2. SAFETY INFORMATION

- Do not block ventilation openings. Ensure adequate airflow around the projector to prevent overheating.
- Avoid direct eye exposure to the projector lens when the lamp is on.
- Keep the projector away from water or other liquids.
- Use only the power adapter provided with the device.
- Do not attempt to disassemble or repair the projector yourself. Contact customer support for assistance.
- Keep out of reach of children.

3. PACKAGE CONTENTS

Verify that all items are present in the box:

- L03Pro Mini Projector (x1)

- Remote (x1, batteries not included)
- HDMI Cable (x1)
- User Manual (x1)
- Cleaning Kit (x1)

4. PRODUCT OVERVIEW

4.1. Components

- **Projection Lens:** Emits the image.
- **IR Receiver:** For remote control signals.
- **Power Button:** To turn the projector on/off.
- **Speaker Grills:** Integrated audio output.
- **Ventilation Ports:** For heat dissipation.

4.2. Ports and Connections

- **HDMI Port:** Connect to external devices like gaming consoles, laptops, or TV sticks.

- **USB Ports:** For media playback from USB drives or connecting peripherals.

- **3.5mm Audio Jack:** For connecting external headphones or speakers.
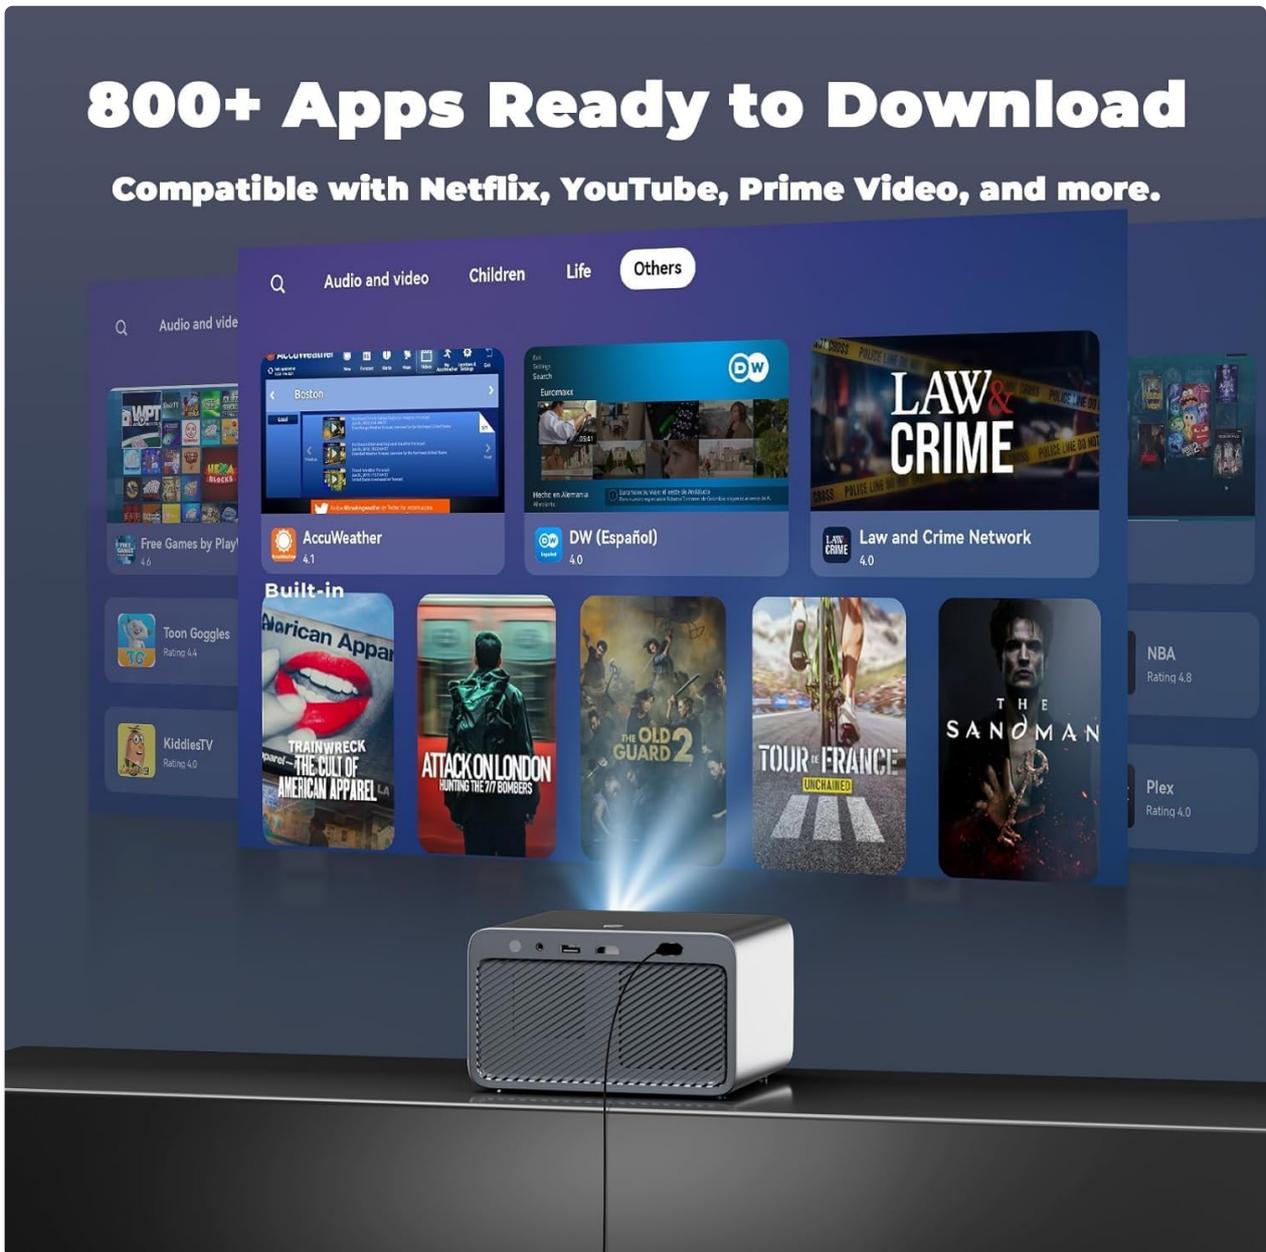

- **Power Input:** Connect the power adapter.

