## PRODUCT FEATURES

### 4 Spacious Sliding Drawers

The bed frame includes four deep, sliding drawers designed for efficient storage. These drawers are ideal for bedding, seasonal clothing, or toys, helping to keep your bedroom organized. Each drawer is equipped with screw clips to prevent accidental slipping, ensuring items remain secure and easily accessible.

## Storage Headboard with Charging Station

The integrated headboard offers a convenient charging station, including 2 USB ports and a Type-C port. This allows for easy charging of phones, tablets, and other devices directly from your bedside. The 2-tier open shelf provides accessible storage for glasses, books, and decorative items, reducing clutter on your nightstand.

## RGB LED Bed Frame

An RGB LED light strip is integrated into the bed frame, offering customizable lighting options. Control colors, brightness, modes, and timers via a dedicated app or remote. The lights can also sync with music, allowing you to create various ambiances to suit your preference. Instructions for light control are included with the product.

### Sturdy, Noise-Free Design

Constructed with 13 reinforced steel slats and 9 support legs, this bed frame is designed for durability and can support up to 1200 lbs without requiring a box spring. A soft sponge on the middle beam minimizes squeaks and metal friction, ensuring a quiet and peaceful sleep environment. The all-metal design provides stability and security.

## SETUP AND ASSEMBLY

The Rolanstar Queen Bed Frame is designed for straightforward assembly due to its pre-assembled components. Follow these general steps for setup:

- 1. Unpack Components:** Carefully remove all parts from the packaging. Verify that all components listed in the included parts list are present.
- 2. Assemble Headboard:** Attach the headboard sections as per the specific instructions provided in your product's assembly guide. Ensure all connections are secure.
- 3. Connect Side Rails:** Securely attach the side rails to the headboard and footboard. The pre-assembled design means many parts will simply click or slide into place.

4. **Install Support Slats:** Place the steel support slats across the frame. Ensure they are evenly spaced and securely fastened to provide adequate mattress support.
5. **Insert Storage Drawers:** Slide the four storage drawers into their designated positions under the bed frame. Engage the screw clips to prevent them from sliding out unintentionally.
6. **Connect Power:** Plug in the power cord for the charging station and LED lights. Organize cables to prevent tangling.
7. **Place Mattress:** Position your queen-sized mattress (6-10 inches thick recommended) onto the assembled frame. The embedded design helps prevent mattress sliding.

Refer to the detailed graphical instructions included in your product packaging for specific diagrams and fastener information. No box spring is needed for this bed frame.

## OPERATION

---

### Using the Charging Station

The headboard features a built-in charging station. To use, ensure the bed frame's power cord is plugged into a functional wall outlet. Connect your devices to the available 2 USB ports (5V/2.4A) or the Type-C port (5V/3A). The ports are designed for convenient access from your bed.

### Controlling the RGB LED Lights

The RGB LED lights can be controlled using the provided remote control or a compatible mobile application. Follow the instructions included with the LED light kit for pairing the remote/app. You can adjust:

- **Colors:** Select from a wide range of colors.
- **Brightness:** Adjust the intensity of the light.
- **Modes:** Choose from various dynamic lighting effects.
- **Timers:** Set the lights to turn off automatically after a specified period.
- **Music Sync:** Activate music mode to synchronize light effects with audio.

### Accessing Storage Drawers

The four sliding drawers are located beneath the bed frame. To open, gently pull the drawer outwards. To secure, push the drawer fully inward until the screw clips engage, preventing unwanted movement.

## MAINTENANCE

---

- **Cleaning the Frame:** Wipe the metal and wood surfaces with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners that could damage the finish.
- **Drawer Care:** Periodically check the drawer wheels and tracks for any debris and clean as needed to ensure smooth operation.
- **LED Lights:** Ensure the LED light strip remains dry. If cleaning is necessary, use a dry, soft cloth.
- **Structural Check:** Regularly inspect all bolts and connections to ensure they remain tight. Re-tighten if necessary to maintain stability and prevent noise.
- **Weight Capacity:** Do not exceed the maximum weight recommendation of 1200 lbs to prevent damage to the frame.

## TROUBLESHOOTING

Problem	Possible Cause	Solution
Bed frame is squeaking.	Loose bolts or metal-on-metal friction.	Check and tighten all assembly bolts. Ensure the soft sponge on the middle beam is correctly positioned to prevent friction.
LED lights are not working.	Power connection issue, remote battery, or faulty strip.	Verify the power cord is securely plugged in. Check the remote control battery. If issues persist, contact customer support.
Charging ports are not functioning.	Power connection issue or device incompatibility.	Ensure the bed frame is powered. Test with different devices and cables. Confirm device compatibility with 5V/2.4A (USB) or 5V/3A (Type-C).
Storage drawers slide out easily.	Screw clips not engaged or damaged.	Push drawers fully inward to engage the screw clips. Inspect clips for damage; contact support for replacements if needed.
Mattress is sliding on the frame.	Incorrect mattress size or improper placement.	Ensure your mattress is a Queen size and fits snugly within the frame's embedded design. The frame is designed for mattresses 6-10 inches thick.
