## 5. OPERATING INSTRUCTIONS

### Getting Started:

1. Sit on the comfortable seat cushion and secure your feet in the adjustable foot pedals.
2. Grasp the ergonomic handle with both hands.
3. Adjust the magnetic resistance level using the tension control knob located on the main unit. Choose from 1 to 16 levels to match your desired intensity.
4. Turn on the performance monitor to track your workout metrics.

### Performing a Row:

- Start in the catch position: knees bent, arms extended forward, back straight.
- Push off with your legs, driving the seat backward.
- As your legs extend, lean back slightly and pull the handle towards your abdomen.
- Return to the starting position by extending your arms, leaning forward, and bending your knees.
- Maintain a smooth, controlled motion throughout the exercise.

### Using the Performance Monitor & Apps:

- The monitor displays time, stroke count, and calories burned.
- Connect via Bluetooth to Kinomap or ZT apps for advanced tracking, interactive courses, and real-time progress.
- Place your tablet or smartphone in the integrated holder for easy viewing during your workout.

## 6. MAINTENANCE

Regular maintenance ensures the longevity and optimal performance of your rowing machine.

- **Cleaning:** Wipe down the frame and seat with a damp cloth after each use to remove sweat and dust. Avoid abrasive cleaners.
- **Lubrication:** Periodically check the slide rail for smooth operation. If needed, apply a small amount of silicone-based lubricant (not included) to the rail.
- **Inspections:** Regularly check all bolts, nuts, and moving parts for tightness and wear. Tighten any loose fasteners.
- **Storage:** When not in use, the machine can be folded and stored upright or under a bed to save space.

## 7. TROUBLESHOOTING

If you encounter any issues with your EYESUN Magnetic Rowing Machine, refer to the following common solutions:

- **No Display on Monitor:** Check if the AAA batteries are correctly installed and have sufficient charge. Replace if necessary.
- **Inconsistent Resistance:** Ensure the tension control knob is properly engaged and adjusted. Verify no obstructions are interfering with the magnetic flywheel.
- **Squeaking/Noise:** Check all bolted connections for tightness. Lubricate the slide rail if friction is detected.
- **App Connectivity Issues:** Ensure Bluetooth is enabled on your device and the rowing machine. Restart both devices and try reconnecting.
