life / Audio Connect app to manage calls:

- **Nod Head:** Answer an incoming call.
- **Shake Head:** Reject an incoming call.

Video: Demonstration of head motion controls for answering and rejecting calls with the HUAWEI FreeClip 2.

### 4.4 Adaptive Volume

The earphones can automatically adjust the volume based on your usage routine and the ambient noise level. This feature can be enabled in the HUAWEI AI Life / Audio Connect app under 'Experimental features'.

Video: Explanation and demonstration of the adaptive volume feature of the HUAWEI FreeClip 2.

## 5. MAINTENANCE

---

- Regularly clean the earphones and charging case with a soft, dry cloth.
- Avoid using abrasive materials or harsh chemicals.
- Ensure the charging port is free of dust and debris.
- While the earphones are IP57 rated, the charging case is not. Keep the charging case dry.
- Store the earphones in their charging case when not in use to protect them and maintain battery life.

## 6. TROUBLESHOOTING

---

Problem	Possible Solution
Earphones not pairing	Ensure Bluetooth is enabled on your device. Open the charging case to enter pairing mode. Try restarting your device and the earphones.
No sound or low volume	Check device volume and earphone volume. Ensure earphones are properly seated. Reconnect Bluetooth.
Call quality issues	Ensure microphones are not obstructed. Check network signal. Try adjusting earphone position.
Earphones falling out	Ensure earphones are correctly positioned on your ear. The C-bridge is designed for a secure fit.
App not detecting earphones	Ensure earphones are connected via Bluetooth. Close and reopen the app. For iOS, ensure the app has Bluetooth permissions. For Android, ensure the app is downloaded from HUAWEI App Gallery.
Earphone drop detection alarm	If an earphone falls, the other earphone will sound an alarm. Retrieve the fallen earphone.
