Emdoro SSPWF-412-A

Emdoro Replacement Filters and Sponges Instruction Manual

For 3.2L/108oz Stainless Steel Cat Water Fountain (Model SSPWF-412-A)

INTRODUCTION

This manual provides essential instructions for the proper use and maintenance of your Emdoro replacement filters and sponges. These components are designed to ensure clean, fresh water for your pet when used with the Emdoro 3.2L/108oz Stainless Steel Cat Water Fountain.

Official Filters for Emdoro 3.2L/108oz Pet Water Fountain

FILTER COMPONENTS AND FUNCTION

The Emdoro replacement filter system utilizes multiple layers to purify water for your pet. Each filter consists of activated carbon and ion exchange resin, encased within non-woven fabric. The sponge component acts as a pre-filter.

- **Activated Carbon:** Helps remove odors and chlorine, improving water taste.

- **Ion Exchange Resin:** Softens water by reducing heavy metal ions.
- **Non-woven Fabric:** Filters out hair, dust, and other particles.
- **Sponge:** Traps larger debris and extends the life of the main filter.

Advanced Filtration System

Pets Drink Clean Running Water Every Day

Image: Diagram illustrating the multi-layer filtration system of the Emdoro filter.

Follow these steps to prepare and install your new replacement filter and sponge:

1. **Soak the Filter:** Submerge the new filter completely in clean water for 5 minutes. This activates the filter media and removes any loose carbon dust.
2. **Rinse the Filter:** After soaking, rinse the filter thoroughly under running water for 30 seconds.
3. **Install the Sponge:** Place the sponge in its designated slot within the fountain pump assembly.
4. **Install the Filter:** Insert the prepared filter into the filter housing of your Emdoro cat water fountain. Ensure it is seated correctly.

1. Soak filter in clean water for 5 minutes

2. Rinse filter for 30 seconds before use

MAINTENANCE AND REPLACEMENT

Regular replacement of filters and sponges is crucial for maintaining water quality and the longevity of your fountain pump.

- **Filter and Sponge Replacement:** Replace both the filter and sponge every 2 weeks under normal usage conditions.
- **Multiple Pets:** If you have multiple pets using the fountain, consider replacing the filter every 1 to 2 weeks due to increased usage and potential debris.

Image: Reminder to replace the filter and sponge every two weeks for optimal performance.

8+8
Package Includes:
Filter & Sponge

TROUBLESHOOTING

If you experience issues with water quality or flow, consider the following:

- **Reduced Water Flow:** This often indicates a clogged filter or sponge. Replace both components as per the maintenance schedule.

- **Unpleasant Odor/Taste:** Ensure filters are replaced regularly. Activated carbon effectiveness diminishes over time.
- **Visible Debris:** If debris is visible in the water despite filtration, check that the filter and sponge are correctly installed and not damaged. Increase replacement frequency if necessary.

SPECIFICATIONS

Feature	Detail
Brand	Emdoro
Model Number	SSPWF-412-A
Compatible Fountain Capacity	3.2 Liters / 108 oz
Material	Cotton (filter media includes activated carbon, ion exchange resin)
Product Dimensions	9 x 4.5 x 2.5 cm (approximate filter dimensions)
Item Weight	150 g (total package)
Special Features	Durable, Easy to Clean, Easy to Use, Environmentally Friendly
Recommended Replacement Frequency	Every 2 weeks (or 1-2 weeks for multiple pets)

WARRANTY AND SUPPORT

Emdoro offers a **2-Year Free Replacement** policy for its products. For any inquiries, support, or warranty claims, please contact our customer care team.
