SETUP

1. **Unpack:** Carefully remove all components from the packaging.
2. **Charge:** Connect the recorder to a power source using the provided connection cable. The device will indicate charging status.
3. **Initial Power On:** Locate the ON/OFF switch on the device. Slide it to the 'ON' position. The indicator light will flash, signifying the device is ready.

OPERATING INSTRUCTIONS

Basic Recording

1. **Power On:** Slide the ON/OFF switch to the 'ON' position.

2. **Start Recording:** The device will automatically begin recording when sound is detected (Voice Activated Recording). The indicator light will typically turn off or show a subtle indication to maintain discretion.
3. **Stop Recording:** Slide the ON/OFF switch to the 'OFF' position. The recording will be automatically saved.

Voice Activated Recording (VAR)

The recorder features a voice-activated mode. When enabled, the device will only record when sound is present, conserving battery life and storage space. It pauses during silence and resumes when sound is detected.

DATA TRANSFER

The NekSide LP037 supports OTG (On-The-Go) functionality for easy data transfer.

1. **To Computer:** Connect the recorder to your computer using the provided USB cable. The device will appear as a removable drive. You can then access, copy, or delete your WAV audio files.
2. **To Smartphone/Tablet (OTG):** Use the Micro USB to Type-C data cable (or appropriate adapter) to connect the recorder directly to your smartphone or tablet. This allows for instant access and management of your recordings without a computer.
3. **MP3 Conversion:** The default recording format is WAV. To convert files to MP3, transfer them to a computer and use appropriate software for conversion.

OTG applications

Multi-device connectivity without effort

PLAYBACK

You can play back recordings directly from the device using the included earphones.

1. **Connect Earphones:** Plug the earphones into the designated port on the recorder.
2. **Initiate Playback:** Use the controls on the earphone cable to navigate through recordings, adjust volume, and play/pause.

MAINTENANCE

- Keep the device clean and free from dust and moisture.
- Avoid extreme temperatures and direct sunlight.
- Charge the device regularly to maintain battery health, even if not in frequent use.

- Do not attempt to disassemble the device, as this will void the warranty.

TROUBLESHOOTING

- **Device not turning on:** Ensure the device is fully charged.
- **Poor recording quality:** Check for excessive background noise. Ensure the microphone is not obstructed.
- **Cannot transfer files:** Verify the connection cable is securely plugged into both the recorder and the computer/device. Try a different USB port.
- **Device unresponsive:** Perform a soft reset by sliding the ON/OFF switch to 'OFF' and then back to 'ON'.
