MorePro Fitness Tracker User Manual

Model: Fitness Tracker

1. INTRODUCTION

Welcome to the MorePro Fitness Tracker user manual. This guide provides essential information for setting up, operating, and maintaining your device. The MorePro Fitness Tracker is designed to help you monitor your health and track your fitness activities with ease. It features 24/7 health monitoring, over 100 sports modes, dynamic watch faces, a 1.83-inch full-touch display, Bluetooth call functionality, smart notifications, long battery life, and an IP68 waterproof design.

2. SETUP

2.1. Unboxing Your Device

Upon opening the box, you will find the MorePro Fitness Tracker, a magnetic charging cable, and a quick start guide. The watch band is designed to be soft and flexible for comfortable wear.

2.2. Charging the Device

Before first use, fully charge your fitness tracker. Connect the magnetic charging cable to the charging points on the back of the watch and plug the USB end into a power source. A full charge typically takes approximately 2 hours. The 370 mAh battery supports 4–5 days of normal use and up to 30 days on standby.

Ultra-long Battery Life

300mAh battery, fast charging, stays with you for a longtime Compatible with most smartphones.

-  **5** Days Normal Use
-  **2** Hours Fast Charge
-  **20** Days Standby

20 DAYS

3.2. 24/7 Health Monitoring

The tracker provides continuous monitoring of various health metrics. **Note: This device is not a medical device and should not be used for medical diagnosis or treatment.**

- **Heart Rate:** Monitors your heart rate throughout the day.
- **SpO₂:** Measures your blood oxygen saturation levels.
- **Blood Pressure:** Provides blood pressure readings.
- **Stress:** Tracks your stress levels.
- **Sleep:** Analyzes your sleep patterns, including deep sleep, light sleep, and awake times.
- **Women's Health:** Offers features for menstrual cycle tracking.

4.2. Cleaning and Care

To maintain your device, wipe it regularly with a soft, dry cloth. Avoid using harsh chemicals or abrasive materials. Ensure the charging contacts are clean and dry before charging.

5. TROUBLESHOOTING

- **Device Not Powering On:** Ensure the device is fully charged. Connect it to the magnetic charger and allow it to charge for at least 30 minutes before attempting to power it on again.
- **Inaccurate Data Readings (Steps, Heart Rate, Sleep):** Ensure the watch is worn snugly on your wrist, about one finger's width above your wrist bone. Keep the sensor clean. Regularly synchronize the watch with the app to ensure data accuracy.
- **Connectivity Issues:** Ensure Bluetooth is enabled on your smartphone and the MorePro app is open. If issues persist, try restarting both your phone and the fitness tracker.
- **Screen Unresponsive:** If the screen is unresponsive, try restarting the device by pressing and holding the side button.
