SETUP GUIDE

1. Charging the Smartwatch

Before first use, fully charge your smartwatch. Connect the magnetic charging cable to the charging points on the back of the watch and plug the USB end into a power adapter (not included) or a computer's USB port. A full charge takes approximately 1.5 hours.

The image illustrates the smartwatch being charged via its magnetic cable, showing a 100% battery display. It also highlights battery life: 30 days standby, 7 days typical use, and 1.5 hours charging time.

2. Connecting to Your Smartphone (GloryFit App)

1. **Enable Bluetooth:** Ensure Bluetooth is activated on your smartphone.
2. **Download GloryFit App:** Search for "GloryFit" in the Google Play Store (for Android) or Apple App Store (for iOS) and download it.
3. **Open App and Pair:** Launch the GloryFit app. Navigate to the device section, select "Add a device," and locate "T60" in the list of available devices. Follow the on-screen prompts to complete the pairing process.

Comment reliez la montre connectées à votre téléphone?

| Allumer le Bluetooth du téléphone. | Ouvrez "Google Play" ou "App Store". | Recherchez l'app "GloryFit" et téléchargez-la. | Ouvrez l'appli "GloryFit", cliquez sur "Ajouter un appareil", trouvez "T60" et liez-le. |

This image visually guides the user through connecting the smartwatch: enabling phone Bluetooth, downloading the GloryFit app from Google Play or App Store, searching for the app, and finally pairing the T60 smartwatch within the app.

OPERATING INSTRUCTIONS

Basic Navigation

- **Touch Screen:** Swipe left/right, up/down to navigate through menus and features. Tap to select.
- **Side Button:** Press to return to the home screen or wake the screen. Long press for power options.

Customizing Watch Faces

The smartwatch offers over 200 customizable watch faces. You can change them directly on the watch by long-pressing the home screen or through the GloryFit app. The app also allows you to upload your own photos to create personalized watch faces.

1.91"HD Colorful Screen
200+Watch Faces & Customize your table

The image displays the 1.91" HD colorful screen of the smartwatch and various customizable watch faces, including options to set personal photos as backgrounds via the app.

Bluetooth Calling and Smart Notifications

Once paired with your phone, you can make and receive calls directly from your smartwatch. The watch will also display notifications from your phone, including messages and alerts from social media applications.

The image highlights the smartwatch's ability to receive smart notifications from popular applications such as Facebook, X (Twitter), WhatsApp, Line, Skype, TikTok, and Instagram, ensuring you stay connected.

AI Voice Assistant

Activate the AI voice assistant on your smartwatch to perform tasks such as setting timers, checking the weather, or launching applications using simple voice commands.
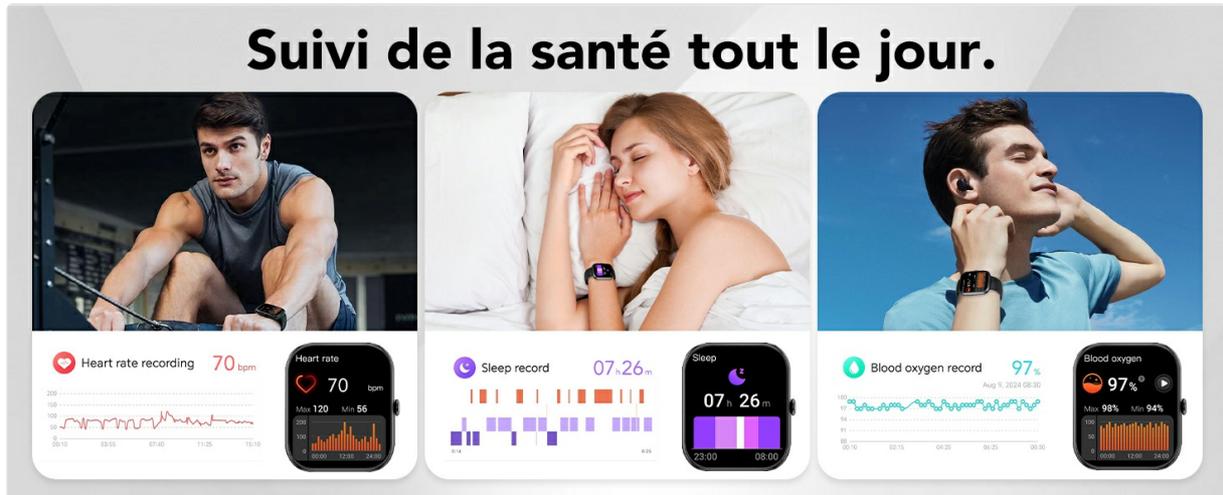

