

WARCAT W25-1034-1119

WARCAT Automatic Self-Cleaning Litter Box

Model: W25-1034-1119

1. INTRODUCTION

This manual provides instructions for the WARCAT Automatic Self-Cleaning Litter Box, Model W25-1034-1119. This device is designed to automate the litter cleaning process, offering convenience and maintaining a clean environment for your cat. Please read this manual thoroughly before operation to ensure proper use and maintenance.

2. SAFETY INFORMATION

The WARCAT Automatic Self-Cleaning Litter Box is equipped with advanced safety sensors. These sensors detect the presence of your cat and will automatically pause any cleaning cycle in progress to prevent injury. The cleaning cycle will resume only after your cat has exited the unit. Ensure the sensors are kept clean and unobstructed for optimal performance. This device is intended for indoor use only.

Important Safety Precautions:

- Do not allow children to play with or operate the litter box.
- Ensure the power cord is not damaged and is placed where it cannot be tripped over or chewed by pets.
- Do not immerse the main unit in water or other liquids.
- Use only clumping cat litter as specified in this manual.
- Regularly inspect the unit for any signs of damage or malfunction.

3. PACKAGE CONTENTS

Verify that all items are present in the package:

- 1 x WARCAT Automatic Self-Cleaning Litter Box (Main Unit)
- 1 x Power Adapter
- 1 x Roll of Garbage Bags
- 1 x User Manual (This Document)

4. PRODUCT COMPONENTS

The WARCAT Automatic Self-Cleaning Litter Box consists of the following main components:

- **Main Drum:** The rotating interior where litter is held and cleaning occurs. Capacity: 76 liters.
- **Waste Bin:** Located beneath the main drum, collects clumped waste. Capacity: 13 liters, holds up to 9 days of waste for one cat.
- **Control Panel:** Features buttons and indicators for manual operation and status.
- **Safety Sensors:** Detect cat presence to ensure safe operation.
- **Litter Inlet:** Top-fill design for easy litter addition.

Image: Overview of the WARCAT Automatic Self-Cleaning Litter Box, highlighting its large capacity (76L drum, 13L waste bin) and dimensions (21.6in width, 26in height, 19.6in depth, 16.1in base width, 11.2in waste bin width, 6.3in waste bin height). Suitable for cats weighing 3.3-27.5 lbs.

5. SETUP INSTRUCTIONS

1. **Placement:** Place the litter box on a firm, level surface indoors. Ensure there is adequate space around the unit for proper ventilation and access.
2. **Install Waste Bag:** Open the waste bin drawer located at the bottom front of the unit. Line the waste bin with one of the provided garbage bags, ensuring the bag is securely fitted. Close the drawer.
3. **Add Litter:** Open the top lid of the main drum. Pour clumping cat litter into the drum. The unit is compatible with various clumping litter types, including Bentonite, Mixed, and Mineral litters. Fill the litter to the indicated maximum fill line inside the drum. Do not overfill.

4. **Connect Power:** Plug the power adapter into the designated port on the back of the litter box, then plug the adapter into a standard electrical outlet. The unit will power on, and the control panel indicators will illuminate.
5. **Initial Calibration:** The unit may perform an initial calibration cycle upon first power-on. Allow it to complete this process without interruption.

6. OPERATING INSTRUCTIONS

6.1 Basic Operation

The WARCAT litter box operates in both automatic and manual cleaning modes.

- **Automatic Cleaning:** After your cat uses the litter box and exits, the unit will automatically initiate a cleaning cycle after a preset delay (default is typically a few minutes). The drum will rotate, sifting clean litter and depositing clumped waste into the waste bin.
- **Manual Cleaning:** To initiate a cleaning cycle manually, press the designated clean button on the control panel. The unit will perform a full cleaning cycle.
- **Pause/Stop:** During a cleaning cycle, if a cat enters the unit, the safety sensors will pause the operation. You can also press the clean button again to pause or stop a cycle.

