

## Aoocci C3 Plus

# Aoocci C3 Plus Motorcycle CarPlay System User Manual

## 1. INTRODUCTION

---

This manual provides detailed instructions for the installation, operation, and maintenance of your Aoocci C3 Plus Motorcycle CarPlay System. The C3 Plus features a 5-inch HD touchscreen, supports wireless Apple CarPlay and Android Auto, includes GPS navigation, IP67 waterproofing, and real-time Tire Pressure Monitoring System (TPMS). Please read this manual thoroughly before using the device to ensure proper function and safety.

## 2. WHAT'S IN THE BOX

---

Verify that all components are present in the package:

- Touch Screen Main Unit
- Mounting Bracket
- Front & Rear Tire Pressure Sensors
- Power Cable & Installation Toolkit
- Power Cable (with USB Port)

# C3 Plus Parts & Accessories

## 3. INSTALLATION

### 3.1 Mounting the Device

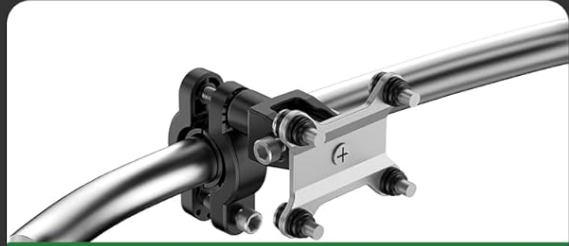

The Aocci C3 Plus comes with a robust mounting bracket designed for motorcycle handlebars. Follow these steps for secure installation:

1. Use the provided wrench to install the bracket securely on your motorcycle's handlebar.
2. Install the connecting rod onto the bracket.
3. Install the CarPlay unit onto the rod and adjust its position for optimal viewing.
4. Ensure all connections are tightened and the unit is stable.

# Installation Instruction

1 Use the wrench to install the bracket on the handlebar

2 Install the connecting rod on the bracket

3 Install the Carplay on the rod and adjust the rod

4 Installation completed

## 4. INITIAL SETUP & CONNECTION

### 4.1 Power On

Once correctly wired, the device will power on automatically with your motorcycle's ignition.

## 4.2 Wireless Apple CarPlay Connection

To connect your iPhone to Apple CarPlay:

1. On the C3 Plus screen, select the 'CarPlay' icon.
2. On your iPhone, turn on Bluetooth and Wi-Fi.
3. In your iPhone's Bluetooth settings, select the device named 'Car-C3plus-xxx'.
4. Confirm the connection on both devices.

## 4.3 Wireless Android Auto Connection

To connect your Android phone to Android Auto:

1. On the C3 Plus screen, select the 'Android Auto' icon.
2. On your Android phone, turn on Bluetooth and Wi-Fi.
3. In your Android phone's Bluetooth settings, select the device named 'Car-C3plus-xxx'.
4. Confirm the connection on both devices.

## 5.2 CarPlay & Android Auto Features

Once connected, you can access various smartphone functions directly from the C3 Plus screen:

- **Navigation:** Use Google Maps, Apple Maps, Waze, and other compatible navigation apps.
- **Music:** Play music from your smartphone's library or streaming services.
- **Messaging:** Send and receive messages.
- **Hands-Free Calls:** Make and receive calls directly through the unit.

## 5.4 GPS Navigation

The integrated GPS navigation system supports various mapping applications, providing clear travel routes and reducing travel time. The bright 800nit display ensures visibility even in direct sunlight.

# GPS Navigation

Motorcycle GPS navigation makes travel routes clearer and shortens riding time, making it an essential accessory for motorcycle cycling.

## 5.6 Dual Bluetooth Connectivity

The unit features built-in dual Bluetooth, allowing simultaneous connection to your smartphone and a Bluetooth helmet or headset. This enables seamless audio streaming and hands-free communication.

## 6. MAINTENANCE

The Aoccci C3 Plus is designed for durability in various conditions:

- **IP67 Waterproof:** The unit is fully sealed against rain, dust, and vibrations, making it suitable for all weather conditions.
- **Extreme Temperature Resistance:** Operates reliably from -20°C to 80°C (-4°F to 176°F).

To maintain optimal performance, regularly clean the screen with a soft, damp cloth. Avoid using harsh

chemicals or abrasive materials.

## 7. TROUBLESHOOTING

If you encounter issues with your Aocci C3 Plus, refer to the following common solutions:

- **No Power:** Check the power cable connections to the motorcycle battery and ACC line. Ensure the motorcycle ignition is on.
- **Connectivity Issues (CarPlay/Android Auto):** Ensure Bluetooth and Wi-Fi are enabled on your smartphone and the C3 Plus. Try forgetting the device in your phone's Bluetooth settings and re-pairing.
- **Screen Dimness:** Adjust the brightness settings in the device menu. Note that extreme direct sunlight can affect screen visibility.
- **TPMS Not Displaying Readings:** Ensure the tire pressure sensors are correctly installed and tightened. Check the battery level of the sensors if applicable.

- **No Sound:** Verify the volume settings on both the C3 Plus and your connected helmet/headset. Ensure your helmet/headset is properly paired via Bluetooth.

For further assistance, please contact customer support.

## 8. SPECIFICATIONS
