2. SETUP

2.1. Package Contents

Verify that your package contains the following items:

- DOOGEE Note56 Smartphone
- Power Adapter
- USB Cable
- SIM Ejector Tool
- Protective Case
- Quick Start Guide (this manual)

2.2. SIM Card and TF Card Installation

The DOOGEE Note56 supports dual SIM cards and a TF (microSD) card for expandable storage.

1. Locate the SIM card tray on the side of the device.
2. Insert the SIM ejector tool into the small hole next to the tray and press gently until the tray pops out.
3. Place your Nano-SIM cards and/or TF card into the designated slots on the tray. Ensure the gold contacts face downwards.
4. Carefully reinsert the tray into the phone until it clicks into place.

2.3. Initial Power On and Basic Configuration

1. Press and hold the Power button until the DOOGEE logo appears.
2. Follow the on-screen prompts to select your language, connect to a Wi-Fi network, and set up your Google account.
3. Configure security settings such as screen lock (PIN, pattern, password) and face recognition.

2.4. Charging the Device

Connect the USB cable to the power adapter and then to the phone's charging port. Plug the adapter into a power outlet. The battery indicator will show charging status. For optimal battery life, use the provided charger.

3. OPERATING INSTRUCTIONS

3.1. Android 16 Operating System

The DOOGEE Note56 runs on the latest Android 16 system, offering an optimized and intuitive user experience. It features improved application launch speeds, enhanced responsiveness, and a refined user interface. A new Privacy Space function allows for hiding sensitive data and applications, ensuring secure usage.

4.2. Cleaning and Care

- Use a soft, lint-free cloth to clean the screen and body of the device.
- Avoid using harsh chemicals or abrasive materials.
- Keep the device away from excessive dust and moisture.

4.3. Software Updates

Regularly check for and install software updates to ensure your device has the latest features, security patches, and performance improvements. You can usually find this option in the device's settings under

'System' or 'About phone'.

5. TROUBLESHOOTING

If you encounter issues with your DOOGEE Note56, refer to the following common troubleshooting steps:

- **Device not turning on:** Ensure the battery is charged. Press and hold the Power button for at least 10-15 seconds to force a restart.
- **Apps crashing or freezing:** Close and reopen the app. Clear the app's cache and data in Settings > Apps. If the issue persists, uninstall and reinstall the app.
- **Network connectivity issues:** Check if Airplane Mode is off. Restart the device. Verify your SIM card is correctly inserted and your mobile data plan is active. For Wi-Fi, try forgetting the network and reconnecting.
- **Charging problems:** Ensure the charging cable and adapter are securely connected and undamaged. Try a different outlet or charger. Clean the charging port gently.
- **Slow performance:** Close unnecessary background apps. Clear cache regularly. Consider freeing up storage space.

For more complex issues, please refer to the support section.
