comulytic Note Pro

Comulytic Note Pro AI Voice Recorder User Manual

Model: Note Pro

INTRODUCTION

The Comulytic Note Pro is an advanced AI voice recorder designed to streamline your workflow by providing high-accuracy transcription and intelligent summarization of conversations, meetings, and calls. This device integrates seamlessly with a dedicated mobile application, offering features like speaker identification, AI noise cancellation, and efficient data management. This manual provides essential information for setting up, operating, maintaining, and troubleshooting your Comulytic Note Pro.

2. Initial Charging

Fully charge your Comulytic Note Pro before first use. Connect the device to a power source using the provided TYPE-A charging cable. A full charge typically takes approximately 90 minutes.

3. App Download and Pairing

Download the official Comulytic app from your smartphone's app store. Follow the in-app instructions to pair your Note Pro device. The device uses Wi-Fi for high-speed data transfer and Bluetooth for initial connection and control. Ensure Bluetooth is enabled on your smartphone during the pairing process.

OPERATING INSTRUCTIONS

1. One-Button Recording

The Comulytic Note Pro features a simple one-button operation. Press and hold the recording button to start recording. The device will automatically detect the environment (e.g., phone call, face-to-face meeting) and optimize recording settings. A vibration feedback confirms recording has started.

2. Automatic Recording Modes

The device intelligently switches between optimal recording modes for various scenarios:

- **Phone Calls:** When attached to your smartphone, it records both sides of the conversation clearly.
- **Online Meetings:** Captures audio from virtual meetings.
- **Face-to-Face Meetings:** Optimizes for in-person discussions, capturing voices up to 5 meters away.

Image: The Comulytic Note Pro automatically adapts to various recording environments.

3. AI Noise Cancellation

Advanced AI noise cancellation technology filters out ambient sounds such as keyboard typing or air conditioning, ensuring clear voice capture even in noisy environments.

4. Speaker Identification

The device automatically identifies and separates speakers in a conversation, making transcriptions easy to follow and review.

5. Transferring Recordings

Recordings are transferred to your smartphone app via high-speed Wi-Fi, which is up to 10 times faster than traditional Bluetooth. A one-hour recording can be synced in approximately 30 seconds.

6. Accessing Transcriptions and Summaries

Once transferred, the app provides a high-accuracy text transcription (up to 98%) and an AI-generated summary. These summaries include key decisions, ToDo lists assigned to individuals, and suggested points for follow-up meetings.

7. Exporting Data

Generated meeting minutes can be instantly exported in PDF, Word, or Excel formats. You can also share them directly with your team via email or communication platforms like Slack.

KEY FEATURES

-
- **Unlimited Free Transcription & Basic AI Summary:** The Comulytic Note Pro includes unlimited free transcription and basic AI summarization services without additional subscription fees.
 - **High Accuracy & Multi-Language Support:** Achieves up to 98% transcription accuracy and supports 113 languages. It also includes specialized dictionaries for over 15 professional fields (e.g., medical, legal, finance, IT, real estate) to accurately capture complex terminology.
 - **Smart Meeting Management:** Beyond simple transcription, the AI analyzes meeting content to generate summary reports, action items, and suggestions for future discussions, significantly boosting productivity.
 - **Ultra-thin & Lightweight Design:** With a thickness of just 3mm and a weight of 32g, it's the size of a credit card. The included magnetic case allows for easy attachment to your smartphone, making it highly portable and discreet for business use.
 - **Extended Battery Life:** Offers up to 45 hours of continuous recording on a full charge and an impressive 107 days of standby time, reducing the need for frequent recharging.
 - **Secure Data Protection:** All voice data is protected with AES-256 encryption during transfer and storage. Comulytic adheres to strict privacy policies, ensuring your data is never used or shared without your explicit consent.

MAINTENANCE

Cleaning

To clean your device, gently wipe it with a soft, dry cloth. Avoid using harsh chemicals or abrasive materials, as these can damage the device's surface or internal components.

Storage

Store the Comulytic Note Pro in a cool, dry place away from direct sunlight and extreme temperatures. When not in use for extended periods, ensure the device is partially charged (around 50%) to preserve battery health.

Firmware Updates

Periodically check the Comulytic app for available firmware updates. Updates often include performance improvements,

new features, and bug fixes. Ensure your device is sufficiently charged before initiating any firmware update.

TROUBLESHOOTING

Device Not Turning On/Responding

- Ensure the device is fully charged. Connect it to a power source and wait a few minutes before attempting to power it on.
- If the device is unresponsive, try a soft reset by pressing and holding the recording button for 10-15 seconds.

Connection Issues with App

- Verify that Bluetooth is enabled on your smartphone and the Note Pro is within range.
- Restart both the Note Pro and your smartphone.
- Ensure the Comulytic app is updated to the latest version.
- If pairing fails, try unpairing the device from your phone's Bluetooth settings and re-pairing through the app.

Transcription Accuracy Issues

- Ensure the recording environment is as quiet as possible. While AI noise cancellation is effective, excessive background noise can impact accuracy.
- Speak clearly and at a moderate pace.
- Utilize the app's AI correction features for minor inaccuracies.

Slow Data Transfer

- Ensure your smartphone's Wi-Fi is enabled and connected to a stable network.
- Close other applications on your smartphone that might be consuming bandwidth.

For persistent issues not covered here, please refer to the support section.
