# MOFII Wireless Keyboard and Mouse Combo Instruction Manual

Model: B0G3PL9CJS

## 1. INTRODUCTION

Thank you for choosing the MOFII Wireless Keyboard and Mouse Combo. This full-size 2.4G plug-and-play set features a typewriter retro round key design, enhancing both aesthetics and functionality for your Windows PC, desktop, laptop, or notebook. This manual provides detailed instructions for setup, operation, maintenance, and troubleshooting to ensure optimal performance and longevity of your device.

## 2. PACKAGE CONTENTS

- MOFII Wireless Keyboard
- MOFII Wireless Mouse
- USB Nano Receiver (stored inside the mouse)
- User Manual

## 3. SETUP INSTRUCTIONS

### 3.1. Battery Installation

Both the keyboard and mouse require 1 AA battery each (not included). To install:

1. Locate the battery compartment on the underside of the keyboard and mouse.
2. Open the compartment cover.
3. Insert one AA battery into each device, ensuring correct polarity (+/-).
4. Close the battery compartment cover securely.

### 3.2. Connecting the Wireless Combo

The keyboard and mouse connect via a single 2.4G USB nano receiver.

1. Locate the USB nano receiver, which is typically stored in a small slot on the underside of the mouse.
2. Plug the USB nano receiver into an available USB port on your computer (PC, desktop, laptop, or notebook).
3. The system should automatically detect and install the necessary drivers. This is a plug-and-play device, so no additional software installation is usually required.
4. Turn on the keyboard and mouse (if they have a power switch). The mouse may activate by clicking its buttons.

## 4. OPERATING INSTRUCTIONS

### 4.1. Keyboard Usage

The full-size keyboard features a standard QWERTY layout with a dedicated number pad. The retro round keycaps provide a comfortable typing experience.

- **Ergonomic Design:** The keyboard includes a folding holder and anti-slide pads on the underside. Adjust these stands to achieve an optimal typing angle, which helps reduce wrist strain during extended use.

- **Multimedia Keys:** Utilize the function keys (F1-F12) in combination with the 'Fn' key for quick access to multimedia controls and other system functions.

## 4.2. Mouse Usage

The contoured mouse is designed for comfortable use over long periods. It features standard left/right click buttons and a scroll wheel.

## 4.3. Auto-Sleep Feature

To conserve battery life, both the keyboard and mouse are equipped with an intelligent auto-sleep function. After 8-10 minutes of inactivity, the devices will automatically enter sleep mode. To wake them up, simply press any key on the keyboard or click a mouse button.

## Intelligent Auto-Sleep

Enter sleeping automatically while not using, save battery life and reduce battery replacement

## 5. MAINTENANCE

### 5.1. Cleaning

The keyboard features detachable keycaps, making cleaning convenient.

1. Gently remove the keycaps. A keycap puller (if included) or a small tool can assist.
2. Use a soft brush (a cleaning brush may be included) or compressed air to remove dust and debris from beneath the keycaps and from the keyboard surface.
3. Wipe the keycaps and the keyboard surface with a soft, damp cloth. Ensure no moisture enters the internal components.
4. Allow all parts to dry completely before reattaching the keycaps.

# Detachable Keycaps

Include a brush to deep clean for the keyboard

## 5.2. Battery Replacement

When the devices stop responding or exhibit intermittent connectivity, it may be time to replace the batteries. The estimated battery life is up to 18 months, but this can vary based on usage.

1. Open the battery compartment on the underside of the keyboard and mouse.
2. Remove the old AA battery.
3. Insert a new AA battery, observing correct polarity.
4. Close the compartment cover.

## 6. TROUBLESHOOTING

- **No Response:** Ensure batteries are correctly installed and charged. Check that the USB nano receiver is securely plugged into your computer.
- **Intermittent Connection:** Move the keyboard and mouse closer to the USB receiver. Ensure there are no large metal objects or other wireless devices interfering with the 2.4G signal. Replace batteries if they are low.
- **Keys Not Working:** If specific keys are not responding, try removing and re-inserting the keycap to

ensure it is properly seated. Clean any debris around the key switch.

- **Mouse Cursor Jumps or is Erratic:** Ensure the mouse sensor is clean and free of obstructions. Use the mouse on a suitable surface (a mouse pad is recommended).

## 7. SPECIFICATIONS
