## HUREWA M3

# HUREWA AI Voice Recorder M3 User Manual

Model: M3

## INTRODUCTION

The HUREWA AI Voice Recorder M3 is an advanced digital recording device designed for efficient audio capture, transcription, translation, and intelligent assistance. It integrates AI technology to streamline tasks such as converting speech to text, summarizing content, and facilitating real-time language translation. This manual provides detailed instructions for setting up, operating, and maintaining your device.

## WHAT'S IN THE BOX

Verify that all items are present in the package:

- 1x M3 AI recorder
- 1x USB-C charging cable
- 1x User manual
- 1x Velvet pouch

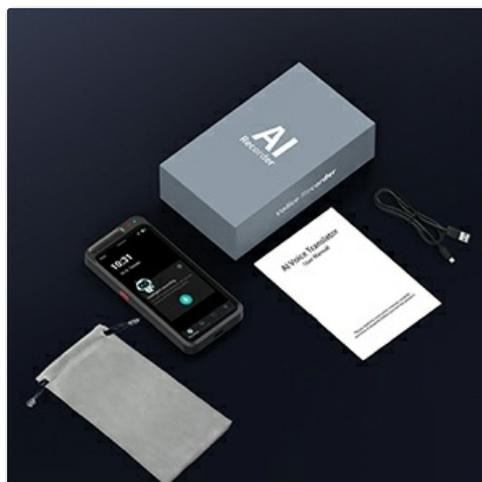

Figure 1: Package Contents. The image displays the HUREWA AI Voice Recorder M3, a USB-C charging cable, a user manual, and a velvet pouch, as typically found in the product packaging.

## PRODUCT OVERVIEW

The HUREWA AI Voice Recorder M3 features a compact design with a 4.1-inch HD touch screen for intuitive operation. It is

equipped with dual silicon microphones for high-definition audio capture and supports various AI-powered functions.

## Key Features:

- **AI Transcription:** Free transcription for 13 major languages with no time limits.
- **AI Summarization:** Utilizes ChatGPT to generate summaries, meeting minutes, and to-do lists from transcribed content.
- **Professional HD Recording:** Dual silicon microphone array with noise-canceling technology for 6-8 meter range audio capture.
- **Speaker Differentiation:** Online transcription mode automatically distinguishes speaker roles.
- **Multimedia Notes:** Ability to take and insert pictures during recording.
- **Large HD Touch Screen:** 4.1-inch display for easy navigation, WLAN/Bluetooth connectivity, and settings management.
- **Storage & Battery:** 1500mAh battery, 16GB internal storage, and 64GB expandable storage.
- **Real-Time Translation:** Online bidirectional translation in 134 languages and offline translation in 15 languages.
- **Photo Translation:** Built-in 5MP rear camera for AI photo translation in 71 online/12 offline languages.
- **Privacy Protection:** Cloud storage for recordings (5GB free upon first login), local data encryption with password protection.
- **AI Intelligent Assistant:** Powered by ChatGPT, offering AI Q&A, AI Voice, AI Character, AI Writing, and AI Image Recognition (limited free daily use, subscription for more).

## SETUP

### Initial Activation and Wi-Fi Connection:

1. **Power On:** Press and hold the power button to turn on the device.
2. **Initialisation:** The device requires an initial connection to a 2.4GHz Wi-Fi network to complete its setup.
3. **Connect to Wi-Fi:** Navigate to the Wi-Fi settings on the device's touch screen. Select your 2.4GHz Wi-Fi network and enter the password.
4. **Connection Time:** The first wireless connection may take at least ten seconds to establish.
5. **Troubleshooting Wi-Fi:** If you encounter connectivity issues, ensure your Wi-Fi router is operating on the 2.4GHz band. You may also try connecting from a different network environment.
6. **Apple Hotspot Compatibility:** If using an Apple mobile phone hotspot, ensure "maximum compatibility" is enabled in your phone's hotspot settings.

## OPERATING INSTRUCTIONS

### 1. Recording Audio

To begin recording, navigate to the recording interface on the touch screen. Press the record button to start and stop recording. The device supports high-definition audio capture from a distance of 6-8 meters.

### 2. Transcription

The M3 AI Voice Recorder offers free transcription services for 13 major languages. After recording, you can initiate the transcription process. In online transcription mode, the device can automatically differentiate between speakers, improving the clarity and organization of your notes.

- **Supported Languages:** Simplified Chinese, English (US), Japanese, Korean, French, Russian, German, Spanish, Italian, Arabic, Vietnamese, Traditional Chinese, Cantonese Chinese.
- **Multimedia Notes:** During recording, you can take pictures and insert them into your notes to create comprehensive multimedia records.

