2. SAFETY INFORMATION

Please read all safety instructions before assembly and use.

- Always use caution when handling sharp tools and chemicals during nail procedures.
- Follow assembly instructions carefully to ensure the stability and safety of the desk. Improper assembly can lead to instability and potential injury.
- Keep the work area clean and well-lit to prevent accidents and ensure clear visibility.
- Ensure the dust collector's power cord is not damaged and is properly connected to a suitable power outlet.
- Do not overload the table or drawers beyond their intended capacity.
- Keep children and pets away from the product during assembly and operation.

4. SETUP & ASSEMBLY

Assembly is required for this product. Please refer to the separate assembly instructions included in your package for detailed, step-by-step guidance. While assembly is designed to be straightforward, it is recommended to have a Phillips head screwdriver and possibly a rubber mallet on hand, as not all tools are included.

General Assembly Steps:

1. **Unpack Components:** Carefully remove all parts from the packaging and lay them out on a clean, soft surface to prevent scratches.
2. **Assemble the Frame:** Connect the steel pipe frame components according to the diagrams in the included assembly

manual. Ensure all connections are secure.

3. **Attach Tabletop:** Secure the tabletop to the assembled frame using the provided hardware.
4. **Install Dust Collector:** Integrate the dust collector unit into the designated opening on the tabletop. Attach the reusable dust bag underneath.
5. **Assemble Storage Unit:** Construct the open shelf and drawer housing.
6. **Insert Drawers:** Place the fabric drawers into their respective slots within the storage unit.
7. **Final Check:** Ensure all screws are tightened and the table is stable before use.

5. OPERATING INSTRUCTIONS

5.1. Electric Dust Collector

1. **Connect Power:** Plug the dust collector's power cord into a standard electrical outlet.

2. **Start/Stop:** Press the one-button switch located near the dust collector opening on the tabletop to turn the unit ON or OFF.

3. **Operation:** The dust collector will draw in nail dust and debris, collecting it in the attached reusable dust bag.

5.2. Storage Space

The nail table is equipped with one open shelf and three fabric drawers for organizing your nail tools and supplies.

- **Open Shelf:** Use the open shelf for frequently accessed items or decorative storage.
- **Drawers:** Utilize the three drawers for storing brushes, moisturizers, nail polish, and other accessories to keep your workspace tidy.

6. MAINTENANCE

6.1. Cleaning the Table

- Wipe the tabletop and frame with a soft, damp cloth.
- For stubborn stains, use a mild, non-abrasive cleaner. Avoid harsh chemicals that may damage the finish.
- Ensure the table is dry after cleaning to prevent moisture damage.

6.2. Dust Collector Maintenance

- **Emptying the Dust Bag:** Regularly check and empty the reusable dust bag when it appears full. To do this, detach the bag from the dust collector unit, empty its contents, and reattach it securely.
- **Cleaning the Filter Grid:** Periodically clean the metal grid of the dust collector on the tabletop surface to ensure optimal suction. Use a small brush or cloth to remove any accumulated debris.

6.3. Drawer Maintenance

- The fabric drawers can be spot cleaned with a damp cloth and mild detergent if necessary. Allow them to air dry completely before reinserting.

7. TROUBLESHOOTING

Problem	Possible Cause	Solution
Dust collector not turning on.	No power supply. Power switch is off.	Ensure the power cord is securely plugged into a working outlet. Press the one-button switch to the ON position.
Dust collector has weak suction.	Dust bag is full. Filter grid is clogged.	Empty the reusable dust bag. Clean the metal filter grid on the tabletop.
Table feels unstable.	Loose assembly hardware. Uneven floor.	Check and tighten all screws and connections according to the assembly instructions. Adjust the leveling feet (if present) or place shims under the legs to stabilize.
Drawers do not slide smoothly.	Drawer is overloaded. Obstruction in the drawer slot.	Reduce the weight or volume of items in the drawer. Remove any items blocking the drawer's path.
