4.1 Before You Begin

- Unpack all components and lay them out on a soft, clean surface to prevent scratches.

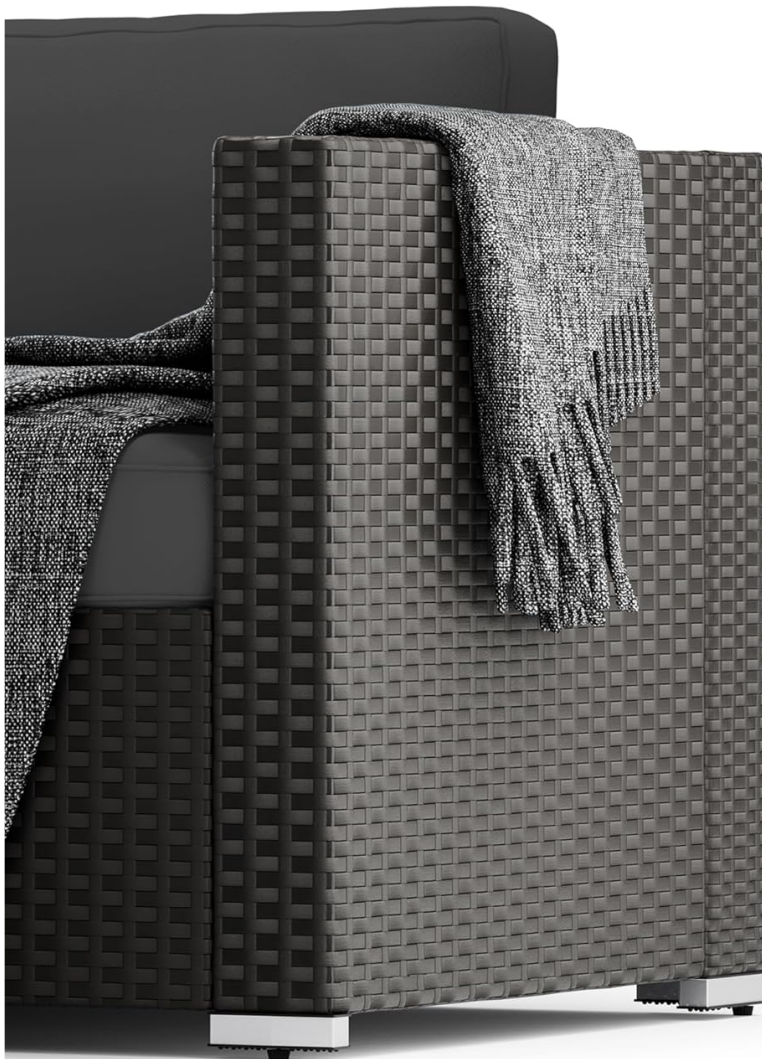

- Verify that all parts and hardware are present according to the packing list.
- Do not fully tighten screws until all components are loosely assembled.

4.2 Assembly Steps

5.2 Cushion Use

The 3.5-inch thick padded cushions provide comfort. While the cushion covers are UV-protected and waterproof (not rain-proof), it is recommended to bring them indoors during heavy rain or prolonged periods of non-use to extend their lifespan.

6. MAINTENANCE

6.1 Cleaning the Wicker and Frame

- Wipe down the black resin wicker and powder-coated steel frame with a soft cloth dampened with mild soap and water.
- Rinse thoroughly with clean water and dry completely to prevent water spots or residue buildup.
- Avoid using harsh chemicals, abrasive cleaners, or stiff brushes, as these can damage the finish.

6.2 Cleaning Cushions

- The cushion covers are machine washable. Remove the covers using the zippers and wash them in cold

water on a gentle cycle with mild detergent.

- Air dry the covers completely before reattaching them to the cushions. Do not tumble dry.
- For spot cleaning, use a soft cloth with mild soap and water, then rinse and air dry.

6.3 Glass Table Top Care

- Clean the tempered glass top with a glass cleaner and a soft, lint-free cloth.
- Avoid dragging rough or heavy objects across the glass surface to prevent scratches.

6.4 Storage

During off-seasons or extended periods of non-use, it is recommended to store the furniture in a dry, covered area. If outdoor storage is necessary, use a waterproof furniture cover to protect it from the elements.

7. TROUBLESHOOTING

7.1 Furniture Wobbles

If the furniture feels unstable or wobbles, adjust the foot pads located at the bottom of each unit. Turn them clockwise or counter-clockwise until the unit is stable on the ground.

7.2 Difficulty Assembling

Ensure all parts are correctly oriented as shown in the assembly diagrams. Do not overtighten screws until all components are in place. If a part seems difficult to fit, double-check the instructions and part numbers. Contact customer support if you believe a part is defective or missing.

7.3 Cushions Appear Flat

The cushions are filled with high-density cotton. Over time, they may compress. Fluffing them regularly can help maintain their shape and comfort. Ensure they are completely dry after cleaning to prevent mildew, which can affect their structure.
