CHIVALZ YZY6001-KC

CHIVALZ YZY6001-KC 6L Cool Mist Humidifier User Manual

Model: YZY6001-KC

INTRODUCTION

Thank you for choosing the CHIVALZ YZY6001-KC 6L Cool Mist Humidifier. This device is designed to provide optimal humidity levels in your living space, offering a comfortable environment and supporting overall well-being. It features a large water tank, quiet operation, and an essential oil diffuser function. Please read this manual thoroughly before use to ensure proper operation and maintenance.

IMPORTANT SAFETY INSTRUCTIONS

- Always place the humidifier on a firm, flat, water-resistant surface at least 16 inches (40 cm) away from walls and electronic devices.
- Do not inject water beyond the maximum water level line indicated on the tank.
- Do not pour water directly into the base chamber or mist tube. Always use the top-fill opening.
- Do not add essential oils or supplemental water treatment liquids directly into the water tank. Use only the designated essential oil tray.
- Unplug the humidifier before filling, cleaning, or moving it.
- Never immerse the base in water.
- Keep out of reach of children and pets.
- If the indicator light turns red, it signifies a water shortage. Refill the tank promptly.

PACKAGE CONTENTS

- CHIVALZ 6L Cool Mist Humidifier x 1
- Cleaning Brush x 2
- User Manual x 1

PRODUCT DIAGRAM

Familiarize yourself with the components of your humidifier:

Figure 2: Humidifier components and features.

- **360° Adjustable Double Wind-Blow Nozzle:** For directing mist.
- **6L Large Water Tank:** Provides extended operation.
- **Essential Oil Tray:** For aromatherapy diffusion.
- **Noise Suppressor:** Ensures quiet operation (<26dB).
- **One Knob Control:** Adjusts mist output.
- **Independent Indicator Light Button:** Controls the night light and shows operational status (blue for normal, red for water shortage).

SETUP

1. **Placement:** Place the humidifier on a flat, stable, water-resistant surface. Ensure it is at least 16 inches (40 cm) away from walls and any electronic devices to prevent moisture damage.
2. **Check Filter:** Verify that the water filter is correctly positioned. Rotate it clockwise to secure it in place.
3. **Fill Water Tank:** Remove the water tank cover. Pour purified or distilled water directly into the tank through the top opening. Do not exceed the 'MAX' fill line.
4. **Replace Cover:** Place the water tank cover back onto the base securely.
5. **Connect Power:** Plug the power cord into a suitable electrical outlet.

Figure 3: Simple operation process for initial setup.

OPERATING INSTRUCTIONS

Power On/Off and Mist Control

1. **Turn On:** Rotate the control knob clockwise from the 'OFF' position. The blue indicator light will illuminate, and mist will begin to emit.
2. **Adjust Mist Output:** Continue rotating the knob clockwise to increase the mist output from minimum to maximum. Rotate counter-clockwise to decrease mist output.
3. **Turn Off:** Rotate the control knob counter-clockwise until it clicks into the 'OFF' position.

Night Light Function

- Press the independent indicator light button once to turn the soothing blue night light on.
- Press the button again to turn the night light off.

Essential Oil Diffusion

- Locate the essential oil tray on the side of the humidifier base.
- Add a few drops of your preferred essential oil onto the aroma pad within the tray.
- Do not add essential oils directly into the water tank, as this can damage the unit and void the warranty.

Enjoy Aromatherapy

Figure 4: Using the essential oil diffuser tray.

Automatic Shut-Off

The humidifier is equipped with an intelligent auto shut-off feature. When the water level is too low, the unit will automatically stop misting, and the indicator light will turn red to alert you to refill the tank. This prevents damage to the device and ensures safety.

MAINTENANCE

Regular cleaning is essential for optimal performance and hygiene. It is recommended to clean the humidifier every two weeks.

1. **Unplug:** Always unplug the humidifier from the power outlet before cleaning.
2. **Empty Water:** Remove the water tank and empty any remaining water from both the tank and the base chamber.
3. **Flush Components:** Rinse the water tank and base chamber with clean water.

4. **Clean Surfaces:** Use the provided cleaning brushes to clean corners, crevices, and the mist tube. Wipe the exterior of the base with a damp cloth.
5. **Clean Filter:** To disassemble and clean the filter, rotate it counter-clockwise. Rinse thoroughly under running water.
6. **Drying:** Allow all parts to air dry completely before reassembling or storing.

Important Cleaning Notes:

- Never immerse the base of the humidifier in water.
- When pouring water out, hold down the float mechanism to prevent it from being lost.
- Do not use detergents, abrasive cleaners, or harsh chemicals to clean the humidifier, as these can damage the unit.

Figure 5: Steps for cleaning the humidifier.

TROUBLESHOOTING

Problem	Possible Cause	Solution
No mist or low mist output	Lack of water in the tank Power cord not properly connected Mineral buildup on the transducer	Refill the water tank Ensure the power cord is securely plugged in Clean the transducer and base thoroughly
Red indicator light is on	Water level is too low	Refill the water tank with purified or distilled water
Unusual noise during operation	Humidifier not on a flat surface Foreign object in the water tank or base Water level too low	Place the humidifier on a stable, flat surface Unplug and inspect for foreign objects, then remove Refill the water tank
Water leakage	Water tank not properly seated Overfilling the water tank Cracks in the water tank	Ensure the water tank is correctly placed on the base Do not fill water beyond the MAX line Contact customer support if the tank is damaged
