oneisall Automatic Cat Feeder and Water Dispenser (Model PF14)

User Manual

1. PRODUCT OVERVIEW

The oneisall Automatic Cat Feeder and Water Dispenser (Model PF14) is designed to provide a consistent feeding and hydration schedule for your cat. This 2-in-1 system features separate compartments for dry food and water, ensuring fresh meals and continuous water availability. It is suitable for indoor use and offers programmable meal times and portion control.

2. PACKAGE CONTENTS

Before setup, ensure all components are present:

- 1 x Smart Feeder Unit
- 1 x Desiccant Bag
- 1 x Power Adapter & Cable (USB-C)

- 1 x User Manual (this document)
- 2 x Stainless Steel Bowls & Base

3. SETUP INSTRUCTIONS

1. **Unpack Components:** Carefully remove all items from the packaging.
2. **Assemble Bowls:** Place the two stainless steel bowls into their respective base slots on either side of the main unit.
3. **Fill Water Tank:** Remove the water tank, fill it with fresh water, and securely close the cap. Insert the filled water tank into the designated slot on the main unit. The gravity-fed system will automatically dispense water into the bowl.
4. **Fill Food Hopper:** Open the lid of the food hopper and pour dry kibble into the compartment. Ensure the kibble size is ≤ 0.5 inches (13mm) to prevent clogging. Close the lid securely.
5. **Insert Desiccant Bag:** Place the desiccant bag into its designated slot within the food hopper lid to maintain food freshness.
6. **Connect Power:** Connect the USB-C power cable to the port located at the bottom of the feeder. Plug the power adapter into a wall outlet. For reliable operation, especially during power outages, insert 4 AA batteries (not included) into the battery compartment at the bottom of the unit.

oneisall, founded in 2012, is a leading brand in smart pet products, dedicated to "Transform How You Pet" with innovative, high-quality grooming and feeding solutions that simplify pet care for both pets and their owners.

4. OPERATING INSTRUCTIONS

4.1 Setting Time and Feeding Schedule

The feeder features a single knob for easy setup and operation. Refer to the display for current settings.

1. **Set Current Time:** Use the knob to navigate to the time setting. Rotate to adjust hours and minutes, then press to

confirm.

2. **Program Meals:** The feeder supports 1-6 meals per day. Navigate to the meal setting. For each meal, set the desired time and the number of portions (1-16 portions, with each portion being approximately 5-10g).
3. **Gravity Water Dispenser:** The water dispenser operates automatically via gravity, ensuring a continuous supply of fresh water without manual refills.
4. **LED Water Level Indicator:** A built-in LED light allows for easy water level checks at night. This light can be adjusted or switched off to avoid disturbing pets.

4.2 Dual Power System

The feeder is powered by both a Type-C cable and 4 AA batteries (not included). The battery backup ensures uninterrupted feeding during power outages, providing peace of mind.

5. MAINTENANCE AND CLEANING

Regular cleaning ensures hygiene and extends the product's lifespan. All accessories are designed for easy removal and cleaning.

- **Stainless Steel Bowls:** The stainless steel bowls are dishwasher-safe, preventing issues like 'black chin' and promoting healthier eating.
- **Food Hopper and Water Tank:** These components can be easily detached and washed with mild soap and water. Ensure they are completely dry before reassembly.
- **Main Unit:** Wipe the main unit with a damp cloth. Do not submerge it in water.
- **Desiccant Bag:** Replace the desiccant bag periodically (e.g., monthly) to maintain optimal food freshness.

6. TROUBLESHOOTING

Problem	Possible Cause	Solution
Feeder not dispensing food	Food hopper empty; kibble too large; clog in dispenser mechanism; power issue.	Refill food hopper. Ensure kibble size is ≤ 0.5 inches (13mm). Check for and clear any clogs. Verify power connection and battery backup.
Water not dispensing	Water tank empty; tank not properly seated.	Refill water tank. Ensure the water tank is correctly inserted and sealed.
Feeder not turning on	No power supply; batteries depleted (if using backup).	Check power adapter connection. Replace AA batteries if necessary.
Unit tips over easily	Improper placement; playful pet.	Ensure the unit is placed on a flat, stable surface. The design includes a stable triangular base to prevent tipping.