6.2 Smart APP Control

The WARCAT litter box can be controlled and monitored via the Tuya Smart App. This feature requires a 2.4G WiFi connection.

1. **Download App:** Download the Tuya Smart App from your mobile device's app store.
2. **Pair Device:** Follow the in-app instructions to pair your WARCAT litter box with your smartphone. Ensure your phone is connected to a 2.4G WiFi network during the pairing process.
3. **App Features:** Once connected, the app allows you to:
 - Schedule automatic cleaning times.
 - Activate one-touch waste disposal.

- Monitor litter usage.
- Track your cat's health patterns (e.g., frequency of use).
- Receive alerts when the waste bin is full or if other attention is required.
- Adjust the built-in ambient lighting (6 colors, adjustable brightness).

7. MAINTENANCE

Regular maintenance ensures the longevity and hygienic operation of your WARCAT litter box.

- **Emptying the Waste Bin:** When the waste bin full indicator illuminates (or via app notification), open the waste bin drawer, tie off the full garbage bag, and dispose of it. Replace with a new garbage bag. The 13L waste bin can hold up to 9 days of waste for a single cat.
- **Cleaning the Unit:** The unit features a leak-proof and odor-trapping design. For thorough cleaning, power off and unplug the unit. Remove the main drum and waste bin. Clean all surfaces with a mild, pet-safe detergent and water. Ensure all parts are completely dry before reassembling and powering on. Do not use abrasive cleaners.
- **Sensor Cleaning:** Periodically wipe the safety sensors with a soft, dry cloth to ensure they remain free of dust or debris, which could affect their functionality.

8. TROUBLESHOOTING

If you encounter issues with your WARCAT Automatic Self-Cleaning Litter Box, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Unit does not power on.	Power cord not connected; Power outlet malfunction.	Ensure power cord is securely plugged into the unit and a working outlet.
Cleaning cycle does not start automatically.	Safety sensors obstructed or dirty; Cat still inside unit; App settings.	Clean sensors. Ensure cat has fully exited. Check app settings for cleaning schedule.
Litter is being deposited into the waste bin prematurely or excessively.	Litter type incompatible; Litter level too high; Unit not level.	Ensure only clumping litter is used. Do not overfill litter past the max line. Verify the unit is on a level surface.
App cannot connect to the litter box.	Incorrect WiFi band; Poor WiFi signal; Pairing issue.	Ensure your router is broadcasting a 2.4G WiFi signal. Move unit closer to router. Re-attempt pairing process in the app.
Odor persists despite cleaning.	Waste bin full; Unit requires thorough cleaning; Poor quality litter.	Empty waste bin. Perform a full cleaning of the unit and drum. Consider using a higher quality clumping litter.

If the problem persists after attempting these solutions, please contact customer support.

9. SPECIFICATIONS

Feature	Detail
Model Number	W25-1034-1119
Dimensions (L x W x H)	22.64" x 21.06" x 20.47"
Item Weight	31 Pounds
Main Drum Capacity	76 Liters
Waste Bin Capacity	13 Liters (up to 9 days for one cat)
Compatible Cat Weight	3.3 to 27.5 lbs
Noise Level	Approximately 35dB
Material	Plastic
Connectivity	2.4G WiFi for Smart App Control
Litter Type Compatibility	Clumping litter (Bentonite, Mixed, Mineral)

10. WARRANTY AND SUPPORT

Warranty: The WARCAT Automatic Self-Cleaning Litter Box, Model W25-1034-1119, comes with a 1-year limited warranty from the date of purchase. This warranty covers manufacturing defects and malfunctions under normal use. It does not cover damage caused by misuse, accidents, unauthorized modifications, or improper maintenance.

Customer Support: For technical assistance, warranty claims, or any questions regarding your WARCAT product, please contact our customer support team. Refer to the contact information provided on the WARCAT official website or your purchase documentation.
