OPERATION

LED Lighting System:

The bed frame features integrated RGB LED strips that can be controlled via a dedicated app, remote control, or a physical switch. These controls allow you to adjust colors, lighting modes, and brightness to create various ambient effects.

- **Control Methods:** App, Remote Control, Physical Switch.
- **Adjustable Settings:** Over 29 colors, adjustable brightness, music mode, microphone mode, timer function.

Integrated Power Strip:

The bed frame includes a removable power strip for convenient charging of electronic devices. It features:

- 2 x AC Outlets
- 1 x USB-C Port
- 1 x Front USB-A Port
- 1 x Rear USB-A Port

MAINTENANCE

- **Cleaning:** Wipe the metal frame with a soft, damp cloth. Avoid abrasive cleaners.
- **LED Strips:** Ensure the LED strips are securely attached. If the adhesive weakens, re-secure them using appropriate methods (e.g., additional adhesive or clips).
- **Power Strip:** Regularly check the power strip for any signs of damage or loose connections. Disconnect from power before cleaning.
- **Fasteners:** Periodically check all screws and bolts to ensure they remain tight. Retighten as necessary to maintain stability and prevent noise.

TROUBLESHOOTING

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Bed frame is wobbly or noisy.	Loose fasteners or incorrect assembly.	Check all screws and bolts and tighten them securely. Refer to the assembly instructions to ensure all parts are correctly installed, especially the central reinforcement bar and side hooks.
LED lights are not working.	Power connection issue, faulty LED strip, or control problem.	Ensure the LED power adapter is properly plugged into a working outlet. Check connections between the LED strip and the controller. Try controlling with a different method (app, remote, switch). If individual LEDs are out, the strip may be damaged.
Power strip not providing power.	Power strip not plugged in, circuit breaker tripped, or internal fault.	Verify the power strip's main plug is securely connected to a functional wall outlet. Check your home's circuit breaker. If issues persist, discontinue use and contact customer support.
Mattress slides on the frame.	Mattress retainers not installed or improperly rotated.	Ensure the rotating mattress retainers are correctly installed and rotated to their locked position to secure the mattress.
