AODK 4+2 Drawer Dresser

AODK Farmhouse Tall 6-Drawer Dresser User Manual

Model: 4+2 Drawer Dresser

Introduction

This manual provides detailed instructions for the assembly, operation, and maintenance of your AODK Farmhouse Tall 6-Drawer Dresser. This 5-tier vertical storage chest is designed with a classic farmhouse aesthetic and features a durable engineered wood frame. Please read all instructions carefully before beginning assembly and retain this manual for future reference.

Safety Information

Your safety is paramount. Please observe the following safety guidelines:

- **Anti-Tip Device:** This dresser includes an anti-tip hardware kit. It is crucial to install this device securely to a wall stud to prevent the dresser from tipping over, especially in households with children or pets. Failure to install the anti-tip device can result in serious injury or death.
- **Weight Capacity:** Do not overload drawers. Distribute weight evenly. The top surface also has a weight limit; avoid placing excessively heavy items on it.
- **Assembly:** Assemble the dresser on a soft, clean surface to prevent scratches. Ensure all hardware is tightened securely before use. Periodically check and re-tighten hardware as needed.
- **Placement:** Place the dresser on a level surface to ensure stability.

Figure 1: Anti-Tip Safety Diagram. Always install the anti-tip hardware to prevent accidental tipping.

Parts List

Before assembly, verify that all components are present and undamaged. If any parts are missing or damaged, please contact customer support.

- Dresser Panels (Side panels, back panel, top panel, bottom panel, drawer fronts, drawer sides, drawer backs, drawer bottoms)
- Hardware Kit (Screws, dowels, cam locks, cam studs, drawer slides, handles)
- Anti-Tip Kit (Strap, wall anchor, screws)
- Instruction Manual (This document)

Setup and Assembly

Follow these steps carefully for proper assembly. It is recommended to have two people for assembly.

1. **Prepare Workspace:** Clear a spacious area and lay out all parts on a soft, clean surface to prevent damage.
2. **Identify Parts:** Match each part to the corresponding label in the instruction diagram.
3. **Assemble Frame:** Begin by connecting the side panels to the base and top panels using the provided hardware. Ensure all connections are secure.
4. **Install Drawer Slides:** Attach the drawer slides to the inner sides of the dresser frame according to the pre-drilled holes.
5. **Assemble Drawers:** Construct each drawer by connecting the front, back, and side panels, then slide in the bottom panel. Attach the drawer handles. Note that the top two drawers are designed without metal slides for a wood-on-wood feel.
6. **Insert Drawers:** Carefully slide the assembled drawers into their respective compartments.
7. **Install Anti-Tip Kit:** Secure the anti-tip device to the back of the dresser and then to a wall stud. This step is critical for safety.

Operating Instructions

The AODK Farmhouse Tall 6-Drawer Dresser is designed for organized storage of clothing and other personal items.

- **Drawer Usage:** Gently pull and push drawers to open and close. Avoid forcing drawers, especially if they feel stiff. The top two drawers operate on a wood-on-wood mechanism, while the lower four drawers utilize metal slides for smoother operation.
- **Weight Distribution:** Distribute items evenly within drawers to prevent strain on the drawer slides and frame. Avoid placing all heavy items in a single drawer.
- **Top Surface:** The top surface can be used for decorative items or frequently accessed essentials. Ensure items placed on top do not exceed the dresser's stability limits.

Figure 3: Drawer Storage Example. The dresser offers ample space for organizing various items.

Maintenance

Proper care will extend the life and appearance of your dresser.

- **Cleaning:** Wipe the dresser surfaces with a damp cloth. Avoid harsh chemicals or abrasive cleaners, which can damage the finish.
- **Hardware Check:** Periodically inspect all screws and fasteners to ensure they remain tight. Re-tighten if necessary to maintain structural integrity.
- **Drawer Slides:** For metal drawer slides, a silicone-based lubricant can be applied sparingly if movement becomes stiff. For wood-on-wood drawers, ensure they are free of debris.
- **Sunlight Exposure:** Avoid prolonged exposure to direct sunlight, which can cause fading or discoloration of the finish.

Troubleshooting

Problem	Possible Cause	Solution
Drawers do not slide smoothly or are misaligned.	◦ Incorrect installation of drawer slides. ◦ Loose hardware. ◦ Obstruction in the drawer track. ◦ Uneven floor surface.	◦ Review assembly instructions for correct slide orientation. ◦ Tighten all screws on drawer slides and frame. ◦ Remove any debris from tracks. ◦ Ensure the dresser is on a level surface; use shims if necessary.
Dresser feels wobbly or unstable.	◦ Loose assembly hardware. ◦ Dresser not on a level surface. ◦ Anti-tip device not installed or improperly installed.	◦ Tighten all assembly screws. ◦ Move dresser to a level surface or use shims. ◦ **Immediately install the anti-tip device securely to a wall stud.**
Handles are loose.	◦ Screws attaching handles are loose.	◦ Tighten the screws from the inside of the drawer front.
