2. SAFETY INFORMATION

Always follow these safety guidelines to prevent injury and damage to the product.

- **Assembly Precautions:** Always follow the assembly instructions carefully to avoid injury. Be cautious of sharp edges during assembly and use.
- **Wall Mounting:** Ensure the wall material is suitable for mounting and can support the weight of the nightstands and their contents. Use appropriate hardware for your wall type (e.g., studs, drywall anchors). If unsure, consult a qualified professional.
- **Weight Capacity:** Do not overload the nightstands or drawers. Exceeding the recommended weight capacity may cause the unit to detach from the wall or collapse.
- **Stability:** Ensure the nightstands are securely mounted to the wall before placing items on them or using the drawers.
- **Children and Pets:** Keep small parts and assembly hardware away from children and pets to prevent choking hazards.
- **Placement:** Avoid placing the nightstands in areas with high humidity or direct sunlight, which can damage the material.

3. PACKAGE CONTENTS

Before assembly, verify that all components are present and undamaged. If any parts are missing or damaged, please contact customer support.

5. ASSEMBLY INSTRUCTIONS

Assembly is required for these floating nightstands. Please follow these steps carefully.

- 1. Unpack Components:** Carefully remove all parts from the packaging. Lay them out on a clean, soft surface to prevent scratches.

2. **Assemble Drawer:** Follow the specific instructions provided in the included assembly guide to construct the drawer unit. Ensure all slides are correctly aligned and secured.
3. **Prepare Wall for Mounting:** Identify the desired location on your wall. Use a stud finder to locate wall studs for secure mounting, if possible. Mark the drilling points according to the nightstand's mounting bracket.
4. **Drill Pilot Holes:** Drill pilot holes at the marked locations. Ensure the drill bit size matches the recommended size for your wall anchors/screws.
5. **Attach Mounting Bracket:** Securely attach the nightstand's mounting bracket to the wall using the provided screws and anchors. Ensure it is level.
6. **Mount Nightstand:** Carefully align the nightstand with the wall-mounted bracket and slide it into place until it is securely fastened.
7. **Insert Drawer:** Once the nightstand is securely mounted, insert the assembled drawer into its compartment.
8. **Repeat for Second Unit:** Follow the same steps to assemble and mount the second floating nightstand.

Note: The assembly process involves attaching the unit to the wall using screws and assembling the drawer. Always ensure the wall is capable of supporting the weight.

6. OPERATING INSTRUCTIONS

The HOMCOM Floating Nightstands are designed for convenient bedside storage and display.

- **Top Surface Usage:** Use the top surface to place items such as lamps, alarm clocks, books, or a glass of water. Ensure items are placed stably to prevent them from falling.
- **Drawer Functionality:** The integrated drawer provides concealed storage for personal items, keeping your bedside area tidy. Gently pull the drawer open and push it closed. Avoid forcing the drawer.
- **Space Saving Design:** The floating design frees up floor space, making your bedroom feel more open and facilitating easier cleaning underneath the nightstands.

7. MAINTENANCE

Proper care will ensure the longevity and appearance of your nightstands.

- **Cleaning:** Wipe with a dry cloth. For stubborn marks, use a slightly damp cloth with mild soap, then dry immediately. Avoid abrasive cleaners or harsh chemicals.
- **Dusting:** Regularly dust the surfaces to prevent buildup.
- **Inspection:** Periodically check the wall mounting screws and drawer slides to ensure they remain tight and secure. Tighten any loose fasteners as needed.
- **Avoid Moisture:** Do not allow liquids to sit on the surface for extended periods, as this can cause damage to the engineered wood.

8. TROUBLESHOOTING

If you encounter any issues with your HOMCOM Floating Nightstands, refer to the following common solutions:

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Nightstand feels wobbly after mounting.	Mounting screws are loose or not properly secured to the wall.	Ensure all mounting screws are tightened. Verify that appropriate wall anchors were used for your wall type. If necessary, re-mount using stronger anchors or by securing into wall studs.
Drawer does not slide smoothly.	Drawer slides are misaligned or dirty.	Remove the drawer and check for any obstructions on the slides. Clean the slides with a dry cloth. Ensure the drawer is inserted correctly and the slides are aligned.
Scratches or minor surface damage.	Accidental impact or abrasive cleaning.	For minor scratches, a furniture repair marker or polish matching the black finish may help. Avoid abrasive materials for cleaning.
