

Aorev-15 Pro

Generic V-15Pro Cordless Car Vacuum User Manual

Model: Aorev-15 Pro

1. INTRODUCTION

Thank you for purchasing the Generic V-15Pro Cordless Car Vacuum. This multifunctional portable vacuum is designed for efficient cleaning in your car, home, or office, offering powerful suction, blowing, inflation, brushing, and lighting capabilities. Please read this manual thoroughly before use to ensure proper operation and maintenance.

2. PRODUCT FEATURES

- **Unmatched Suction Power:** Equipped with a 19,000Pa powerful suction and an innovative honeycomb air duct design for deep cleaning.
- **Versatile 5-in-1 Functionality:** Seamlessly switches between suction, blowing, inflation, brushing, and lighting modes for various cleaning tasks.
- **Cordless Convenience:** Lightweight and portable design allows for freedom of movement without tangled cords.
- **Smart LCD Display:** Provides real-time information on battery life, suction power, and operational mode.
- **Advanced Motor Technology:** Features a state-of-the-art brushless motor for powerful, consistent performance with minimal noise and energy consumption.
- **Efficient Filtration:** Includes a washable and reusable metal filter and a HEPA filter, capable of filtering 99.99% of dust.

Can Blow And Suck Deep Into Narrow Gaps

Blowing mouth

The narrow and slender device blows away the dust accumulated in the gaps first, then sucks it away

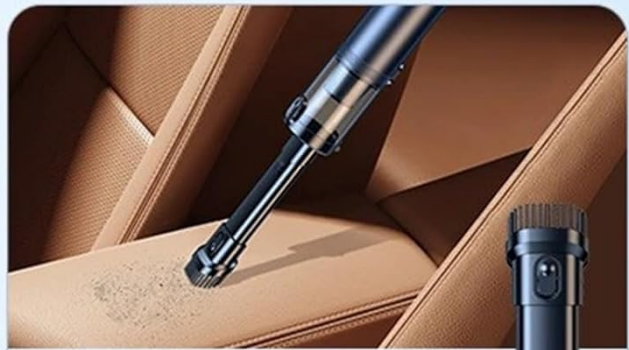

Blowing nozzle + Brush

Brush and blow at the same time to sweep out the hair and dust accumulated in the gaps, then blow it up and suck it clean.

Two-in-one nozzle (flat nozzle)

Routine cleaning, dust particles, snack residues are all sucked out

2 in 1 nozzle (brush)

Brush and suck at the same time, the brush sweeps out dust and hair, and sucks them clean at the same time

4. SETUP

4.1 Charging the Vacuum

1. Before first use, fully charge the vacuum.
2. Connect the charging cable to the vacuum's charging port and plug the other end into a suitable USB power adapter (not included).
3. The LCD display will indicate charging status. A full charge typically takes approximately 3.5-4 hours.
4. Once fully charged, disconnect the charging cable.

4.2 Attaching Accessories

Select the appropriate nozzle for your cleaning task and firmly attach it to the vacuum's suction or blowing port.

- **Long Nozzle (Crevice Tool):** Ideal for reaching tight spaces, corners, and gaps.
- **Short Brush Nozzle:** Suitable for cleaning car vents, keyboards, and upholstery.

- **Inflation Nozzle:** Used for the blowing function, such as inflating small items or clearing dust from surfaces.

5. OPERATING INSTRUCTIONS

5.1 Powering On/Off and Mode Selection

1. Press the power button once to turn on the vacuum in Eco Mode (lower suction).
2. Press the power button a second time to switch to Max Mode (19,000Pa powerful suction).
3. Press the power button a third time to turn off the vacuum.
4. The LCD display will show the current mode and battery level.

5.2 Using Suction Function

Attach the desired nozzle to the suction port. Turn on the vacuum and select the appropriate power mode. Guide the nozzle over the area to be cleaned, ensuring direct contact for optimal suction.

5.3 Using Blowing Function

Attach the inflation nozzle to the blowing port. Turn on the vacuum. Use the blowing function to clear dust from hard-to-reach areas, inflate small items, or dry wet surfaces.

5.4 Integrated Lighting

The vacuum features an integrated LED light to illuminate dark areas during cleaning, such as under car seats or in dimly lit corners.

6. MAINTENANCE

6.1 Emptying the Dust Cup

1. Ensure the vacuum is turned off.
2. Twist the dust cup counter-clockwise to detach it from the main unit.
3. Empty the collected debris into a waste bin.
4. Reattach the dust cup by twisting it clockwise until it clicks into place.

Image: The V-15Pro Car Vacuum disassembled, showing the dust cup and filter components for easy cleaning.

6.2 Cleaning the Filters

1. After emptying the dust cup, remove the metal filter and HEPA filter.
2. Rinse both filters under running water until clean.
3. Allow the filters to air dry completely before reinserting them into the dust cup. Do not use the vacuum with wet filters.
4. Regular filter cleaning ensures optimal suction performance.

7. TROUBLESHOOTING

Problem	Possible Cause	Solution
Vacuum does not turn on.	Battery is depleted.	Charge the vacuum fully.

Problem	Possible Cause	Solution
Low suction power.	Dust cup is full or filters are clogged.	Empty the dust cup and clean the filters.
Vacuum stops during operation.	Battery is low or motor is overheating.	Recharge the battery. If overheating, allow the unit to cool down before resuming use.
Attachments do not fit securely.	Incorrect attachment or not fully inserted.	Ensure the correct attachment is used and firmly push it onto the port until secure.

8. SPECIFICATIONS

Feature	Detail
Model Name	Aorev-15 Pro
Brand	Generic
Suction Power	Max Mode: 19,000Pa
Functions	Suction, Blowing, Inflatable, Brushing, Lighting
Filter Type	HEPA Filter, Washable Metal Filter
Noise Level	<75dB
Dust Capacity	0.15L
Battery Type	Rechargeable Lithium-ion
Charging Time	Approx. 3.5-4 Hours
Runtime	Eco Mode: 30 Minutes, Max Mode: 20 Minutes
Power Source	Battery Powered
Wattage	120 Watts
Voltage	12 Volts
Item Weight	2.2 Pounds (approx. 1 kg)
Dimensions (L x W x H)	15" x 4.5" x 8"

9. WARRANTY AND SUPPORT

This product comes with a standard manufacturer's warranty. For specific warranty details, please refer to the product packaging or contact the retailer where the product was purchased. For technical support or customer service inquiries, please reach out to the manufacturer or seller through the contact information provided with your purchase.