This image shows a user interacting with the AI voice assistant on the smartwatch, demonstrating its capability to respond to commands like "Set a timer for 5 minutes" and "What's the weather like today?".

Additional Functions

The smartwatch includes various other useful functions accessible through its interface:

- Weather Forecast
- Alarm Clock
- Music Playback Control
- Remote Photo Capture
- Calculator
- Breathing Training
- Find Phone
- Drink Water Reminders
- Sedentary Reminders
- Medication Reminders

This image showcases several additional features of the smartwatch, including weather display, alarm settings, music control, remote photo capture, calculator, breathing exercises, and a "Find Phone" function.

HEALTH MONITORING

The TAOPODO T60-EUN Smartwatch provides continuous health tracking to help you monitor your well-being.

- **Heart Rate Monitoring:** 24-hour continuous heart rate tracking.
- **Blood Oxygen (SpO2) Monitoring:** Measure your blood oxygen saturation levels.
- **Sleep Analysis:** Records sleep duration and quality, distinguishing between deep sleep, light sleep, and wake-up times.
- **Female Health Tracking:** Features dedicated functions for menstrual cycle tracking, fertile periods, and safe days.
- **Breath Training:** Guided breathing exercises for relaxation.

The image illustrates the smartwatch's health monitoring capabilities, including sleep tracking (showing sleep duration and stages) and heart rate monitoring with a real-time graph and current BPM.

SPORTS MODES AND ACTIVITY TRACKING

With over 115 sports modes, the smartwatch accurately tracks your workouts and daily activity.

- **Activity Tracking:** Records steps, distance, and calories burned throughout the day.
- **Sports Modes:** Select from a wide range of activities like running, cycling, yoga, tennis, swimming, and more to get specific workout data.
- **IP68 Water Resistance:** The watch is resistant to dust and water, making it suitable for swimming and use

in rainy conditions. Avoid hot water or deep diving.

This image highlights the smartwatch's 115+ sports modes, showing examples like basketball, football, and baseball. It also displays 24-hour activity tracking data including steps, distance, and calories, and mentions its IP68 water resistance.

The image shows the smartwatch being used in a swimming pool, illustrating its IP68 water resistance and ability to track activities like badminton with heart rate and calorie data.

MAINTENANCE

- **Cleaning:** Wipe the watch and strap regularly with a soft, dry cloth. If necessary, use a slightly damp cloth and dry thoroughly.
- **Water Exposure:** While IP68 rated, avoid prolonged submersion in water, hot water, or chemical liquids. Dry the watch thoroughly after exposure to water.
- **Charging:** Ensure the charging contacts are clean and dry before charging to prevent corrosion.
- **Storage:** Store the watch in a cool, dry place when not in use.

TROUBLESHOOTING

Problem	Solution
Watch does not turn on.	Ensure the watch is fully charged. Connect it to the charger for at least 10 minutes.
Cannot pair with phone.	- Ensure Bluetooth is enabled on your phone. - Make sure the watch is within range of your phone. - Restart both the watch and your phone. - Check if the GloryFit app is updated to the latest version. - Forget the device in your phone's Bluetooth settings and try pairing again through the app.
Inaccurate health data.	Ensure the watch is worn snugly on your wrist, not too tight or too loose. Clean the sensor on the back of the watch. Note that the watch is not a medical device and data is for reference only.
Notifications not received.	- Check notification permissions for the GloryFit app in your phone's settings. - Ensure the app is running in the background. - Verify that "Do Not Disturb" mode is not active on either the watch or phone.
Short battery life.	Frequent use of features like Bluetooth calls, continuous heart rate monitoring, and screen brightness can reduce battery life. Try reducing screen brightness and disabling unnecessary continuous monitoring.
