Assembly Instructions

Follow these steps to assemble your Sweetcrispy computer desk. It is recommended to assemble the desk on a soft, clean surface to prevent scratches.

Step 1: Assemble the Metal Frame

1. Connect the vertical and horizontal metal frame components using the provided bolts and Allen wrench. Do not fully tighten the bolts until all parts are aligned.
2. Attach the X-shaped support brace to the rear of the frame. This reinforces the structure and enhances stability.

Step 2: Attach the Desktop

3. Carefully place the MDF desktop panels onto the assembled metal frame, aligning the pre-drilled holes.
4. Secure the desktop to the frame using the remaining bolts. Once all bolts are in place, tighten them firmly.

Step 3: Install Fabric Drawers

5. For each fabric drawer, unfold it and insert the base plate to create a sturdy bottom.
6. Slide the assembled fabric drawers into their designated slots within the metal frame.

Step 4: Adjust Leveling Feet

7. Turn the desk upright. If the desk wobbles, adjust the leveling feet at the bottom of each leg until the desk is stable on your floor surface.

Operating Instructions

Using the Storage Drawers

The desk is equipped with 8 fabric drawers designed for organizing documents, stationery, cosmetics, and tools. To use a drawer, simply pull the handle. Ensure items are evenly distributed and do not exceed the 22 lbs weight limit per drawer.

Adjusting Desk Stability

The adjustable leveling feet allow you to stabilize the desk on various floor types, including hardwood, carpet, tile, or uneven surfaces. Rotate each foot clockwise or counter-clockwise until the desk is level and stable.

Care and Maintenance

- **Cleaning:** Wipe the desk surfaces with a damp cloth, then dry with a clean, dry cloth. Avoid harsh chemicals or abrasive cleaners that may damage the finish.
- **Dusting:** Regularly dust the desk with a soft, dry cloth.
- **Protection:** Use coasters for drinks and placemats for hot items to protect the desktop from stains and heat damage.
- **Inspection:** Periodically check all bolts and connections to ensure they remain tight. Re-tighten if necessary.

Troubleshooting

Desk Wobbles

- Ensure all assembly bolts are fully tightened.
- Adjust the leveling feet on each leg until the desk is stable on the floor.

Drawers Not Sliding Smoothly

- Check that the fabric drawers are correctly assembled with the base plate fully inserted.
- Ensure the drawers are not overloaded, which can cause them to sag or stick.
- Verify that there are no obstructions in the drawer slots.