The image displays a smartphone screen with the AI Voice Recorder interface. The screen shows a recording session in progress, with a timestamp of 08:10 and a battery level of 59%. The language is set to English (US). The transcription text is as follows:

Speaker 1  
with whom the Bennetts were  
Lucas had been formally in  
made it tolerable for fortune and  
by an address to the king during  
his mayoralty  
The distinction had perhaps  
given him a disgust to his  
business and to his residence  
in a small market town and  
quitting them both yet removed  
with his family to a house  
about a mile from Meritand  
Denominated from that period

The interface includes a progress bar at the bottom, a timer showing 00:00:28, and icons for taking a picture, flagging, pausing, and confirming. The background of the image shows a meeting room with people and a whiteboard, with a microphone icon and a waveform overlaid on the scene.

Supports speaker differentiation in online transcription mode, and allows you to take and insert pictures during the recording process, and create summaries of the transcribed content through ChatGPT

## 3. Translation

The device supports extensive translation capabilities for global communication.

- **Online Translation:** Bidirectional translation in 134 languages.
- **Offline Translation:** Supports 15 languages without an internet connection.
- **Photo Translation:** Use the built-in 5MP camera to translate text from images in 71 online and 12 offline languages.

## 4. AI Assistant (Powered by ChatGPT)

The device includes an AI assistant powered by ChatGPT, offering various intelligent functions:

- **AI Q&A:** Ask questions and receive accurate, detailed answers.
- **AI Voice:** Interact with the device using voice commands.
- **AI Characters:** Engage with different AI personalities for various scenarios.
- **AI Writing:** Generate articles and summaries from recorded content.
- **AI Image Recognition:** Analyze images to extract valuable information.

**Note:** The AI assistant can be used three times daily for free. A subscription is required for additional usage.

## 5. Privacy Protection

The M3 AI Voice Recorder incorporates features to protect your data:

- **Cloud Storage:** Upload recording files to a secure cloud space accessible only through your registered account. New users receive 5GB of free cloud storage upon first login.
- **Local Data Encryption:** Encrypt local data with a password. When connecting the device to a computer via USB, you must input the password to view files, preventing unauthorized access.
- **Lock Screen Password:** Set a lock screen password in the device settings for added security.

# Triple Data Encryption Protection

1. Set the lock screen password in settings
2. Only log in mailbox can upload files to cloud space and view them
3. After setting the data encryption, you need to input the password when connecting the computer to view the files via USB cable

Figure 8: Triple Data Encryption Protection. This image illustrates the device's password protection feature for accessing local data, emphasizing secure cloud storage and USB file access.

## MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to clean the device. Avoid liquid cleaners or abrasive materials.
- **Storage:** Store the device in a cool, dry place, away from direct sunlight and extreme temperatures. Use the provided velvet pouch for protection.
- **Battery Care:** To prolong battery life, avoid fully discharging the battery frequently. Charge the device regularly, even if not in use for extended periods.
- **Software Updates:** Check for available software updates periodically through the device settings to ensure optimal performance and access to new features.

## TROUBLESHOOTING

- **Device Not Powering On:** Ensure the device is charged. Connect it to a power source using the USB-C cable and try

again.

- **Wi-Fi Connectivity Issues:**

- Verify that your Wi-Fi network operates on the 2.4GHz band.
- Restart your Wi-Fi router.
- Attempt to connect in a different network environment.
- If using an Apple mobile hotspot, confirm "maximum compatibility" is enabled in your phone's settings.

- **Transcription Inaccuracy:**

- Ensure the recording environment is quiet to minimize background noise.
- Speak clearly and at a moderate pace.
- Verify that the correct language is selected for transcription.

- **Short Battery Life:**

- Reduce screen brightness.
- Close unused applications running in the background.
- Ensure the device is fully charged before use.

- **Device Freezing/Unresponsive:** Press and hold the power button for approximately 10-15 seconds to force a restart.

## SPECIFICATIONS

Feature	Detail
Product Dimensions	0.43"D x 2.17"W x 4.65"H
Item Weight	7 ounces
Battery	1 A battery required (included), 1500mAh
Battery Life	6 Hours (continuous recording 5-7 hours)
Memory Storage Capacity	80 GB (16GB internal + 64GB TF card)
Hardware Interface	USB
Microphone Form Factor	Built-In, Dual Silicon Microphone Array
Recording Distance	6-8 meters
Headphones Jack	Type-C Wired Headset
Display	4.1-inch HD Touch Screen, 640*1280 resolution
Compatible Devices	Laptop, Personal Computer, Smartphone, Tablet
Transcription Languages	13 Major Languages
Online Translation Languages	134 Languages
Offline Translation Languages	15 Languages
Photo Translation Languages	71 Online / 12 Offline Languages
