## 1. INTRODUCTION

The WALI PTT001-B Adjustable Computer Monitor Stand is designed to enhance your workspace by providing an ergonomic viewing position and improved organization. This stand is suitable for most flat screen displays, laptops, and printers, supporting a maximum weight of 44 lbs (20kg).

Key features include:

- **Ergonomic Design:** Raises your monitor or laptop to a comfortable viewing height, reducing strain on your neck and back.
- **Ventilated Platform:** Features a sturdy platform with vented holes to prevent device overheating and maintain optimal performance.
- **Enhanced Organization:** Creates additional storage space underneath the stand, helping to keep your desk clean and clutter-free.
- **Durable Construction:** Made from durable plastic with rubber pads to prevent slipping and protect your work surface.

## 2. SETUP INSTRUCTIONS

The WALI PTT001-B monitor stand is designed for quick and easy assembly. Follow these steps to set up your stand:

1. Unpack all components: You should find one main platform and four adjustable legs.
2. Locate the threaded holes on the underside of the main platform.
3. Take one adjustable leg and align its threaded end with one of the holes on the platform.
4. Gently screw the leg into the platform by turning it clockwise until it is securely fastened. Do not overtighten.
5. Repeat this process for the remaining three legs.
6. Ensure all four legs are firmly attached and the stand is stable before placing any devices on it.

## 3. OPERATION (HEIGHT ADJUSTMENT)

The WALI PTT001-B monitor stand features three adjustable height settings to customize your viewing experience. To adjust the height:

1. Identify the small silver button on each leg. This button controls the height adjustment mechanism.
2. Press the button on one leg firmly. While holding the button, slide the inner part of the leg up or down to your desired height. You will feel it click into place at one of the three predefined settings (4.5 inches, 5.3 inches, or 6.1 inches).
3. Release the button to lock the leg at the chosen height.
4. Repeat this process for all four legs, ensuring they are all set to the same height for stability.
5. Always ensure the stand is level and stable after adjusting the height before placing any equipment on it.

### 4. MAINTENANCE

To ensure the longevity and optimal performance of your WALI PTT001-B monitor stand, follow these simple maintenance guidelines:

- **Cleaning:** Wipe the stand regularly with a soft, damp cloth to remove dust and debris. Avoid using harsh chemicals or abrasive cleaners, as these may damage the finish.
- **Inspection:** Periodically check all leg connections to ensure they remain tight and secure. If any looseness is detected, re-tighten the legs by screwing them clockwise.
- **Weight Capacity:** Do not exceed the maximum weight capacity of 44 lbs (20kg) to prevent damage to the stand and potential injury.
- **Placement:** Place the stand on a flat, stable surface to ensure proper balance and prevent tipping.

### 5. TROUBLESHOOTING

If you encounter any issues with your WALI PTT001-B monitor stand, please refer to the following common troubleshooting tips:

- **Stand is Wobbly:**

- Ensure all four legs are screwed in tightly and are set to the same height.
- Verify that the surface on which the stand is placed is flat and stable.
- **Difficulty Adjusting Height:**
  - Make sure the adjustment button on each leg is fully depressed before attempting to slide the leg.
  - Check for any obstructions or debris within the leg mechanism.
- **Device Overheating:**
  - Ensure the vented holes on the platform are not blocked by your device or other objects to allow for proper airflow.

If these steps do not resolve your issue, please contact WALI customer support for further assistance.

## 6. SPECIFICATIONS

Feature	Detail
Model Number	PTT001-B
Material	Plastic
Color	Matte Black
Platform Dimensions	14.6 x 9.3 inches
Adjustable Heights	4.5 inches, 5.3 inches, 6.1 inches
Maximum Weight Capacity	44 lbs (20kg)
