smartoo Wireless Cat Water Fountain Stainless Steel - Instruction Manual

Model: PSWFS006S

PRODUCT OVERVIEW

The smartoo Wireless Cat Water Fountain provides a continuous supply of fresh, filtered water for your pets. Designed with convenience and pet health in mind, this battery-operated fountain offers flexible placement and multiple operating modes.

- **Wireless Operation:** Freedom from power cords allows placement anywhere in your home.
- **Long-lasting Battery:** Built-in 4000mAh rechargeable battery provides up to 60 days of operation on a full charge.
- **Large Capacity:** 152oz (4.5L) tank ensures hydration for up to 2 weeks, suitable for multi-pet households.
- **Durable Material:** Constructed from SUS 304 stainless steel for hygiene, rust resistance, and easy cleaning.
- **Triple Water Modes:** Includes Sensing mode (motion-activated), Intermittent mode, and Constant mode.
- **Multi-layer Filtration:** Ensures clean and healthy drinking water by removing impurities.

SETUP INSTRUCTIONS

- Clean Components:** Wash the stainless steel water tank, water tray, and filter tray thoroughly with water. The stainless steel parts are dishwasher-safe.
- Prepare Filter:** Immerse a new filter in clean water for 5 minutes before first use to prevent blockages.
- Assemble Pump:** Connect the pump set to the master control module. Ensure the pump power cord and pump holder are correctly connected.
- Install Filter:** Place the prepared filter into the filter tray.
- Place Filter Tray:** Insert the filter tray with the filter into the water tank.
- Fill Water Tank:** Fill the stainless steel water tank with fresh water up to the 'MAX' line, visible through the transparent window.
- Place Water Tray:** Position the stainless steel water tray on top of the filter tray.
- Insert Control Module:** Carefully place the master control module with the pump set into its designated slot on the water tray.

9. **Charge Battery:** For initial use, fully charge the built-in 4000mAh rechargeable battery using the provided Type-C cable and adapter. The battery indicator light will show charging status.

OPERATING MODES

The smartoo Wireless Cat Water Fountain offers three distinct operating modes to suit your pet's preferences and conserve battery life:

- **Sensing Mode:** The fountain dispenses water for 15 seconds when a pet approaches within 31.5 inches (80cm). This mode is recommended for optimal battery life and fresh water on demand.
- **Intermittent Mode:** Water is dispensed for 15 seconds at 10-minute intervals.
- **Constant Mode:** Water flows continuously. This mode requires the fountain to be plugged in via the Type-C cable.

To switch between modes, press the mode selection button on the master control module. The corresponding indicator light will illuminate.

3 Water Modes

Switch between sensing mode, intermittent mode or constant mode

31.5 Inches

Sensing mode
Water runs when cat approaches

Intermittent mode
Water flows continuously

Constant mode
Water runs every 10 minutes for 15 seconds

MAINTENANCE

Regular cleaning and filter replacement are crucial for maintaining water quality and the longevity of your smartoo fountain.

- Weekly Cleaning:** Disassemble the fountain (water tank, water tray, filter tray, pump set). Wash all components with mild soap and water. The stainless steel parts are dishwasher-safe. Use the provided cleaning brush to clean the pump and any narrow tubes to prevent mineral buildup.
- Filter Replacement:** Replace the multi-layer filter every 2-4 weeks, or more frequently if you have multiple pets or notice reduced water flow/quality. The filter indicator light on the control module will also signal when a replacement is needed.
- Water Level:** Monitor the water level through the visible window. Refill when the water level approaches the 'MIN' line.
- Battery Charging:** Recharge the battery when the battery indicator light signals low power. A full charge can last up to 60 days depending on usage mode.

TROUBLESHOOTING

| Problem | Possible Cause | Solution |
|--------------------------------|---|---|
| Fountain not dispensing water. | Low battery, insufficient water, pump blockage, or incorrect pump connection. | Ensure battery is fully charged. Check water level and refill if necessary. Clean the pump and filter. Verify pump power cord and holder are correctly connected. |
| Water flow is weak. | Clogged filter or pump. | Clean or replace the filter. Clean the pump thoroughly using the provided brush. |
| Fountain is noisy. | Low water level or debris in the pump. | Refill water to the 'MAX' line. Disassemble and clean the pump to remove any foreign particles. |
| Indicator lights not working. | Battery completely drained or module malfunction. | Charge the battery. If problem persists, contact customer support. |

SPECIFICATIONS

Model Name: Wireless Cat Water Fountain

Item Model Number: PSWFS006S

Brand: smartoo

Material: SUS 304 Stainless Steel

Color: Silver

Capacity: 4.5 Liters (152oz)

Power Source: Battery Powered (4000mAh rechargeable battery)

Item Weight: 2.9 pounds

Item Dimensions (LxWxH): 11.14 x 8.5 x 5.49 inches

Noise Level: Ultra-Quiet Pump (<20dB)

Motion Sensor Range: 31.5 inches (80cm)

Target Audience: House-cats, small to medium-sized dogs

Specific Uses: Indoor
