Sojag Malta 10' x 12' Outdoor Gazebo Instruction Manual

Model: 500-9170856

1. INTRODUCTION

Thank you for choosing the Sojag Malta 10' x 12' Outdoor Gazebo. This manual provides essential information for the safe assembly, operation, maintenance, and care of your new gazebo. Please read all instructions carefully before beginning assembly and retain this manual for future reference.

Safety Information

Always follow assembly instructions carefully. Secure the gazebo to a stable foundation to prevent tipping. Keep children and pets away from the gazebo during assembly and disassembly. Do not use the gazebo in windy conditions or during severe weather. Disassemble or secure the gazebo during strong winds or heavy snow to prevent damage or injury. Regularly inspect all components for wear and tear.

2. SETUP AND ASSEMBLY

Assembly of the Sojag Malta Gazebo requires two or more adults. Ensure you have all parts listed in the packing list before starting. Follow the step-by-step instructions provided in the separate assembly guide included with your product. It is recommended to assemble the gazebo on a flat, level surface.

Anchoring

For stability and safety, the gazebo must be securely anchored to a solid surface. The aluminum posts feature pre-drilled column bases for easy anchoring. Use appropriate hardware (not included) for your specific foundation type (e.g., concrete, wood deck).

Figure 2.2: Detail of the gazebo's base plate, showing pre-drilled holes for anchoring.

3. OPERATING THE CURTAINS AND MOSQUITO NETTING

The Sojag Malta Gazebo features a practical two-pole system, allowing for simultaneous use of both the polyester privacy curtains and the nylon mosquito netting. This design provides flexibility for privacy, ventilation, and protection from insects.

Using the Two-Pole System

- **Privacy Curtains:** The outer track is designed for the polyester privacy curtains. These can be drawn closed for full privacy or tied back to the posts when not needed.
- **Mosquito Netting:** The inner track holds the nylon mosquito netting. This can be zipped closed to create an enclosed space, protecting against insects while allowing airflow, or tied back when not in use.
- Both sets of coverings can be operated independently or together, offering versatile protection.

Figure 3.2: Detailed view of the double-track system, showing how curtains and netting are attached.

4. MAINTENANCE AND CARE

Regular maintenance will extend the life and appearance of your Sojag Malta Gazebo.

Frame Care

The aluminum frame is powder-coated with AkzoNobel's Interpon technology for superior scratch and corrosion resistance. Clean the frame periodically with a mild soap and water solution. Rinse thoroughly and dry with a soft cloth. Avoid abrasive cleaners or harsh chemicals that could damage the finish.

Figure 4.1: The rustproof aluminum frame provides maximum protection from the elements.

Fabric Cover Care

The polyester roof and curtains are water-resistant and wrinkle-resistant. Clean fabric components with a mild soap and water solution. Do not machine wash or tumble dry. Allow fabric to air dry completely before storing to prevent mildew. Remove fabric components during strong winds or heavy snow to prevent damage.

DURABLE FABRIC COVER

provides protection
from the sun and rain

5. TROUBLESHOOTING

This section addresses common issues you might encounter with your gazebo.

- **Gazebo feels unstable:** Ensure all frame connections are tightened and the gazebo is securely anchored to the ground using appropriate hardware. Verify the ground surface is level.
- **Water pooling on the roof:** Check that the roof fabric is properly tensioned and installed according to the assembly instructions. Ensure no debris is accumulating on the roof.
- **Curtains/Netting not sliding smoothly:** Inspect the tracks for any obstructions or damage. Clean the tracks and ensure the curtain/netting hooks are properly seated.
- **Fabric damage:** Small tears can often be repaired with fabric repair kits. For significant damage, contact customer support for replacement parts.
- **Rust spots on frame:** While the frame is rustproof, prolonged exposure to harsh conditions can sometimes lead to

minor surface corrosion. Clean affected areas and apply a touch-up paint if necessary.

If you encounter issues not covered here, please refer to the support section for assistance.

6. SPECIFICATIONS

Feature	Detail
Model Number	500-9170856
Product Dimensions (L x W x H)	3.05L x 3.7W x 2.71H Meters (10' x 12' x 8.9')
Frame Material	Aluminum
Roof Material	Polyester Fabric
Curtain Material	Polyester Fabric
Mosquito Netting Material	Nylon
Color	Grey
Water Resistance Level	Water Resistant
Assembly Required	Yes
Manufacturer	ShelterLogic
