Divoom 90100058265

Divoom D-base 30W Desktop Bluetooth Gaming Speaker User Manual

Model: 90100058265

1. Introduction

Welcome to the Divoom D-base 30W Desktop Bluetooth Gaming Speaker user manual. This speaker is designed to provide an immersive audio experience for both gaming enthusiasts and music lovers, featuring RGB lighting, a sleek design, and superior sound performance. This manual will guide you through the setup, operation, and maintenance of your Divoom D-base speaker.

What's in the Box

Image: Divoom D-base speaker and its included accessories neatly packed in the box.

- Divoom D-base Desktop Bluetooth Gaming Speaker
- Power Cable
- USB to Type-C Cable
- AUX Audio Cable
- User Manual (this document)

2. Product Features

2.1. 360° Surround Sound Experience

Image: An exploded view of the Divoom D-base speaker, highlighting its 2.2 stereo design with dual 28mm tweeters and dual bass drivers, contributing to 360° surround sound.

The D-base speaker delivers 30W of output power with 2.2 stereo sound. It features dual 28mm silk-dome tweeters and dual bass drivers, providing a powerful audio output. This configuration offers a 360° surround sound experience, immersing you in your games or music.

2.2. 7D Spatial Audio

Image: The Divoom D-base speaker emitting vibrant sound waves, illustrating its E-sport sound wave technology for an immersive audio experience.

Equipped with a professional 24-bit DSP chip, the speaker analyzes game audio in real-time to deliver 7D spatial sound effects. This ensures that every sound, such as explosions, footsteps, or collisions, is transmitted flawlessly, giving you a strategic advantage in games.

2.3. Gaming Mode & RGB Lighting

Image: The Divoom D-base speaker displaying dynamic RGB lighting, with a smartphone showing the Divoom app interface for light customization, enhancing the gaming atmosphere.

The D-base features a dedicated 'Gaming Mode' that emphasizes deep bass and clear trebles. You can enrich your gaming environment with 15 different RGB lighting modes. The light colors and effects can also be synchronized with the rhythm of your music using the Divoom application.

2.4. Advanced Microphone for Clear Communication

Image: A gamer communicating clearly with teammates, enabled by the Divoom D-base speaker's dual noise-cancelling microphones, which filter out keyboard and fan sounds.

The speaker's advanced dual noise-cancelling microphones filter out unwanted sounds like keyboard clicks and fan noise, ensuring cleaner, uninterrupted, and clearer voice transmission. This feature provides a strategic advantage, especially in online gaming.

2.5. Fast Charging with Dual Type-C Ports

Image: The Divoom D-base speaker with two smartphones connected to its dual Type-C ports, demonstrating its 35W fast charging capability for multiple devices simultaneously.

The D-base speaker offers 35W fast charging support via its dual Type-C ports. This allows you to charge two devices, such as phones, headphones, or tablets, simultaneously through the speaker. You can continue listening to music or playing games while your devices charge.

2.6. Sleek and Compact Design

Image: Two Divoom D-base speakers, one in black and one in pink, showcasing the available color options and their sleek design on a desktop setup.

Despite its powerful sound output, the D-base speaker features a modern and compact design that occupies minimal desk space. Its slim profile (74.43 mm) allows it to be easily placed under your monitor. Available in different color options, you can choose one that matches your style.

2.7. Triple Connectivity Options

With support for Bluetooth 6.0, USB, and AUX, the D-base can connect to almost any device. It provides a seamless music experience from computers, phones, tablets, or other devices. Please note that this speaker does not have a built-in battery and operates directly from an electrical connection.

3. Setup

3.1. Unpacking

Carefully remove the speaker and all accessories from the packaging. Retain the packaging for future storage or

potential returns.

3.2. Power Connection

Image: The Divoom D-base speaker with its power cable connected, illustrating its plug-and-play functionality for continuous performance.

Connect the provided power cable to the speaker and then to a wall outlet. The D-base speaker operates directly from an electrical connection and does not contain an internal battery.

3.3. Placement

Place the speaker on a stable, flat surface. Its slim design allows it to be easily positioned under most monitors for optimal sound projection and to save desk space.

4. Operating Instructions

4.1. Powering On/Off

Locate the power button/switch on the speaker. Press and hold (or toggle) to turn the speaker on or off. An indicator light will confirm the power status.

4.2. Bluetooth Pairing

1. Ensure the speaker is powered on.
2. Activate Bluetooth on your source device (e.g., smartphone, tablet, computer).
3. Search for available Bluetooth devices and select "Divoom D-base" from the list.
4. A confirmation sound will indicate successful pairing.

4.3. USB/AUX Connection

- **USB Connection:** Connect your device to the speaker using the provided USB to Type-C cable. The speaker will automatically detect the USB audio input.
- **AUX Connection:** Use the provided AUX audio cable to connect your device's audio output to the speaker's AUX input port.

4.4. Adjusting RGB Lighting

The speaker offers 15 different RGB lighting modes. Use the dedicated control button on the speaker to cycle through these modes. For more advanced customization, including synchronizing lights with music, download and use the official Divoom application on your smartphone.

4.5. Activating Gaming Mode

Press the 'Gaming Mode' button (if available, or refer to the Divoom app) to activate the specialized audio profile. This mode enhances deep bass and sharp trebles, optimizing the sound for gaming scenarios.

4.6. Using the Charging Ports

The D-base speaker features dual Type-C ports that support 35W fast charging. Connect your compatible devices (e.g., phone, headphones, tablet) to these ports to charge them. You can charge up to two devices simultaneously while the speaker is in use.

5. Maintenance

- **Cleaning:** Use a soft, dry, lint-free cloth to clean the surface of the speaker. Avoid using liquid cleaners, aerosols, or solvents, as these may damage the finish or internal components.
- **Storage:** When not in use for extended periods, store the speaker in a cool, dry place, away from direct sunlight and extreme temperatures.
- **Handling:** Avoid dropping the speaker or subjecting it to strong impacts, which can cause internal damage.

6. Troubleshooting

6.1. No Sound

- Ensure the speaker is properly connected to a power source and turned on.
- Check the volume levels on both the speaker and your connected audio source device.
- Verify that the correct input source (Bluetooth, USB, or AUX) is selected on the speaker.
- If using Bluetooth, try re-pairing your device.

6.2. Bluetooth Connection Issues

- Make sure the speaker is in Bluetooth pairing mode.
- Ensure your device is within the transmission distance (up to 10 meters) of the speaker.
- Clear previous Bluetooth connections from your device's Bluetooth settings and try pairing again.
- Restart both the speaker and your source device.

6.3. RGB Lights Not Working

- Confirm the speaker is powered on.
- Check if the RGB lighting feature is enabled via the speaker's controls or the Divoom application.
- If using the Divoom app, verify the lighting settings within the application.

6.4. Charging Issues (for external devices)

- Ensure the D-base speaker is powered on.
- Check the Type-C cables and ensure they are securely connected to both the speaker and the device being charged.
- Verify that the device you are trying to charge is compatible with 35W fast charging.

7. Specifications

Feature	Detail
