## Magcubic L018

# Magcubic L018 Mini Portable Projector User Manual

MODEL: L018

Brand: Magcubic

## INTRODUCTION

Thank you for choosing the Magcubic L018 Mini Portable Projector. This device is designed to provide a high-quality home cinema experience with its advanced features and portable design. Please read this manual carefully to ensure proper setup and operation.

### Key Features:

- **Native 1080P & 4K Support:** Enjoy crystal-clear images with native 1080p resolution and 4K decoding capabilities for a cinematic visual experience.
- **400 ANSI Lumens:** Bright and vivid projections suitable for various lighting conditions.
- **Android 14 OS:** Access a wide range of streaming apps and content directly from the projector.
- **180° Rotatable Stand:** Flexible projection angles, allowing you to project onto walls, ceilings, or screens with ease.
- **Dual-Band WiFi 6 & Bluetooth 5.2:** Ensures ultra-fast, stable wireless connectivity for streaming and audio.
- **Auto Keystone Correction & Electric Focus:** Automatically adjusts image shape and sharpness for a perfect picture every time.
- **Built-in Speaker:** Integrated audio for an immersive experience.

## WHAT'S IN THE BOX

- Magcubic L018 Mini Portable Projector
- Power Cable
- Remote Control
- User Manual

Image: The Magcubic L018 projector, power cable, remote control, and user manual are shown, illustrating the package contents.

## SETUP

- 1. Power Connection:** Connect the provided power cable to the projector's power input and then to a power outlet.
- 2. Placement:** Place the projector on a stable surface (floor mount or tabletop stand) or mount it as desired. The 180° rotatable stand allows for flexible positioning, including ceiling projection.
- 3. Power On:** Press the power button on the projector or the remote control to turn on the device.
- 4. Automatic Adjustments:** The projector features automatic keystone correction and electric focus. It will automatically adjust the image shape and sharpness. If needed, use the remote control for fine-tuning the focus.
- 5. Initial Setup (Android OS):** Follow the on-screen prompts to complete the initial setup, including language selection, Wi-Fi connection, and time zone settings.
- 6. Connectivity:**
  - **Wi-Fi:** Connect to your home Wi-Fi network (2.4G or 5G) via the settings menu for internet access and streaming.
  - **Bluetooth:** Pair Bluetooth devices like external speakers or headphones through the Bluetooth settings.

- **HDMI:** Connect external devices (e.g., laptop, game console) using an HDMI cable to the HDMI port.
- **USB:** Insert a USB drive into the USB port to play local media files.

## BT5.4 & HI-FI Stereo Speaker

Let you enjoy ultimated sound experience!

## OPERATING INSTRUCTIONS

- Navigation:** Use the remote control to navigate the Android 14 OS interface. The remote supports both standard button navigation and an air mouse function for easier control.
- App Access:** From the home screen, select your desired streaming apps (e.g., Netflix, YouTube, Prime Video) or browse the app store to download more.
- Screen Mirroring:** Use the built-in screen mirroring function (compatible with Android and iOS devices) to project content from your smartphone or tablet wirelessly.
- Media Playback:** Play videos, photos, or music from connected USB drives or HDMI sources.
- Audio Output:** The projector has a built-in speaker. For enhanced audio, connect external Bluetooth speakers or headphones.
- Image Settings:** Adjust brightness, contrast, color, and sharpness through the projector's settings menu to optimize your viewing experience.

## MAINTENANCE

- **Cleaning the Lens:** Gently wipe the projector lens with a soft, lint-free cloth. Do not use abrasive cleaners or solvents.
- **Ventilation:** Ensure the projector's ventilation openings are clear and unobstructed to prevent overheating.
- **Storage:** When not in use, store the projector in a cool, dry place, away from direct sunlight and extreme temperatures.
- **Dust Protection:** Use a dust cover when the projector is not in use for extended periods.

## TROUBLESHOOTING

Problem	Possible Cause	Solution
No image projected	Power cable disconnected, projector off, input source not selected.	Check power connection, turn on projector, select correct input source (HDMI, USB, Screen Mirroring).
Image is blurry	Out of focus, incorrect projection distance.	Use the remote control to adjust electric focus. Ensure the projector is within the recommended projection distance (1.05m - 4m).
Image is distorted (trapezoid shape)	Projector not perpendicular to the screen.	The projector has auto keystone correction. If manual adjustment is needed, check settings.
No sound	Volume too low, external speaker not connected/paired, incorrect audio output selected.	Increase volume. Check Bluetooth connection for external speakers. Ensure internal speaker is selected or correct audio output is chosen.
Wi-Fi connection issues	Incorrect password, out of range, router issues.	Verify Wi-Fi password. Move projector closer to the router. Restart router.

## SPECIFICATIONS

**Brand:**

Magcubic
