MAINTENANCE

- **Cleaning:** Wipe surfaces with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners that may

damage the finish.

- **Hardware Check:** Periodically inspect all bolts, screws, and connections to ensure they are tight. Re-tighten as necessary to maintain stability.
- **LED Lights:** If LED lights malfunction, refer to the specific troubleshooting guide for the lighting system.
- **General Care:** Avoid placing excessively hot or cold items directly on the desk surfaces without protection.

TROUBLESHOOTING

Loose Connections

If the bed feels wobbly or unstable, check all assembly hardware. Tighten any loose bolts or screws. Ensure the bed is placed on a level surface.

LED Lights Not Working

Check the power connection to the LED strip and the controller. Ensure the power outlet is functional. If the issue persists, consult the LED light system's specific manual or contact customer support.

USB Ports/Outlets Not Functioning

Verify that the power hub is properly plugged into a working wall outlet. Check the safety switch on the power hub to ensure it is in the 'ON' position. Test with a different device to rule out device-specific issues.
