AnseTo YZD02

AnseTo WiFi Sprinkler Timer 2 Zone Instruction Manual

Model: YZD02

INTRODUCTION

This manual provides detailed instructions for the installation, operation, and maintenance of your AnseTo WiFi Sprinkler Timer 2 Zone. This smart water timer allows for remote control of your irrigation system via a mobile application, offering convenience and efficient water management for your garden, lawn, and patio plants.

The device features a durable brass inlet and supports dual watering zones, voice control, and customizable rain delay functions. Please read this manual thoroughly before use to ensure proper setup and optimal performance.

PACKAGE CONTENTS

Verify that all components are present in the package:

- AnseTo WiFi Sprinkler Timer (YZD02)
- WiFi Gateway
- User Manual
- Other accessories (e.g., batteries, adapters if included)

SETUP

Follow these steps to set up your AnseTo WiFi Sprinkler Timer:

1. Install Batteries

Open the battery compartment on the sprinkler timer and insert the required batteries (typically AA or AAA, refer to the device for specifics). Ensure correct polarity.

2. Connect to Faucet

Attach the sprinkler timer to your outdoor hose faucet. The device features an enhanced brass inlet for a secure and durable connection. Ensure the connection is tight to prevent leaks.

3. Install the Smart Life App and Connect Gateway

1. Download the "Smart Life" app from your mobile device's app store (iOS or Android).
2. Plug in the WiFi Gateway to a power outlet within range of your home's 2.4GHz WiFi network.
3. Open the Smart Life app and follow the on-screen instructions to add the WiFi Gateway. Ensure your mobile phone's WiFi and Bluetooth are enabled during this process.
4. Once the gateway is connected, associate the AnseTo Sprinkler Timer with the gateway through the app.

For a visual guide, scan the QR code provided in the product packaging or manual to watch the instructional video.

OPERATING INSTRUCTIONS

1. Remote Control via App

Once the timer is connected to the Smart Life app via the gateway, you can control your irrigation system from anywhere. To operate outside your home network, ensure your mobile phone's WiFi and Bluetooth are off, and use 4G/5G mobile data.

2. Dual Watering Modes

The timer supports two primary watering modes:

- **Automatic Watering:** Program specific watering schedules (start time, duration, frequency) for each zone.
- **Manual Mode:** Initiate watering instantly for a specified duration without affecting your pre-set automatic schedules.

2 Watering Schedule Setting Types

Cyclical Irrigation

Timed Irrigation

Image: Illustration of the dual-zone capability, showing independent programming for Zone A and Zone B.

3. Voice-Activated Control

The AnseTo Sprinkler Timer is compatible with Amazon Alexa and Google Assistant. Use simple voice commands to start or stop watering. For example, "Alexa, open the Smart Dual Water Timer" or "Hey Google, start watering Zone A."

Voice Control Watering

Alex, open the Smart
Dual Water Timer

OK

4. Customizable Rain Delay

Activate the rain delay function through the Smart Life app to pause watering for 24, 48, or 72 hours based on local weather conditions or your preference. The irrigation system will automatically resume after the selected delay period, helping to conserve water.

MAINTENANCE

Regular maintenance ensures the longevity and optimal performance of your sprinkler timer:

- **Filter Cleaning:** Periodically check and clean the metal filter located in the brass inlet to prevent debris from clogging the system.
- **Battery Replacement:** Replace batteries when the app indicates low battery status or if the device shows signs of power loss.
- **Winterization:** Before freezing temperatures, disconnect the timer from the faucet, remove batteries, and store the device indoors in a dry, protected area to prevent frost damage.
- **General Cleaning:** Wipe the exterior of the timer with a damp cloth to remove dirt and grime. Do not submerge the device in water.

TROUBLESHOOTING

If you encounter issues with your AnseTo WiFi Sprinkler Timer, refer to the following common solutions:

Problem	Possible Cause	Solution
Timer not connecting to app/WiFi.	Incorrect WiFi network (not 2.4GHz), gateway out of range, phone's Bluetooth/WiFi off during setup, incorrect pairing steps.	Ensure your router is broadcasting a 2.4GHz network. Move the gateway closer to the router. Verify phone's WiFi and Bluetooth are active during initial pairing. Re-attempt pairing process as per manual/video.
Water not flowing or low pressure.	Clogged filter, low water pressure from faucet, timer valve stuck, dead batteries.	Clean the metal filter in the inlet. Check your faucet's water pressure. Replace batteries. If the issue persists, contact support.
Scheduled watering not activating.	Incorrect schedule settings, low/dead batteries, timer disconnected from gateway/WiFi, rain delay active.	Review your watering schedules in the app. Check battery status. Verify timer's connection status in the app. Check if rain delay is active.
Voice control not working.	Incorrect voice command, timer not linked to Alexa/Google Assistant, internet connectivity issues.	Ensure correct voice commands are used. Verify the timer is properly linked in your Alexa/Google Home app. Check internet connection.

SPECIFICATIONS

- **Model Number:** YZD02
- **Brand:** AnseTo
- **Material:** Brass (inlet)
- **Product Dimensions:** 5.9"D x 4.5"W x 2"H
- **Number of Zones:** 2
- **Smart Home Compatibility:** Smart Life App, Amazon Alexa, Google Assistant
- **Connectivity:** 2.4GHz WiFi (via Gateway)
- **Water Resistance:** IPX5 (implied from image)
- **Manufacturer:** Dongguan E-Chief Electronic Technologies Co., Ltd.
