BLOKEES 71190

BLOKEES Megatron Energy Explosion Model Kit Instruction Manual

Model: 71190

1. INTRODUCTION

Thank you for purchasing the BLOKEES Transformers Action Edition Megatron Energy Explosion Model Kit. This kit allows you to assemble a highly detailed and articulated representation of the legendary Decepticon leader, G1 Megatron. Composed of 256 pieces, this model features a classic G1 design, rich accessories, and a magnetic light control system for glowing eyes and chest effects.

This manual provides essential information for the assembly, operation, and maintenance of your model kit. Please read it carefully before beginning assembly.

Figure 1.1: Assembled BLOKEES Megatron Energy Explosion Model Kit. This image displays the completed model, showcasing its detailed G1 design, articulation, and the dynamic pose it can achieve. Note the metallic finish and the overall imposing presence of the figure.

2. ASSEMBLY INSTRUCTIONS

This model kit is designed for snap-fit assembly, requiring no glue. The kit contains 256 individual pieces. For detailed, step-by-step visual instructions, please refer to the dedicated Instruction Booklet included in your package. The following provides general guidance.

2.1 Unpacking and Preparation

- Carefully open the packaging and remove all components.
- Verify that all parts listed in the Instruction Booklet are present.

- Organize parts by type or section as suggested in the booklet to streamline the assembly process.

2.2 General Assembly Steps

1. Follow the sequence provided in the Instruction Booklet. Each step typically involves attaching specific pieces together.
2. Ensure pieces snap firmly into place. Do not force parts; if a piece does not fit, re-check the orientation and the corresponding step in the booklet.
3. Pay close attention to small details and delicate parts.

2.3 Magnetic Light Control System Installation

The model features a magnetic light control system for the eyes and chest. This system requires one nonstandard battery (not included). Refer to the Instruction Booklet for the exact location and method of battery installation. Ensure correct polarity when inserting the battery.

3. OPERATION

3.1 Posing and Articulation

Your Megatron model features 45 points of articulation, allowing for a wide range of dynamic poses. Gently manipulate the joints to achieve desired stances. Avoid excessive force, which could damage the joints or parts.

3.2 Magnetic Light Activation

Once the battery is installed, the LED eyes and chest effects can be activated using the magnetic control system. Typically, a small magnetic accessory (often included or integrated into a weapon) is used to touch a specific point on the figure, triggering the lights. Refer to your Instruction Booklet for the precise activation method and location.

3.3 Weapon and Accessory Attachment

The kit includes Megatron's signature arsenal: a fusion cannon, energy sword, and mace. Bonus accessories like Laserbeak and Shockwave's disguise form are also included. These accessories are designed to attach to specific points on the figure, such as hands or back ports. Ensure a secure fit when attaching them.

4. CARE AND MAINTENANCE

4.1 Cleaning

To clean your model, gently wipe it with a soft, dry cloth. Avoid using harsh chemicals, abrasive cleaners, or excessive moisture, as these can damage the plastic or paint finish.

4.2 Storage

Store the model in a cool, dry place away from direct sunlight and extreme temperatures. Prolonged exposure to sunlight can cause discoloration. Keep it away from dust and potential impacts.

4.3 Battery Replacement

When the LED effects dim or cease to function, it is time to replace the battery. Follow the battery installation steps in your Instruction Booklet in reverse to remove the old battery, and then insert a new nonstandard battery, ensuring correct polarity.

5. TROUBLESHOOTING GUIDE

- **LED Lights Not Working:**
Check if the battery is correctly installed with the correct polarity. Ensure the battery has sufficient charge. Verify that the magnetic activation point is being correctly engaged as per the Instruction Booklet.
- **Parts Not Fitting Together:**
Refer back to the Instruction Booklet to confirm the correct part orientation and sequence. Do not force parts; gentle pressure should be sufficient for snap-fit connections. Some parts may require a slight twist or wiggle to align properly.
- **Loose Joints:**
If a joint feels loose, carefully inspect it for any misaligned or improperly seated parts. In some cases, a very small amount of clear nail polish or a specialized joint-tightening fluid can be applied to the joint peg and allowed to dry to increase friction, but this should be done with caution.
- **Missing or Damaged Parts:**
If you discover any missing or damaged parts upon opening the kit, please contact BLOKEES customer support or your retailer immediately.

6. PRODUCT SPECIFICATIONS

Feature	Detail
Brand Name	BLOKEES
Model Name	Megatron Energy Explosion
Model Number	71190
Character	Megatron (Transformers)
Toy Figure Type	Action Figure
Material Type	ABS Environmentally Friendly Plastic
Number of Pieces	256
Item Dimensions (L x W x H)	4.33 x 7.87 x 5.51 inches (approx. 11 x 20 x 14 cm)
Item Weight	0.41 kg
Articulation Points	45
Special Features	Magnetic Light Control (LED eyes and chest)
Battery Requirement	1 Nonstandard Battery (for LED, not included)
Assembly Method	Snap-fit (No glue required)
Recommended Age	14+ years
UPC	810181532944

7. SAFETY INFORMATION

WARNING! Small parts. This product contains small parts which may pose a choking hazard. Not suitable for children under 3 years of age. Adult supervision is recommended during assembly and play for users under 14 years.

Handle with care to avoid injury from sharp edges or small components. Keep batteries out of reach of small children.

8. CUSTOMER SUPPORT

For further assistance, inquiries regarding parts, or technical support, please refer to the official BLOKEES website or contact the retailer from whom you purchased this product. Please have your model number (71190) and proof of purchase ready when contacting support.
