## ZAFRO HD9117E-J7QL

# ZAFRO 1500W Oil Filled Radiator Heater User Manual

Model: HD9117E-J7QL

## 1. IMPORTANT SAFETY INSTRUCTIONS

---

Please read all instructions carefully before using this ZAFRO Oil Filled Radiator Heater. Failure to follow these instructions may result in fire, electric shock, injury, or property damage. Keep this manual for future reference.

- **Overheat Protection:** The heater is equipped with a double non-adjustable thermostat that automatically shuts off the unit if it overheats.
- **Tip-Over Protection:** An automatic tip-over shut-off feature instantly cuts power if the unit is accidentally knocked over.
- **Child Lock Function:** Utilize the child lock to prevent accidental tampering with settings.
- **V-0 Flame Resistant Material:** Constructed with V-0 flame resistant materials for enhanced safety.
- **Enhanced Safety Plug:** Features an enhanced safety plug to minimize electrical risks.
- **Electrical Safety:** Always plug the heater directly into a wall outlet. Do not use with extension cords or power strips. Do not open the heater; there are no user-serviceable parts inside.
- **Placement:** Ensure the heater is placed on a stable, level surface. Keep combustible materials (furniture, bedding, papers, clothes, curtains) at least 3 feet (0.9 meters) from the front, sides, and rear of the heater.
- **Supervision:** Close supervision is necessary when any appliance is used by or near children or individuals with reduced physical, sensory, or mental capabilities.
- **Risk of Hyperthermia:** Hyperthermia can result in death in infants or others. Use caution to avoid overheating individuals.

## 2. PRODUCT OVERVIEW

---

The ZAFRO 1500W Oil Filled Radiator Heater is designed to provide efficient and comfortable warmth for indoor spaces. Its innovative features ensure both performance and safety.

### Key Features:

- **Innovative Turned Edge Fins:** Features 7 turned edge fins that increase the heat dissipation surface

area by 32% compared to traditional designs, ensuring rapid and even whole-room warming.

- **Digital Touch Screen Control:** An intuitive and responsive large touchscreen panel allows for easy operation.
- **24-Hour On/Off Timer:** Program the heater to turn on or off automatically within a 24-hour period.
- **Adjustable Digital Thermostat:** Set the desired temperature from 41°F to 135°F (5°C to 57°C) in 1-degree increments. The heater auto-regulates to maintain consistent warmth.
- **Energy-Saving Design:** Built-in energy-saving features help manage power consumption, potentially reducing electricity costs by up to 40%.
- **Three Heating Power Levels:** Choose from 600W (H1), 900W (H2), and 1500W (H3) to suit various heating needs.
- **Quiet Operation:** Fanless design ensures noiseless operation (20-30 dB), ideal for bedrooms and offices. Does not dry out the air or skin.
- **Easy Mobility:** Equipped with four omnidirectional wheels and a convenient carry handle for effortless movement between rooms.

### 3. SETUP

---

The ZAFRO Oil Filled Radiator Heater requires minimal assembly before use.

#### 3.1 Attaching the Wheels

1. Carefully unbox the heater and all components.
2. Turn the heater upside down on a soft, stable surface to avoid scratching.
3. Attach the two wheel assemblies to the base of the heater using the provided screws. Ensure they are securely fastened.
4. Carefully turn the heater upright.

#### 3.2 Placement

- Place the heater on a firm, level surface.
- Ensure there is at least 3 feet (0.9 meters) of clear space around the heater from any walls, furniture, or other objects.
- Do not place the heater in areas where it may be easily tipped over.
- Avoid placing the heater directly below a power outlet.

## 4. OPERATION

Operating your ZAFRO Oil Filled Radiator Heater is straightforward with its digital touch screen and remote control.

### 4.1 Powering On/Off

- Plug the heater into a suitable 120V AC, 60Hz power outlet.
- Press the **Power button** (⏻) on the control panel or remote control to turn the heater on or off.

### 4.2 Adjusting Temperature

- Use the **+** and **-** buttons on the control panel or remote to set your desired temperature. The temperature can be adjusted from 41°F to 135°F (5°C to 57°C).
- The heater will automatically maintain the set temperature, cycling on and off as needed.

### 4.3 Selecting Heating Power Levels

- Press the **Mode button** (⏻) to cycle through the three heating power levels:
  - **H1:** 600W (Low Heat)
  - **H2:** 900W (Medium Heat)
  - **H3:** 1500W (High Heat)

Image: ZAFRO heater digital display showing temperature adjustment from 41°F to 95°F and an energy saving graph illustrating up to 40% energy savings.

#### 4.4 Using the 24-Hour Timer

- Press the **Timer button** (🕒) on the control panel or remote.
- Use the **+** and **-** buttons to set the desired number of hours (1-24) for the heater to operate before automatically turning off.

#### 4.5 Child Lock Function

- To activate the child lock, press and hold the **Child Lock button** (often combined with another function or indicated by a lock icon) for a few seconds until the lock indicator appears on the display.
- To deactivate, repeat the process.

#### 4.6 Mute Function

- Press the **Mute button** (🔇) to silence operational beeps and sounds. Press again to unmute.

#### 4.7 Remote Control

The included remote control allows you to conveniently adjust settings from a distance. It features buttons for power, temperature adjustment, mode selection, timer, and mute.

## 5. MAINTENANCE

---

Regular maintenance ensures optimal performance and longevity of your heater.

### 5.1 Cleaning

- Always unplug the heater and allow it to cool completely before cleaning.
- Wipe the exterior surfaces with a soft, damp cloth. Do not use abrasive cleaners or solvents.
- Do not immerse the heater in water or allow water to drip into the interior.

### 5.2 Storage

- If storing the heater for an extended period, clean it thoroughly and place it in its original packaging or a protective cover.

- Store in a cool, dry place away from direct sunlight and extreme temperatures.

## 6. TROUBLESHOOTING

---

If you encounter issues with your ZAFRO Oil Filled Radiator Heater, refer to the following common troubleshooting steps:

- **Heater does not turn on:**
  - Ensure the power cord is securely plugged into a working electrical outlet.
  - Check if the power outlet is functional by plugging in another appliance.
  - Verify that the power button on the heater or remote is pressed.
  - Check for tripped circuit breakers in your home's electrical panel.
- **Heater is not producing heat:**
  - Confirm that the desired temperature setting is higher than the current room temperature.
  - Ensure a heating mode (H1, H2, or H3) is selected.
  - Check if the timer function is active and has not turned off the unit.
  - If the heater has tipped over, it may have activated the tip-over safety switch. Place it upright and restart.
- **Heater shuts off unexpectedly:**
  - This may indicate activation of the overheat protection. Unplug the heater, allow it to cool for 30 minutes, and ensure no obstructions are blocking the air vents.
  - If the heater was bumped or moved, the tip-over protection may have activated.
- **Display shows an error code:**
  - Refer to the specific error code in the full product manual (if available) or contact customer support for assistance.

If these steps do not resolve the issue, please contact ZAFRO customer support for further assistance.