Image 4.1: Rear view showing connectivity ports.

5. SETUP

5.1. Power Connection

1. Connect the power adapter to the projector's power input port.

2. Plug the power adapter into a wall outlet.

3. Press the power button on the projector or remote control to turn it on.

5.2. Initial Setup

1. Upon first power-on, select your preferred language.

2. Connect to your Wi-Fi network by selecting it from the list and entering the password. The projector supports Wi-Fi 6 for faster streaming.

5.3. Placement and Image Adjustment

The L03Pro features an AI Auto-Setup System for quick image optimization:

- **AI Auto-Focus:** The projector automatically adjusts focus for a clear image.
- **Auto Keystone Correction:** Automatically corrects trapezoidal distortion to achieve a rectangular image.
- **Auto Obstacle Avoidance:** Detects and adjusts the projection to avoid obstacles on the wall.
- **Auto Screen Alignment:** Optimizes the image to fit the screen area.
- **Automatic Placement Adjustment:** Corrects image orientation even if the projector is placed upside down.

For manual adjustments, navigate to the settings menu:

- **Manual Keystone Correction:** Fine-tune the image shape if needed.
- **Zoom & Shift:** Adjust the image size and position on the screen.

6. OPERATING INSTRUCTIONS

6.1. Navigation and User Interface

The projector operates on CinemOS, offering a smooth, phone-like user interface. Use the provided remote control to navigate through menus and select options.

Image 6.1: Home screen displaying available applications.

6.2. Streaming Apps and Live TV

The L03Pro comes with pre-installed apps and access to an app store with over 800 applications, including Netflix, YouTube, Prime Video, and Apple TV. It also offers over 1,000 free live TV channels without ads or subscriptions.

- Select the desired app from the home screen to start streaming.
- Access Live TV channels through the dedicated Live TV section.
- Use Live TV Favorites to save and quickly access your preferred channels.

Your browser does not support the video tag.

Image 6.2: User interface for Live TV channels.

6.3. Media Playback and Screen Mirroring

- Connect USB drives to play local media files.
- Use the Projection Assistant for screen mirroring from your smartphone or tablet.

6.4. Audio Settings

The projector features Dolby Audio technology and 2*15W HiFi speakers. For external audio:

- Connect Bluetooth 5.2 enabled speakers or headphones for lag-free audio.
- Utilize the 3.5mm audio jack for wired connections.
- **Bluetooth Volume Sync:** Automatically matches speaker and projector volume.
- **Smart Sound Balance:** Prevents jarring loud jumps in audio.

Image 6.3: Enhanced audio experience with Bluetooth and Dolby.

6.5. Picture Settings

The L03Pro supports native 1080P resolution with 4K playback and AI image boost.

- Adjust picture modes (Vivid, Standard, Sport, Movie, Game, Custom) to suit your content.
- Customize brightness, contrast, saturation, sharpness, and color temperature.
- LCD Pro wide color gamut and 98% NTSC color coverage ensure vibrant visuals.

Image 6.4: Customize your movie-specific colors.

6.6. Game Mode

Activate Game Mode for ultra-low lag performance during gaming sessions.

Image 6.5: Game Mode for an optimized gaming experience.

6.7. Browser Functionality

Use the built-in browser for full-screen web browsing. You can scan a QR code to turn your phone into a touchpad for easier navigation.

Image 6.6: Open Browser with phone control via QR code.

6.8. CEC Control

Control multiple CEC-supported external devices (e.g., TV sticks, PS4) with the projector's single remote via HDMI connection.

Image 6.7: CEC Control for unified remote operation.

7. MAINTENANCE

7.1. Cleaning

- **Lens:** Use the provided cleaning cloth and brushes to gently clean the lens. Avoid abrasive materials.
- **Exterior:** Wipe the projector's exterior with a soft, dry cloth.
- **Ventilation Vents:** Ensure vents are clear of dust and debris for optimal performance.

7.2. Temperature Monitoring

The projector features a smart temperature display to ensure long-lasting performance. If the temperature exceeds safe limits, the projector may automatically shut down to prevent damage.

7.3. Storage

When not in use, store the projector in a cool, dry place. The built-in lens cover protects the lens from dust.

Image 7.2: Compact design with lens protection.

8. TROUBLESHOOTING

Issue	Possible Cause	Solution
No image or blurry image	Incorrect focus, keystone, or placement.	Use AI Auto-Setup or manually adjust focus/keystone. Ensure projector is placed correctly.
No sound	Volume too low, external speakers not connected, or audio settings incorrect.	Increase volume. Check Bluetooth connection or 3.5mm audio cable. Verify audio output settings.
Cannot connect to Wi-Fi	Incorrect password, out of range, or network issue.	Re-enter password. Move closer to router. Restart router.
Remote not responding	Low batteries, IR path blocked.	Replace remote batteries (AAA). Ensure no obstacles between remote and projector.
Projector overheats and shuts down	Blocked ventilation, prolonged use in high temperatures.	Ensure vents are clear. Allow projector to cool down. Use in a well-ventilated area.
